NARRATIVE STATEMENT BY THE CHIEF FINANCE OFFICER

INTRODUCTION

I am pleased to introduce the Council's Statement of Accounts for the year ended 31st March 2017. These accounts are presented in accordance with proper practices as set out in the Code of Practice on Local Authority Accounting in the United Kingdom, published by the Chartered Institute of Public Finance and Accountancy.

The outturn presented to the Council's Cabinet reports a revenue budget under-spend of £0.4m. This is a very pleasing outcome, particularly considering the extent of annual savings that have been built into the budget since 2010. Despite unprecedented reductions in core central government funding of £5.1m or 62% for 2011/12 to 2016/17, the Council's proactive approach to the management of resources has enabled our share of the council tax to reduce over the same period. Members and officers across the Council deserve credit for their tight budget management in what continues to be challenging circumstances for local authority finances.

During the course of 2016/17 the Council has reduced its underlying borrowing requirement (£1.3m) and undertaken infrastructure and remediation works at Dove Way, Uttoxeter. We have also continued our support for neighbourhood projects and disabled facility grants. In addition, we have also embarked on reviews of our office accommodation requirements and the delivery of our Cultural Services.

In February 2017, the Council approved a three year Medium Term Financial Strategy which demonstrates that the Council is sustainable and able to meet the anticipated funding reductions during this parliament. Together with our published efficiency plan, this will ensure that the Council remains well placed to meet the challenges ahead and that the residents of East Staffordshire continue to receive high quality services at a low cost. The strategy does, nevertheless, highlight significant financial challenges beyond this parliament.

The statements presented within the Council's accounts demonstrate a healthy fiscal position for the Borough Council. Despite the challenges during the year, we maintained our prudent and sensible approach to financial management and I am grateful for the support of members and officers who continue to endorse such an approach.

KEY AREAS OF SIGNIFICANCE WITHIN THE ACCOUNTS

The Comprehensive Income and Expenditure Account set out on page 9 of this document shows a surplus position on the provision of services of £1m. This statement measures the authority's financial performance in terms of the resources consumed and generated over the period and is presented in a similar format to a commercial enterprise. However the authority is required by law to set its budget and raise council tax on a different accounting basis. As a consequence there are a number of statutory adjustments that are made to this figure (set out on page 37-38), in order to determine the movement on the general fund balances, which was neutral as the revenue outturn surplus has been set aside within earmarked reserves in accordance with the approved financial strategy.

The general fund balance represents a minimum working balance in order to deal with any unexpected events. As at 31st March 2017 the balance, stands at £1.278m. This is an appropriate level for an authority of this size, level of expenditure and risk profile, it is also consistent with the approved medium term financial strategy. The Council also holds a number of other specific earmarked reserves to mitigate against key risks (including the impact of the Business Rates Retention Scheme) but also to allow for projects to take place over a number of years, and also to meet the future borrowing costs.

The Balance Sheet set out on page 12, shows a reduction in the total net worth of £5.9m. The most significant underlying reason for this change relates to an increase in the estimated pension fund liability from £47m to £54m. The pension fund liability is calculated by a firm of actuaries and is based on a number of assumptions. It is these assumptions that have changed, resulting in the increased liability. The pension liability represents the underlying long term commitment that the authority has to pay future retirement benefits. This increased liability has had no direct impact on the budget for the authority or the levels of council tax. The fund is regularly assessed to determine the level of future contributions necessary to ensure that it is funded in the long term and any increase in these contributions must be met from the Council's budget.

REVENUE OUTTURN 2016/2017

General Fund

The table below sets out the position of the General Fund for 2016/2017. When the Budget for the year was agreed in February 2016, it assumed total expenditure of £11.239m.

The outturn position shows that at the end of the year the amount to be raised had decreased to £10.864m, giving a surplus to be taken to reserves of £0.375m.

	Budget £'000	Outturn £'000	Variance £'000
Service Expenditure	11,239	10,864	(375)
To be met from:			
Revenue Support Grant	1,508	1,508	-
Retained Business Rates	3,200	3,200	-
Transition Grant	15	15	
Collection Fund			
Demand for Year	6,328	6,328	-
Previous Years' Surplus	188	188	-
Total Revenue Budget Support	<u>11,239</u>	<u>11,239</u>	-
Surplus for Year		(375)	(375)
	<u>11,239</u>	<u>10,864</u>	<u>(375)</u>

A full reconciliation between the above management outturn position and the financial statements is shown within the expenditure and funding analysis shown in note 5 to the accounts.

COLLECTION FUND

The Collection Fund is an agent's statement that reflects the statutory obligation of billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers of Council Tax and Business Rates (NNDR) and its distribution to the relevant authorities.

The Collection Fund shows an in year surplus of £4.2m, this includes a surplus of £0.3m in relation to Council Tax and a £3.8m surplus in relation to Business Rates. However, the Business Rates position is after taking into account contributions of £1.6m towards the prior year shortfalls. As a result there is an in-year surplus on the Business rates Account of £2.2m. Overall, after taking into account the balance brought forward from 2015/16, the Collection Fund has a net surplus of £6.3m, which will be distributed in 2017/18 and 2018/19, in accordance with the respective legislative requirements.

Further details are given in the Collection Fund Income and Expenditure account and notes on pages 87 onwards.

CAPITAL EXPENDITURE 2016/2017

During 2016/2017 the Council spent £1.99m on capital projects. A breakdown by scheme and the sources of funds used to finance this expenditure is shown below.

Analysis of Capital Expenditure	£'000	Sources of Finance	£'000
Dove Way/Pennycroft Works	935	Borrowing	53
Disabled Facility Grants	744	Revenue including Reserves	37
Neighbourhood Working Fund	173	Capital Grants and Contributions	1,671
Play Equipment	52	Capital Receipts	238
Brewhouse Arts Centre	40		
CCTV Cameras	30		
Other	25		
	1,999		1,999

During the year, the Council made a voluntary set-aside of £1.33m, in order to reduce the underlying borrowing requirement and generate revenue savings.

BORROWING

At the end of 2016/2017 the total external loan debt of the Council was £11.460m (£11.526m at 31st March 2016). In addition to which, liabilities associated with finance leases amount to £1.889m as at 31st March 2017 (£2.431m as at 31st March 2016). In the main, this relates to the Council's Waste Vehicle fleet acquired during the course of 2015/16.

PENSIONS

For the purposes of International Accounting Standard 19 (Accounting and Reporting by Retirement Benefit plans), the results of the Pension Fund actuary's calculations in respect of the Local Government Pension scheme on behalf of the Council revealed a net liability of £54m at 31 March 2017. This is shown under Long-term Liabilities on the Balance Sheet on page 12.

The pension liability of £54m represents the underlying long term commitment that the authority has to pay future retirement benefits. This deficit has no direct impact on the budget of the authority or the level of council tax. The fund is regularly assessed to determine the level of future contributions necessary to ensure that it is funded in the long term and any increase in these contributions must be met from the Council's budget.

CHANGE IN ACCOUNTING POLICES

The Code of Practice has been updated to reflect the new formats and reporting requirements for the Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement. It has also introduced a new Expenditure and Funding Analysis. This is as a result of the Telling the Story review of local authority financial statements. This is reflected in the restated comparative figures for 2015/16 and note 45 sets out the impact on the comparative figures. A number of the comparative figures within respective notes have had to be revised. This is primarily to reflect the fact that the cost of individual services no longer includes recharges for support services.

PERFORMANCE AGAINST THE CORPORATE PLAN

The Council has approved a Corporate Plan covering the period 2017/18 onwards. This is updated and refreshed on an annual basis and performance monitored throughout the year. For 2016/17 the Council set 110 corporate plan targets, of which 95% were fully achieved, which is consistent with the previous year. Overall performance is monitored against our three overarching priorities, as follows:

- Value for Money Council Services (94% fully achieved)
- Promoting Local Economic Growth (96% fully achieved)
- Protecting and Strengthening Communities (97% fully achieved)

Looking ahead to 2017/18, the Council has set a range of development targets, including:

- Leisure and Cultural Services Delivery review
- Brewhouse and Town Hall Development
- Community Sport and Health initiatives
- Town Centre Regeneration Programme
- Introduce a New Neighbourhood Working Fund

Further details on the Corporate Plan can be found at: www.eaststaffsbc.gov.uk/performance-management/corporate-plan

FINANCIAL STRATEGY FOR 2017/18 ONWARDS

The council approved its Medium term Financial Strategy for 2017/18 to 2019/20 in February 2017. This set out further significant central government funding reductions both from reductions to Revenue Support Grant and also scaling back of the New Homes Bonus Funding. In addition to this the strategy also highlights some significant risks including those associated with the scheme which localises income from business rates.

Many of these financial pressures arise as a result of the economic conditions. Nevertheless, the Council has set out a robust strategy, which means that whilst there will continue to be a need to identify ongoing savings; the budget for 2017/18 has been balanced with a surplus. The Council has published an efficiency plan which sets out our approach to delivering the savings that will be needed to balance the budget from 2018/19 onwards.

Further information in relation to the Medium Term Financial Strategy can be found on our website at: www.eaststaffsbc.gov.uk/budgets-and-spending/budgets-and-spending

AUDIT OF THE ACCOUNTS

The Council's auditors, Grant Thornton UK LLP, undertake the audit of these accounts. The contact details for the Auditor are: Mark Stocks, Partner, Grant Thornton UK LLP, The Colmore Building, 20 Colmore Circus, Birmingham, West Midlands B4 6AT.

FURTHER INFORMATION

The accounts and accompanying statistics in the following pages contain a great deal of information about East Staffordshire Borough Council's finances. I hope you will find it interesting. Further information on the Council's accounts is available from the Financial Management Unit, The Malsters, Wetmore Road, Burton upon Trent, DE14 1LS. Or by telephone (01283) 508399 or e-mail to financial.management@eaststaffsbc.gov.uk. The public has a statutory right to inspect and, if they wish, object to the accounts. The dates for exercising these rights are published on our website.

GUIDE TO THE MAIN FINANCIAL STATEMENTS

The Council's accounts for the year 2016/2017 are set out on the following pages. The accounts comprise:

Statement of Responsibilities for the Statement of Accounts

Within this statement the respective responsibilities of the Council and the Chief Finance Officer are set out in relation to the preparation of the accounts, and also of members in the approval of the accounts.

Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxations. Authorities raise taxation to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the expenditure and funding analysis and the movement in reserves statement.

Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Statement shows how the movements in year of the authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax for the year. The 'Net Increase/Decrease before transfers to earmarked reserves' line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the authority. The net assets of the authority (assets less liabilities) are matched by the reserves held by the authority.

Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those that the authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example capital receipts may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserves), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustment between accounting basis and funding basis under regulations'.

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the authority during the reporting period. The statement shows how the authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator to the extent to which the operations of the authority are funded by way of taxation and grant income or from the recipients of services provided by the authority. Investing activities represent the extent to which cash flows have been made for resources which are intended to contribute to the authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the authority.

Collection Fund Account

This is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.

Annual Governance Statement

This sets out the framework within which internal control is managed and reviewed and provides reasonable assurance as to its effectiveness. The statement reports on any weaknesses identified and the actions being taken to rectify these.

Glossary of Terms

This explains the technical terms used within the Statement of Accounts.

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's Responsibilities

The authority is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Chief Finance Officer;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- approve the Statement of Accounts.

The Responsibilities of the Chief Finance Officer

The Chief Finance Officer is responsible for the preparation of the authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ("the Code").

In preparing this Statement of Accounts, the Chief Finance Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the local authority Code of Practice.

The Chief Finance Officer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of the Chief Finance Officer

I certify that this Statement of Accounts gives a true and fair view of the financial position of the Borough Council at 31 March 2017 and its income and expenditure for the year ended 31 March 2017.

Sal Khan CPFA, MSc
Chief Finance Officer

Date:

Member Approval of the Statement of Accounts

The approval of East Staffordshire Borough Council's Statement of Accounts is the responsibility of a meeting of the Audit (Approval of Statement of Accounts) Committee.

These Accounts were presented and approved at the meeting of the Audit (Approval of Statement of Accounts) Committee on 25th July 2017.

Councillor S Smith
Chair, Audit (Approval of Statement of Accounts) Committee

CASH FLOW STATEMENT
For the year ended 31 March 2017

	Note	2016/2017 £'000	2015/2016 £'000
Net (surplus) or deficit on the provision of services		(1,002)	(185)
Adjustments to net surplus or deficit on the provision of services for non-cash movements	30	(3,793)	(4,912)
Adjustments for items included in the net surplus or deficit on the provision of services that are investing and financing activities	30	<u>1,856</u>	<u>2,316</u>
Net cash flows from operating activities		(2,939)	(2,781)
Investing activities	31	2,496	4,593
Financing activities	32	(2,223)	(1,073)
Net (increase) or decrease in cash and cash equivalents		(2,666)	739
Cash and cash equivalents at the beginning of the reporting period		(6,753)	(7,492)
Cash and cash equivalents at the end of the reporting period		<u>(9,419)</u>	<u>(6,753)</u>

NOTES TO THE ACCOUNTS

1. ACCOUNTING POLICIES

i. General Principles

The Statement of Accounts summarises the Council's transactions for the 2016/2017 financial year and its position as at the year-end 31 March 2017. The Authority is required to prepare an annual statement of accounts by the Audit and Accounts Regulations 2015, which those regulations require to be prepared in accordance with proper accounting practices. These practices under Section 21 of the 2003 Act primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2016/17, supported by International Financial reporting Standards (IFRS). The accounting convention adopted is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

ii. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue receivable from fees, charges and rents due from customers are accounted for as income at the date the Council provides the relevant goods or services or in the case of other income streams, when the authority transfers the risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the authority.
- Supplies are recorded as expenditure when they are consumed. Where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the balance sheet. Exceptions to this principle relate to electricity, gas and similar periodic payments, which are charged at the date of meter reading rather than being apportioned between financial years. In addition, housing benefits payments are matched to the subsidy claim which includes 52 weekly payment runs. This policy is consistently applied each year and therefore does not have a material effect on the year's accounts.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest payable and receivable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the balance sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected. Where the exact amount due in respect of accruals has not yet been confirmed, for example grant entitlements from Central Government, the accounts reflect the best estimate and use latest available information. The estimation techniques used have not generally been changed from the previous year.

iii. Tax Income (Council Tax, Non-Domestic Rates (NNDR) /Business Rates)

Billing authorities act as agents, collecting council tax and non-domestic rates (NNDR) on behalf of major preceptors (including government for NNDR) and, as principals, collecting council tax and NNDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the collection fund) for the collection and distribution of amounts due in respect of council tax and NNDR. Under the legislative framework for the collection fund, billing authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NNDR collected could be less than predicted.

Accounting for Council Tax and NNDR

The Council Tax and NNDR income and expenditure included in the comprehensive Income and Expenditure Statement is the Authority's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the authority's share of the year end balances in respect of council tax and NNDR relating to arrears, impairment allowances for doubtful debts, overpayments, prepayments and appeals.

iv. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in one month or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

v. Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the authority's financial performance.

vi. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, ie. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, or other events and conditions on the authority's position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

vii. Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding the fixed assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the revaluation reserve against which the losses can be written off; and
- Amortisation of intangible fixed assets attributable to the service.

The authority is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement. Depreciation, revaluation, impairment losses and amortisations are therefore replaced by a contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement.

viii Employee Benefits

Benefits Payable during Employment

Short term employee benefits are those expected to be settled within 12 months of the year end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits for current employees and are recognised as an expense for services in the year in which employees render the service to the authority. An accrual is made for the cost of the holiday entitlements (or any form of leave, such as time off in lieu) earned by employees but not taken before the year end in which employees can carry forward into the next financial year. The accrual is charged to the surplus or deficit in the provision of services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the authority to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the Comprehensive Income and Expenditure Statement at the earlier of when the authority can no longer withdraw the offer of those benefits or when the authority recognises costs for restricting.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement of Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at year-end.

Post Employment Benefits

The employees of the Council may participate in the Local Government Pension Scheme administered by Staffordshire County Council, which provides defined benefits to members (retirement lump sums and pensions), earned as employees work for the Council.

The Local Government Pension Scheme

The Local Government scheme is accounted for as a defined benefits scheme:

The liabilities of the Staffordshire County Council pension scheme attributable to this Council are included in the balance sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to the retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc and projections of future earnings by employees.

Liabilities are discounted to their value at current prices, using a discount rate of 2.6% (3.5% 2015/16). This rate is equal to the yield available on long-dated, high quality corporate bonds and is commonly referred to as the AA Corporate Bond Rate.

The assets of Staffordshire County Council pension fund attributable to the Council are included in the Balance Sheet at their fair value:

- Quoted securities – current bid price
- Unquoted securities – professional estimate
- Unitised securities – current bid price
- Property – market value

The change in the net pensions liability is analysed into the following components:

- Current service cost – the increase in liabilities as a result of years of service earned this year. This is allocated to the revenue accounts of the services for whom the employees worked.
- Past service gains/costs – the increase or decrease in liabilities arising from decisions made in the current year relating to years of service earned in earlier years. This is debited to the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement.
- Net interest cost on the defined benefit liability, ie. Net interest expense for the authority – the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculate by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability at the beginning of the the period – taking into account any changes in the net defined benefit payments.
- The return on plan assets – excluding amounts included in net interest on the defined benefit liability – charged to the Pension Reserve as other Comprehensive Income and Expenditure
- Actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions. This is debited to the Pensions Reserve as other Comprehensive Income and Expenditure.

- Contributions paid to Staffordshire County Council pension fund – cash paid as employer’s contributions to the pension fund in settlement of liabilities – not accounted for as an expense.

In relation to retirement benefits, statutory provisions limit the Council to raising council tax to cover the amounts payable by the Council to the pension fund in the year. In the Movement on Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at year end. The negative balance that arises on the Pension Reserve thereby measures the beneficial impact on the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

ix Events after the Balance Sheet Date

An event occurring after the balance sheet date of 31 March, which provides evidence of conditions which existed at 31 March, is an adjusting event with the amounts shown in the Statement of Accounts updated to take account of the new information.

An event occurring after 31 March which indicates conditions that arose from 1 April onwards is a non-adjusting event with no effect on amounts included in the Statement of Accounts. However if these events are material they are disclosed in the notes to the accounts. Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

x Financial Instruments

Financial Assets

Financial assets i.e. amounts invested, are classified as either loans and receivables which are assets with fixed or determinable payments but are not quoted in an active market, or available-for-sale assets which have a quoted market price and/or do not have fixed or determinable payments.

Loans and receivables are initially measured at fair value and carried in the balance sheet at their amortised cost. Annual credits to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans the Council made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year of the loan agreement.

If an asset is identified as impaired because of a likelihood that payments due will not be made, the asset is written down and a charge made to the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the assets original effective interest rate.

At the present time the Council has no available-for-sale assets.

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the authority becomes party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instruments to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest) and interest charged to the Income and Expenditure Account is the amount payable for the year in the loan agreement.

Gains or losses on the repurchase or early settlement of borrowing are credited and debited to the Income and Expenditure Account in the year of repurchase/settlement. However if repurchase takes place as part of a restructuring of the loan portfolio involving the modification or exchange of existing instruments, the premium or discount is deducted from or added to the amortised cost of the new loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Income and Expenditure Account, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain/loss over the term remaining on the loan against which the premium was payable or discount receivable when it was repaid or a nominated shorter period. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movements in Reserves Statement.

xi. Foreign Currency Translation

From time to time the authority occasionally enters into a transaction denominated in a foreign currency. The transaction is converted into sterling at the exchange rate applicable on the date of the transaction.

xii. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as they become due to the authority when there is reasonable assurance that:

- The authority will comply with the conditions attached to the payments, and
- The grants and contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until the conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-specific Grant Income (non-ringfenced revenue grants and capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the capital grants unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

xiii. Heritage Assets

The authority's heritage assets include various paintings, sculptures and civic items which are held primarily as a contribution to knowledge and culture. Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with our accounting policies for plant property and equipment. However some of these measurement rules are relaxed in relation to Heritage Assets.

Heritage asset records are maintained within the fixed asset register and insurance records. Access to the vast majority of these items can be gained via the Brewhouse Centre and mayoral and civic rooms within the Town Hall.

Heritage Assets are measured and reported in the balance sheet based on insurance valuation, which are periodically updated. However sculptures are reported within the balance sheet at depreciated historic cost.

All assets are depreciated to the Comprehensive Income and Expenditure Statement based on an estimate of their useful lives – generally 50 years with sculptures 25 years. The carrying values are reviewed where there is evidence of impairment this is recognised and measured in accordance with our general policies on impairment, as set out in xx.

Further information in relation to Heritage Assets is set out with note 14 to the accounts.

xiv. Intangible Assets

Expenditure on assets that do not have physical substance but are identifiable and controlled by the Council, e.g. computer software and related licences, is capitalised at cost when it will bring benefits to the Council for more than one financial year. The balance is amortised to the relevant service lines in the Comprehensive Income and Expenditure Statement over the economic life of the investment to reflect the consumption of benefits.

An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses are recognised within the relevant service line within the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains or losses are not permitted to have an impact on the General Fund balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for sale proceeds greater the £10,000) the Capital Receipts Reserve.

xv. Interests in Companies and Other Entities

The Council has an interest in the following limited companies: Uttoxeter Leisure and Development Company Ltd, set up to run the Uttoxeter Racecourse; Uttoxeter Estates Limited, whose principal activity is property ownership and management. This interest does not require the preparation of group accounts. In the Council's accounts, this interest is recorded as financial assets at cost.

xvi. Inventories and Long Term Contracts

Stocks/Inventories are included in the accounts on the basis of the latest price paid. This is a departure from the requirements of the Code, which require stocks to be shown at the lower of cost or net realisable value. The effect of the different treatment is immaterial.

Work in progress on long term contracts, for which interim valuations are made, is included in the surplus or deficit in the provision of services at historical cost covering labour, materials and direct overheads, net of any progress payments received.

xvii. Investment Property

Investment properties are those that are used solely to earn rentals and/or capital appreciation. The definition is not met if the property is used in a way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's length. As a non-financial asset, investment properties are valued at highest and best use. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses are posted to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the financing and investment income line and result in a gain for the General Fund balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund balance. The gains and losses are therefore reversed out of the General Fund balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

xviii Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

Finance Leases – Authority as Lessee

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of a lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the authority are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- A charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability, and
- A finance charge (debited to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the assets estimated life (where ownership of the asset does not transfer to the authority at the end of the lease period).

The authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising from leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund balance, by way of an adjustment transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases – Authority as Lessee

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from the use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (eg. there is a rent free period at the start of the lease).

Finance Leases – Authority as Lessor

Where the authority grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the other operating expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the authority's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (ie. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- A charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premiums received), and
- Finance income (credited to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund balance to the deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the capital receipts reserve.

The written-off value of disposals is not a charge against council tax, as the cost of plant, property and equipment is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases – Authority as Lessor

Where the authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the other operating expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments. Any significant initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as the rental income.

xix. Property, Plant and Equipment

Assets that have physical substance and are held for use in the provision of services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

All expenditure on the acquisition, creation or enhancement of tangible plant, property and equipment is capitalised on an accruals basis, provided that it yields benefit to the Council and the services it provides for more than one financial year. Expenditure that secures but does not extend the previously assessed standards of performance of the asset, e.g. repairs and maintenance, is charged to revenue as it is incurred.

Measurement

Assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use. The authority does not capitalise borrowing costs. Assets are then carried in the balance sheet using the following measurement bases:

- other land and buildings, vehicles, plant and equipment – current value, determined as the amount that would be paid for the asset in existing use.
- infrastructure, community assets and assets under construction - depreciated historical cost.
- Surplus assets, the current value measurement base is fair value, estimated at highest and best use from the market participants perspective.

Where there is not market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Surplus or deficit on the Provision of Services where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against the balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the revaluation reserve, the carrying amount of the asset is written down against the balance (up to the accumulated gains)
- Where there is no balance in the Revaluation Reserve or insufficient balance, the impairment is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for all property, plant and equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain community assets) and assets that are yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- Buildings – straight line allocation over the useful life of the property as estimated by the valuer.
- Vehicles, plant, furniture and equipment – straight line allocation over the useful life of the asset.
- Infrastructure - straight line allocation over the useful life of the asset.

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charge on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

De Minimis Levels

Charges to Revenue are made subject to a de minimis level regarding the capitalisation of expenditure. This has been set at £15,000 for land and buildings and £10,000 for equipment. If expenditure that would normally be capital is incurred below these levels, it would normally be charged directly to the revenue cost of the service concerned.

Disposals and Non-Current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through the sale transaction rather than through its continuing use, it is reclassified as an asset held for sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the other operating expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the surplus or deficit on the provision of services. Depreciation is not charged on assets held for sale.

If assets no longer meet the criteria to be classified as assets held for sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as held for sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as assets held for sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the other operating expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (ie netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. These receipts are appropriated to the Capital Receipts Reserve from the General Fund balance in the Movement in Reserves Statement. These receipts can only be used for new capital investment or set aside to reduce the authority's underlying need to borrow.

The written off value of disposals is not a charge against council tax, as the cost of plant, property and equipment is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Reserve balance in the Movement in Reserves Statement.

xx. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the authority may be involved in a court case that could eventually result in the making of a settlement or payment of compensation.

Provisions are charges as an expense to the appropriate line in the Comprehensive Income and Expenditure Statement in the year that the authority becomes aware of the obligation, and can measure at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at each balance Sheet date – where it becomes less probable that a transfer of economic benefits will now be required (or a lower settlement anticipated), the provision is reversed (or reduced) and credited back to the relevant service.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow or resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not included in the accounts as an item of expenditure. They are disclosed in the Notes to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow or economic benefits or service potential.

xxi Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service revenue account in that year and included in the Net Cost of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for tangible fixed assets and retirement benefits and do not represent useable resources for the Council. These reserves are explained in the relevant accounting policies.

xxii. Revenue Expenditure Funded from Capital under Statute (REFCUS)

REFCUS represents expenditure that may be capitalised under statutory provisions but does not result in the creation of tangible assets. REFCUS incurred during the year have been written off as expenditure to the relevant service revenue account in the year. Where the Council has decided to meet the cost of the REFCUS from existing capital resources or by borrowing, a transfer to the Capital Adjustment Account then reverses out the amounts charged to the Movement in Reserves Statement so that there is no impact on the level of council tax.

xxiii Value Added Tax

VAT payable is included as an expense only to the extent that it is not recoverable from HMRC. VAT receivable is excluded from income.

xxiv. Fair Value Measurement

The authority measures some of its non-financial assets such as surplus assets and investment properties at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the assets or liability; or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The authority measures the fair value of an asset or liability using assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the authority takes into account a market participants ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The authority uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the authority's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.
- Level 2 – inputs other than quoted prices include within level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 – unobservable inputs for the asset or liability.

2. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT NOT YET ADOPTED

Under the Code of Practice on Local Authority Accounting in the United Kingdom 2016/17 (the Code), the Council is required to disclose information setting out the impact of an accounting change required by a new accounting standard that has been issued but not yet adopted by the Code. There are no such items to disclose.

3. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out in note 1, the authority has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are as follows:-

- There is a high degree of uncertainty about future levels of funding for local government. However, the authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the authority have been impaired as a result of a need to close facilities and reduce levels of service provision.
- The authority has £0.3m deposited with an Icelandic bank which is in administration. These accounts contain judgements and assumptions in relation to the timing and amount of future repayments.
- The Business Rates Retention Scheme came into effect from 1st April 2013. The accounts include a provision for the estimated cost of appeals that have been lodged with the Valuation Office against the rateable value of businesses in the area, as well as a provision against the potential cost of applications for mandatory relief from NHS Trusts. The accounts contain judgements as to the extent that these appeals/applications are likely to be successful.

4. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the authority's Balance Sheet as at 31st March 2017 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if actual result differs from assumptions
Pensions Liability	Estimation of the net liability to pay pensions (£54.4m as at 31st March 2017) depends on a number of complex judgements relating to the discount rates used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension assets. A firm of consulting actuaries is engaged to provide the authority with expert advice about the assumptions applied.	The effects on the net pension's liability of changes in individual assumptions can be measured. For instance, a increase in member life expectancy of 1 year would result in a increase in the pension liability of approx £6.8m

Plant, Property and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets. The total carry value of depreciation as at 31 st March 2017 is £10.3m, with annual charges of £1.6m.	If the useful lives of assets reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that annual depreciation charge for buildings would increase by £0.038m for every year that useful lives had to be reduced.
Business Rate Appeals	As at 31 st March the Council's share of the estimated appeals against business rates is £2.2m. This is a complex calculation based on past success levels for individual categories of properties.	Every 1% increase in the overall level of success would increase the provision by £0.2m.
Fair Value Measurements	When fair value for financial assets and liabilities cannot be measured based on quoted prices in active markets (i.e. level 1 inputs), their fair value is measured using valuation techniques (e.g. quoted prices for similar assets or liabilities in active markets or the discounted cash flow model). Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in assumptions used could affect the fair value of the authority's assets and liabilities. Where level 1 inputs are not available the authority employs relevant experts to identify the most appropriate valuation techniques to determine fair value (for example for investment properties the external valuer).	The authority uses the discounted cash flow model to measure the fair value of some of its investment properties. Significant unobservable inputs used include management assumptions regarding rent levels, vacancy levels and discount rates. Significant changes in any of these unobservable inputs would result in lower or higher fair value measurement.

This list does not include assets and liabilities that have been carried at fair value based on a recently observed market price.

5. NOTE TO THE EXPENDITURE AND FUNDING ANALYSIS

The expenditure and funding analysis shows how annual expenditure is used and funded from resources (government grants, rents, council tax and business rates) by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the council's services. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Explanatory Notes:

Note 1 - Adjustments for Capital Purposes

This column adds in depreciation and impairment and revaluation gains and losses in the services line, and adjusts for the statutory financing charge (MRP) and Revenue Expenditure Financed from Capital under Statute (REFCUS).

In addition, within the other income and expenditure it adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets. The taxation and non-specific grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or which conditions were satisfied in the year.

Note 2 - Net Change for Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS19 Employee Benefits Pension related expenditure and income:

- For Services – this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs.
- For Financing and Investment Income and Expenditure – the net interest on the defined benefit liability is charged to the CIES.

Note 3 - Other Differences

The other main differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:

- For services – this includes adjustments for employee benefits, such as accrued leave, which are adjusted through the Accumulated Absences Account.
- For financing and investment income and expenditure – the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts
- The charge under Taxation and non-specific grant income and expenditure represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the code. This is a timing difference as any difference will be brought forward in future surpluses or deficits on the Collection Fund.
- In addition, there are a number of re-classifications of expenditure for the purposes of conversion to the format for the Comprehensive Income and Expenditure. These include the transfer of New Homes Bonus from the corporate items line to the Taxation and non-specific Income line and the transfer of interest payments and receipts from financial services to the financing and investment line.

Income		
Fees, charges and other service income	(9,590)	(11,102)
Other Grants and Contributions	(914)	(1,116)
Interest and investment income, including Pensions	(2,696)	(2,399)
Income from council tax and non-domestic rates	(30,315)	(29,120)
Government Grants (Note 37)	(33,392)	(36,225)
Gain on Disposal of Assets/Financial Instruments	-	(233)
Total Income	(76,907)	(80,195)
Surplus or Deficit on the Provision of Services	(1,002)	(185)

7. MATERIAL AND OTHER NOTABLE ITEMS OF INCOME AND EXPENSE

There are no material items of income and expenses during 2016/17.

For 2015/16, included within the Non-distributed cost line of the Comprehensive Income and Expenditure Statement is a material asset revaluation. This relates to land at High Street, Burton which has seen a reduction in value of £2.2m. There has also been a material increase in the asset relating to land at Dove Way Uttoxeter of £2.1m. This is incorporated within the (surplus)/deficit on the revaluation of non-current assets within the Comprehensive Income and Expenditure Statement.

For the purposes of valuation assets are grouped into classes. Assets within a class are valued at the same time. The table below shows the different classes within the asset net book value totals shown in the table above.

	31st March 2017	31st March 2016
	£'000	£'000
Other Land and Buildings:		
Car Parks	8,865	8,865
Cemeteries & Crematorium	231	243
Changing Rooms	76	90
Community Centre	1,111	1,148
Leisure	9,231	9,596
Misc Property	6,271	5,629
Operational Buildings	1,888	1,920
Public Conveniences	404	418
Vehicles, Plant and Equipment	2,856	3,602
Infrastructure	1,905	2,030
Community Assets	493	541
Assets Under Construction	325	752
Surplus Assets	3,359	4,145
	37,015	38,979

Depreciation

The following useful lives and depreciation rates have been used in the calculation of depreciation:-

Other Land and Buildings	10 – 100 years
Vehicles, Plant and Equipment	
Car Park Ticket Machines	15 years
CCTV Cameras	Between 5 and 10 years
Computer Hardware and Software	3 or 5 years
Parking Meters	15 years
Play Equipment	10 years
Recycling Bins	10 years
Others	Between 2 and 10 years
Infrastructure Assets	
Bus shelters	15 years
Lighting	10 years
High Street/New Street improvements	50 years
Tree Planting	100 years
Others, including footpaths, traffic calming, Cycle routes etc	Between 10 and 25 years
Community Assets	
Enhancement of Parks and Open Spaces	10 years
Works of Art and Sculptures	25 or 50 years

Capital Commitments

The Council has £11k in commitments outstanding in relation to capital contracts as at 31st March 2017 (2016 £0.4m).

Effects of Changes in Estimates

There have been no material changes in estimates during 2016/17.

Revaluations

The following statement shows the progress of the Council's rolling programme for the revaluation of fixed assets. The valuations at 1st April 2012 were undertaken by the Council's internal valuer, the former Assets and Estates Manager who was RICS qualified. Valuations as at 1st April 2013, 2014, 2015 and 2016 have been undertaken by externally appointed valuers, Rushton Hickman. An element of the surplus asset value (£1.5m) in relation to land off High Street, Burton has been valued by Galloway Property Consultants at 31st March 2017. The basis for valuation is set out in the accounting policies.

For those assets not subject to formal revaluation during the course of 2016/17, the valuer has performed a desk top review to ensure that these assets are not materially misstated from their balance sheet carrying value.

	Land & Buildings £'000	Vehicles, Plant & Equipment £'000	Surplus Assets £'000	TOTAL £'000
Valued at historical cost	281	2,856	-	3,137
Valued at current value as at 1 April				
2016	5,916			5,916
2015	35			35
2014				-
2013	10,941			10,941
2012	8,829			8,829
Valued at current value as at 31 March 2016	2,002			2,002
Valued at current value as at 31 December 2016	73		1,859	1,932
Valued at current value as at 31 March 2017			1,500	1,500
Net Book Value at 31 March 2017	28,077	2,856	3,359	34,292
Other Assets (all valued and depreciated, where necessary)				
Infrastructure Assets				1,905
Community Assets				493
Assets Under Construction				325
Net Book Value of Assets at 31 March 2017				37,015

Since 1 April 2015, the council's surplus properties are valued in accordance with the fair value hierarchy and have been assessed as level 2 (see note 1 xxv for explanation of level 2). The valuation technique for surplus properties at level 2 uses a market approach which takes into account market conditions, recent sale prices and other relevant information for similar assets in the local authority area. Market conditions are such that similar properties are actively purchased/sold and the level of observable inputs are significant.

14. INVESTMENT PROPERTIES

The following items of income and expense have been accounted for in the financing and investment income and expenditure line of the Comprehensive Income and Expenditure Statement.

Due to a change in accounting practice the figures for 2015/16 in the following table have been restated to remove support service charges.

	2016/17	2015/16
	£'000	£'000
Rental income from investment property	(777)	(804)
Direct operating expenses arising from investment property	232	74
Loss on Disposal	0	0
Revaluation Changes	445	(643)
Net (Gain) / Loss	(100)	(1,373)

*The comparative figures for 2015/16 have been revised following the accounting changes to the format of the CIES and the exclusion of support service recharges.

Movements during the year in relation to Investment Property carrying value are shown in the table below:

	2016/17	2015/16
	£'000	£'000
Balance at start of year	9,516	8,873
Additions	-	-
Reclassifications from Assets under Construction	509	-
Disposals	(60)	-
Net gains/losses from fair value adjustments	(445)	643
Balance at Year end	9,520	9,516

Fair value measurement of investment properties

Fair Value Hierarchy

The council's investment property portfolio has been assessed as either level 2 or level 3 for valuation purposes (see note 1 xxv for explanation of fair value levels). Details are shown in the tables below:

31st March 2017	Quoted prices in active markets for identical assets	Other significant observable inputs	Other significant Unobservable inputs	Fair Value 31st March 2017
Recurring fair value measurements using:	Level 1	Level 2	Level 3	
	£'000	£'000	£'000	£'000
Residential	0	0	0	0
Office Units	0	0	327	327
Commercial units	0	77	6,460	6,537
Other	0	2,542	114	2,656
Total	0	2,619	6,901	9,520

31st March 2016 Recurring fair value measurements using:	Quoted prices in active markets for identical assets	Other significant observable inputs	Other significant Unobservable inputs	Fair Value 31st March 2016
	Level 1	Level 2	Level 3	
	£'000	£'000	£'000	£'000
Residential	0	0	0	0
Office Units	0	0	292	292
Commercial units	0	77	6,347	6,424
Other	0	2,682	118	2,800
Total	0	2,759	6,757	9,516

Transfers between levels of the fair value hierarchy

Transfers took place between levels 2 and 3 during the year following the inclusion of two investment properties within a local development scheme that once completed will enable residential properties to be built.

Valuation Techniques used to determine Level 2 and Level 3 Fair Values for Investment Properties:

Significant Observable Inputs – Level 2

The fair value for investment properties at level 2 has been measured using a market approach which takes into account market conditions, recent sale prices and other relevant information for similar assets in the local authority area. Market conditions are such that similar properties are actively purchased/sold and the level of observable inputs are significant, leading to properties being categorised as level 2 on the fair value hierarchy.

Significant Unobservable Inputs – Level 3

The fair value for investment properties at level 3 has been measured using an income approach taking account available factors such as rent, duration of lease, occupancy and local market conditions. Properties where there is little or no active market are also included here.

Highest and Best Use of Investment Properties

In estimating the fair value of the authority's investment properties, the highest and best use of the properties is their current use.

Valuation Techniques and Process

There has been no change in the valuation techniques used during the year for investment properties.

The fair value of the authority's investment properties is measured annually at each reporting date. All valuations are carried out by an independent external valuer, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. The authority's valuation experts work closely with finance officers regarding all valuation matters.

**Reconciliation of Fair Value Measurements (using significant unobservable inputs)
Categorised within level 3 of the Fair Value Hierarchy**

	2016/17	2015/16
	£'001	£'000
Balance at start of year	6,757	7,017
Transfer into Level 3	0	0
Transfers out of Level 3	0	(397)
Total gains (or losses) for the period included in Surplus or Deficit on the Provision of Services resulting from changes in the fair value.	144	137
Additions	0	0
Disposals	0	0
Balance at Year end	6,901	6,757

Gains or losses arising from changes in fair value of the investment property are recognised in the surplus or deficit on the provision of services – financing and investment income and expenditure line.

Quantitative Information about Fair Value measurement of Investment Properties using Significant Unobservable Inputs – Level 3

	As at 31st March 2017 £'000	Valuation Technique used to measure fair value	Unobservable inputs	Range (weighted average used)	Sensitivity
Office Units	327	Income	} Future rental income/yield }	} 5% -11% (9.1%) }	Significant variations in yield will result in a significantly lower or higher fair value
Commercial units	6,460	Income			
Other	110	Income			
Other	4	Market	No active market	n/a	n/a
Total	6,901				

There are no restrictions on the authority's ability to realise the value inherent in its investment property or on the authority's right to the remittance of income and the proceeds of disposal. The authority has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

15. INTANGIBLE ASSETS

The authority accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment.

All software is given a finite life, based on assessments of the period that the software is expected to be of use to the authority. The useful life assigned to the major software suites used by the authority is generally 5 years.

The carrying amount of these software licences is amortised on a straight line basis. The amortisation of £15k to revenue was charged to the waste management services within the environmental services line in the Net Cost of Services within the Comprehensive Income and Expenditure Statement.

	2016/17	2015/16
	£'000	£'000
Balance at start of year		
Gross Carrying amount	396	888
Accumulated amortisation	(345)	(841)
Net Carrying Amount at start of year	51	47
Additions	7	16
Disposals	0	(508)
Amortisation for Period	(15)	(12)
Amortisation on disposals	0	508
Net Carrying Amount at end of year	43	51

16. HERITAGE ASSETS

Reconciliation of the carrying value of heritage assets held by the authority is set out below. Valuations are undertaken, as set out below, with the last valuation dated January 2010.

	Ceramics £'000	Art Work £'000	Civic Regalia £'000	Other £'000	Total Heritage Assets £'000
Cost or Valuation					
1st April 2010	65	176	60	119	420

Net Book Value 31/3/16	57	225	55	104	441
Net Book Value 31/3/17	56	217	53	102	428

Ceramics, Porcelain & Silverware etc

The authority's collection of ceramics, porcelain work and silverware is reported within the balance sheet at insurance valuation, which is based on market values. These insurance valuations are updated periodically.

Art Collection

The authority's art collection includes a number of paintings and bronze figures which are held at both the Town Hall and the Brewhouse as well as a number of sculptures located around the Borough. Paintings are held within the Balance Sheet at insurance valuation, which is based on market values. These are updated periodically. Sculptures are held within the balance sheet at depreciated historic cost.

Civic Regalia

This includes the mayoral chains, mace and stand. These are reported within the balance sheet at insurance valuation, which is based on market values. These insurance valuations are updated periodically.

Other items

This includes other misc items including fifty two leaded window panels of past mayors of the Borough from 1880 – 1975. These items are also reported within the balance sheet at insurance valuation, which is based on market values. These insurance valuations are updated periodically.

Additions

During the course of 2016/17 there were no new additions.

The code requires, where practical, the disclosure of information in relation to these assets for the previous 4 years. This is neither practical nor significant in the context of these accounts.

17. LONG-TERM INVESTMENTS

	2016/17	2015/16
	£	£
Burton Albion Football Club (400 Shares)	496	496
Icelandic Investments*	13,709	17,318
Instaffs (UK) Ltd	1	1
Outwoods Parish Council	2,144	2,144
Uttoxeter Racecourse (19 Shares)	19	19
Uttoxeter Estates Limited (19 Shares)	19	19
	16,388	19,997

*This represents the long term element of the Impaired Icelandic investments. Further details can be found at Note 41.

18. LONG-TERM DEBTORS

These are mortgage advances made to previous Council tenants and private individuals under the Housing Act 1958. In addition, following the winding up of the Kickstart programme, loans to households totalling £162k were transferred to the Council and £28k repayments have been received to date. Transactions for the year are as follows:

	Balance at 1 April £'000	Accrued in Year £'000	Repaid for year £'000	Balance at 31 March £'000
Housing Advances	20	1	-	21
Yoeman Industrial Estate	0	36	-	36
Kick Start Loan Portfolio	134	-	-	134
Plant, Property and Equipment - Finance Leases	694	-	-	694
	848	37	0	885

19. FINANCIAL INSTRUMENTS

The borrowings and investments disclosed in the Balance Sheet are made up of the following categories of financial instruments:

	Long-Term		Short-Term	
	31 March 2017 £'000	31 March 2016 £'000	31 March 2017 £'000	31 March 2016 £'000
Financial liabilities at amortised cost	10,835	10,895	625	632
Financial liabilities at fair value through profit and loss	0	0	0	0
Total Borrowings	10,835	10,895	625	632
Loans and receivables	14	17	22,359	17,314
Available-for-sale financial assets	0	0	3,000	0
Unquoted Equity Investment at Cost	0	0	0	0
Total Investments	14	17	25,359	17,314
Financial assets carried at contract amounts (note 1)	885	848	3,002	3,312
Total Debtors	885	848	3,002	3,312
Financial liabilities carried at contract amounts (note 1)	0	0	6,865	5,142
Total Creditors	0	0	6,865	5,142
Finance Lease Liabilities	1,889	2,431	0	0
Total other Long Term Liabilities	1,889	2,431	0	0

Note 1 – These exclude statutory amounts relating to the collection fund.

An analysis of financial liabilities is shown in note 27 – Borrowing. Details of loans and receivables are given in note 17 – Long-term investments.

Income, expense, gains and losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments are made up as follows:

	Financial Liabilities		Financial Assets		Total
	31st March 2017 £'000	31st March 2016 £'000	31st March 2017 £'000	31st March 2016 £'000	31st March 2017 £'000
Interest expense	590	595	0	0	590
Total expense in surplus or deficit in the provision of services	590	595	0	0	590
Interest income	0	0	150	174	150
Impairment changes	0	0	(11)	13	(11)
Gains on de-recognition	0	0	0	0	0
Total income in surplus or deficit in the provision of services	0	0	139	187	139
Net loss/(gain) for the year	590	595	139	187	729

Fair Values of assets and liabilities that are not measured at fair Value (but for which fair value disclosures are required)

Financial liabilities and financial assets represented by loans and investments are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following methodology and assumptions:

The fair value of an instrument is determined by calculating the Net Present Value of future cash flows, which provides an estimate of the value of payments/receipts in the future in today's terms.

The discount rate used in the NPV calculation should be equal to the current rate in relation to an instrument from a comparable lender. This is the rate applicable in the market on the date of valuation.

The new borrowing rate, as opposed to the premature repayment rate, has been used for PWLB borrowing. The premature repayment rate includes a margin representing the lender's profit on rescheduling loans, which should not be included in the fair value calculation. For comparison purposes this has been included in a footnote to the table.

Accrued interest has been included in the fair value calculation to provide a comparison with the carrying value on the Balance Sheet.

Fair value has not been established for the authority's unquoted equity investments as it cannot be reliably estimated – attempts to value these assets has produced significant differences in valuations. As this is the case, these are measured at cost until reliable estimates can be obtained.

The rates used in the valuation were obtained by Capita from the market on 31 March 2017, using bid prices where applicable. There has been no change in the valuation techniques used during the financial year for the financial instruments.

The fair values calculated are as follows:

	31 March 2017		31 March 2016	
	Carrying Amount £'000	Fair Value £'000	Carrying Amount £'000	Fair Value £'000
Financial liabilities	11,461	14,935*	11,526	14,659
The fair value is higher than the carrying amount as premia would be payable if loans were prematurely repaid.				
Loans and receivables	25,373	25,393	17,331	17,376
The fair value utilises a Net Present Value approach, and a prevailing rate of a similar instrument with a published market rate, as the discount factor				

**The table above shows the fair value of PWLB loan liabilities calculated using the new borrowing rate. By comparison using the premature borrowing rate would give a fair value figure of £16.013m as at 31st March 2017 and £15.883m as at 31st March 2016.*

The loans and receivables figure assumes fair value of the Icelandic Investments is the same as the carrying amount. Further information in relation to the Council's Icelandic Investments is shown at Note 41.

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

Fair value hierarchy for financial assets and financial liabilities that are not measured at fair value

	31st March 2017	31st March 2016
	Other significant observable inputs (Level 2) £'000	Other significant observable inputs (Level 2) £'000
<u>Financial Liabilities held at amortised cost</u>		
Loans and borrowings	14,935	14,659
	14,935	14,659
<u>Financial Assets held at amortised cost</u>		
Other loans and receivables	25,393	17,376
	25,393	17,376

20. FINANCIAL INSTRUMENTS RISKS

Nature of Risks

The Council's activities expose it to a variety of financial risks, with the key risks being:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Council;
- Liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments;
- Re-financing risk – the possibility that the Council might be required to renew a financial instrument on maturity at disadvantageous interest rates or terms;

- Market risk – the possibility that financial loss might arise for the Council as a result of changes in factors such as interest rate movements.

Procedures for Managing Risks

The Council's overall risk management procedures focus on the unpredictability of financial markets and implementing restrictions to minimise these risks. The procedures for risk management are set out through a legal framework in the Local Government Act 2003 and associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act. These procedures require the Council to manage risk in the following ways:

- By formally adopting the requirements of the Code of Practice;
- By approving annually in advance prudential indicators for the following three years limiting the Council's overall borrowing, its maximum and minimum exposures to fixed and variable rates, its maximum and minimum exposures in the maturity structure of its debt and its maximum annual exposures to investments maturing beyond a year;
- By approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties.

The Council meeting of 22nd February 2016 approved and accepted the Treasury Management Strategy Statement and Annual Investment Strategy 2016/2017 covering the above and which includes Prudential Indicators for 2016/2017 to 2018/2019. Actual performance for 2016/2017 is reported in the Annual Treasury Management Report submitted to Council in June 2017.

The Council maintains documented principles for overall risk management, as well as policies covering specific areas, such as interest rate risk, credit risk and the investment of surplus cash. These are included in Treasury Management Practices which are a requirement of the Code and are reviewed annually.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers i.e. outstanding debtors. Deposits are not made with banks and financial institutions unless they meet the minimum requirements and do not exceed the limits set in the investment criteria outlined in the Annual Investment Strategy 2016/2017.

The Council uses the creditworthiness service provided by Capita. This service uses a sophisticated modelling approach with credit ratings from all three agencies – Fitch, Moodys and Standard Poors, forming the core element. However, it does not rely solely on the current credit ratings of counterparties but also uses the following as overlays:

- Credit watches and credit outlooks from credit rating agencies
- CDS spreads to give early warning of likely changes in credit ratings
- Sovereign ratings to select counterparties from only the most creditworthy countries.

The strategy recognises only institutions in Countries with an 'AA' sovereignty weighting, with the UK being the only exception, and reviews all ratings on a regular basis, removing those counterparties that no longer meet the criteria.

The table below highlights all short-term investments held at the 31st March 2017.

Balance Sheet 31st March 2016 £	Institution / Account	Principal £	Accrued Interest £	Balance Sheet 31st March 2017 £
2,517,507	Lloyds	3,500,000	7,740	3,507,740
2,016,531	Bank Of Scotland	2,500,000	2,815	2,502,815
1,503,744	Barclays	3,398,706	1,451	3,400,157
0	King and Shaxson (RBS CD)	3,000,000	-	3,000,000
1,000,000	Lloyds Notice Account	0	-	0
3,500,000	Santander Notice Account	3,500,000	-	3,500,000
22,848	Icelandic Investments (Short Term Element)	29,401	-	29,401
10,560,630	Total	15,928,107	12,006	15,940,113

Other deposit account investment balances held within the balance sheet as cash equivalents are as follows:

Balance Sheet 31st March 2016 £	Institution / Account	Principal £	Accrued Interest £	Balance Sheet 31st March 2017 £
1,881,160	Barclays	-	-	0
627,604	Royal Bank of Scotland	78,268	6	78,274
700,000	Federated Money Market Fund	1,450,000	-	1,450,000
4,000,000	Insight Money Market Fund	4,000,000	-	4,000,000
0	Standard Life Money Market Fund	4,000,000	-	4,000,000
7,208,764	Total	9,528,268	6	9,528,274

Further information relating to financial assets that have been impaired (Icelandic Investments) can be found in notes 41.

The Authority's maximum exposure to credit risk in relation to its investments in banks and building societies cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of recoverability applies to all of the Authority's deposits, but there was no evidence at the 31 March 2017 that this was likely to crystallise.

	Amounts at 31 March 2017 £000s	Historical experience of default %	Historical experience adjusted for market conditions as at 31 March 2016 %	Estimated maximum exposure to default and uncollectability £000s
Customers	1,448	2.6%	3.6%	52
Total	1,448			52

In relation to customers, the overdue amount from customers can be classified by age. This is shown in the table below.

Period	£000
Less than 90 days	495
90 days to 150 days	56
150 days to 365 days	178
Greater than 365 days	719

Liquidity Risk

The Council has access to borrowings from the Money Markets to cover any day to day cash flow needs and the Public Works Loan Board provides access to longer term funds. The Council is required by the Local Government Finance Act 1992 to set a balanced budget, which ensures sufficient monies are raised to cover annual expenditure. There is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

Re-financing Risk

This risk relates to both the maturing of longer term financial assets and financial liabilities. The approved prudential indicator limits for the maturity structure of debt and the limits placed on investments placed for longer than one year are the key parameters used to address this risk.

Operational risks are addressed within the approved parameters which include:

- Monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt;
- Monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs and the spread of longer term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

The maturity analysis of financial liabilities is shown in note 27.

Market Risk

The Council is exposed to interest rate movements on its borrowings and investments and has a number of strategies for managing interest rate risk. The annual Treasury Management Strategy Statement sets the Council's prudential indicators and its expected treasury operations, including an expectation of interest rate movements. From this a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure. The authority also, as part of the budget setting process, models the potential variation of interest rates during the year and the effect this would have on the budget, and in turn on the I&E at the year end. Given the level of variable rate deposits held as at the 31st March 2017, an increase (or decrease) of 1% on this day would not have a significant impact upon the accounting statements.

The Council has no financial assets or liabilities denominated in foreign currencies.

21. STOCKS / INVENTORIES

Stock balances at the end of each year are as follows:

	31 March 2016	Expenses	Drawn Down	31 March 2017
	£'000	£'000	£'000	£'000
Fuel	9	316	(316)	9
Other Stock Items	85	453	(437)	101
	94	769	(753)	110

22. CONSTRUCTION CONTRACTS

At 31st March 2017 the council had £0.011m of construction contracts in progress (£0.4m as at 31st March 2016).

23. DEBTORS

		31 March 2017	31 March 2016
	Note	£'000	£'000
Amounts falling due in one year -			
HMRC	a	57	140
Other Government Departments	b	73	154
Local Authorities		445	515
Collection Fund	c	1,511	1,416
Sundry Debtors		4,054	4,075
		<u>6,140</u>	<u>6,300</u>
Provision for bad debts	d	(2,044)	(2,025)
		<u>4,096</u>	<u>4,275</u>

Notes

- There was not as much outstanding on the VAT claim for March as in the previous year.
- There is a reduction in outstanding section 31 Business Rates grant income this year but with additional monies due following elections in 2016/17.
- Collection Fund debtors include the authority's share of Council Tax and Business Rates Arrears.
- The provision for bad debts includes £1.626m (£1.572m in 2015/16) relating to general customer accounts and housing benefit overpayments, £0.181m (£0.186m in 2015/16) relating to the authority's share of outstanding Council Tax and £0.237m (£0.267m in 2015/16) relating to the authority's share of outstanding Business Rates.

24. CASH AND CASH EQUIVALENTS

The balance of cash and cash equivalents is made up of the following elements:

	31 March 2017	31 March 2016
	£'000	£'000
Bank current accounts	(109)	(456)
Investment deposit accounts	9,528	7,209
Short term deposits of less than one month	0	0
	<u>9,419</u>	<u>6,753</u>

25. CREDITORS

	Note	31 March 2017 £'000	31 March 2016 £'000
HMRC	a	172	832
Other Government Departments	b	4,915	2,421
Amount due to Precepting Authorities	c	1,710	1,243
Other Local Authority Creditors	d	1,164	1,772
Collection Fund	e	1,001	532
Treasury Management	f	3,000	0
Sundry Creditors		2,312	2,272
		14,274	9,072

Notes

- Payment has been made during the course of the year in respect of partial exemption sums owed to HMRC.
- Amounts due to other government departments have increased due to an improved position in relation to Business Rates as set out in the collection fund.
- Amounts due to precepting authorities have increased due to an improved position in relation to Business Rates as set out in the collection fund.
- The figure as at 31st March 2016 included monies owed in respect of a large capital project.
- Reflects the authority's share of business rates and council tax held in advance or owing to rate payers.
- The authority had an outstanding obligation of £3m following an investment commitment in line with its treasury management strategy.

26. PROVISIONS

The following table provides a list of provisions the authority has made at the end of the financial year:

	Note	31st March 2016 £'000	Provisions Made £'000	Provision Reversed £'000	Amounts used £'000	31st March 2017 £'000
Land Charges	a	93		(63)	(30)	0
Municipal Mutal Insurance	b	19		(2)	(17)	0
West Midlands Pensions	c	31			(3)	28
Business Rates	d	2,178	269		(288)	2,159
		2,321	269	(65)	(338)	2,187

a) Land Charges

A group of property search companies sought to claim refunds of fees paid to the council to access land charges data. These claims were settled during 2015/16, with the associated costs claim settled in 2016/17.

- b) Municipal Mutual Insurance
The scheme of arrangement was enacted in 2012/13. This resulted in a levy payment of £25k during 2013/14. The provision has been utilised for the council's liability associated with all known claims under the scheme.
- c) W M Pensions Liability
The Council has a liability to contribute towards the pension cessation liability associated with West Midlands Councils.
- d) Business Rates Appeals/Relief
This represents the council's share of a provision for appeals against the individual businesses rateable value that have been lodged with the Valuation Office (£1.875m as at 31st March 2017), together with a provision (£0.284m) against claims by NHS Trusts against for mandatory relief. The equivalent figures at 31st March 2016 were £1.940m and £0.238m.

27. BORROWING

	As at 31 March 2017	As at 31 March 2016
	£'000	£'000
Long Term		
Analysis of Loans by Type		
Public Works Loan Board	6,335	6,395
Money Market - LOBOs	4,500	4,500
Other Loans	0	0
Total Long Term Borrowing	10,835	10,895
Analysis of Loans by Maturity		
Maturing in 1-2 Years	60	59
Maturing in 2-5 Years	169	173
Maturing in 5-10 Years	6,843	6,866
Maturing in 10-15 Years	3,746	3,766
Maturing in more than 15 Years	17	31
	10,835	10,895
Short Term		
Public Works Loan Board	162	170
Other Loans	463	462
Total Short Term Borrowing	625	632

28. USABLE RESERVES

Movements in the authority's usable reserves are detailed in the Movement in Reserves Statement. Further narrative context is set out below:

General Fund Balance

This is a working balance held against unforeseen events and represents approximately 2% of gross expenditure.

Earmarked Reserves

These are reserves held by the authority for specific purposes and further detailed information is set out within note 9 to these accounts.

Capital Receipts

The Council receives receipts following the agreement to sell its long term assets. These are held within the capital receipts reserve and applied to relevant capital expenditure or repayment of debt in accordance with the approved capital programme and Medium Term Financial Strategy.

29. UNUSABLE RESERVES

A breakdown of the unusable reserves is set out in the following tables:

	Note	31 March 2017 £'000	31 March 2016 £'000
Revaluation Reserve	a	5,858	6,605
Capital Adjustment Account	b	23,450	22,422
Financial Instruments Adjustment Account	c	(278)	(309)
Pensions Reserve	d	(54,371)	(46,814)
Deferred Capital Receipts Reserve	e	154	154
Collection Fund Adjustment Account	f	1,475	(293)
Accumulated Absences Account	g	(195)	(197)
Available for Sale Reserve	h	0	0
		(23,907)	(18,432)

(a) Revaluation Reserve

This was established with an opening balance of zero in 2007/08. The Reserve records as a credit the accumulated gains on the Property, Plant and Equipment held by the Council, arising from increases in value as a result of inflation or other factors. The Reserve is debited with amounts equal to depreciation charged on the revalued part of each asset, or where greater their impairment value and with the carrying amount of any asset sold or otherwise disposed of.

	2016/17 £'000	2015/16 £'000
Balance Brought Forward	6,605	5,602
Revaluation of Fixed Assets	(643)	1,096
Depreciation of Revaluation Gains	(104)	(93)
Balance as at 31st March	5,858	6,605

(b) Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement. The account is credited with amounts set aside by the authority as financing towards the costs.

The account also contains accumulated gains and losses on Investment Properties. In addition, the account also contains accumulated revaluation gains on Property, Plant and Equipment, before the Revaluation Reserve was created.

	2016/17	2015/16
	£'000	£'000
Balance Brought Forward	22,422	21,006
<u>Capital Financing</u>		
Usable Capital Receipts	238	309
Revenue	37	215
Grants and Contributions	1,671	2,288
Debt repayment from capital receipts	1,332	1,540
<u>Reversal of Items debited or credited to the Comprehensive Income and Expenditure Statement</u>		
Depreciation and Impairment of Fixed Assets	(1,615)	(1,496)
Revaluation Losses on Plant, Property and Equipment	(284)	(2,499)
Amortisation of Intangible Assets	(15)	(12)
Revenue Expenditure Financed from Capital Under Statute	(917)	(572)
Financial Instrument Disposals	0	(230)
Fixed Asset Disposals	(60)	0
Minimum Revenue Provision	983	904
Movements in market value of investment properties	(445)	643
Gain or loss on Disposal of Financial Instrument	0	201
Gain or loss on Disposal of Fixed Assets	(1)	32
<u>Other Movements</u>		
Revaluation Reserve - Depreciation	104	93
Balance as at 31st March	23,450	22,422

c) Financial Instrument Adjustment Account

This account holds the deferred cost of premiums incurred following the restructuring of debt. The balance is charged to the general fund balance within the Movement in Reserves Statement and is detailed in note 6 to the accounts.

	31st March 2016	Movements	31st March 2017
	£'000	£'000	£'000
Deferred Premia	(309)	31	(278)
Total	(309)	31	(278)

d) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The authority accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investments returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the authority makes employers contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pension Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	31 March 2017	31 March 2016
	£'000	£'000
Balance at 1 April	(46,814)	(57,292)
Actuarial gains and (losses) on pensions assets and liabilities	(6,293)	12,455
Reversal of items relating to retirement benefits debited or credited to the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement	(3,380)	(3,952)
Employers pension contributions and direct payments to pensioners payable in year	2,116	1,975
Balance at 31st March	(54,371)	(46,814)

e) Deferred Capital Receipts Reserve

Deferred capital receipts are amounts derived from the sale of assets or from advances made to other bodies, which will be received or be repayable in instalments over agreed periods of time. They mainly arise from mortgages on the sale of council houses and a loan made to Branston Golf Club (repaid in 2015/16), which are shown as long-term debtors on the asset side of the Balance Sheet.

	31 March 2017	31 March 2016
	£'000	£'000
Balance at 1 April	154	217
Transfer to the Capital Receipts Reserve upon receipt of cash	-	(63)
Balance at 31st March	154	154

f) Collection Fund Adjustment Account

The account manages the differences arising from the recognition of council tax and business rates in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	31 March 2017	31 March 2016
	£'000	£'000
Balance at 1 April	(293)	(2,154)
Amount by which council tax income collected to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	35	34
Amount by which business rates income collected to the Comprehensive Income and Expenditure Statement is different from business income calculated for the year in accordance with statutory requirements	1,733	1,827
Balance at 31st March	1,475	(293)

g) Accumulated Absences Account

The account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, eg.annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the account.

	31 March 2017	31 March 2016
	£'000	£'000
Balance at 1 April	(197)	(201)
Cancellation of accrual made at end of preceding year	197	201
Amounts accrued at the end of the current year	(195)	(197)
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	2	4
Balance at 31st March	(195)	(197)

h) Available for Sale Financial Instruments Reserve

The reserve contains the gains made by the authority arising from increases in the value of its investments that have quoted prices or otherwise do not have fixed or determinable payments. The transactions in 2015/16 relate to shares sold in relation to Branston Golf Club.

	31 March 2017	31 March 2016
	£'000	£'000
Balance at 1 April	0	0
Revaluation of Financial instrument	-	201
Disposal of Revalued Financial instrument	-	(201)
Balance at 31st March	0	0

30. CASH FLOW STATEMENT – OPERATING ACTIVITIES

Adjustments made to the Net Surplus or deficit on the Provision of Services for non cash and other movements not relating to operating activities are as follows:

	31 March 2017	31 March 2016
	£'000	£'000
Depreciation	(1,615)	(1,496)
Impairment and downward revaluations	(284)	(2,499)
Amortisation	(15)	(12)
Increase/ (decrease) in debtors	(155)	306
(Increase)/decrease in creditors	(94)	(141)
increase/(decrease) in stock	17	(51)
pension liability	(1,264)	(1,977)
Carrying amount of non-current assets sold	(60)	0
Increase/decrease in other provisions	135	303
Increase/decrease in value of investment properties	(445)	643
Icelandic Interest/impairment	(13)	12
Adjustment for non-cash movements	<u>(3,793)</u>	<u>(4,912)</u>
Capital grants credited to income and expenditure account	1,671	2,288
Net adjustment from sale of long and short term investments	125	28
Proceeds from sale of Property, plant and equipment	60	0
Adjustment for investing and financing activities	<u>1,856</u>	<u>2,316</u>

The Cash flows for operating activities include the following items:

	31 March 2017	31 March 2016
	£'000	£'000
Interest received	(174)	(160)
Interest paid	590	594
Total	<u>416</u>	<u>434</u>

31. CASH FLOW STATEMENT – INVESTING ACTIVITIES

	31 March 2017	31 March 2016
	£'000	£'000
Purchase of property, plant and equipment, investment property and intangible assets	1,798	2,266
Purchase of short term and long term investments	39,263	31,518
Proceeds from sale of short term and long term investments	(36,872)	(26,290)
Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(12)	0
Other capital receipts	(125)	(863)
Other grants and contributions received	(1,556)	(2,038)
Total	<u>2,496</u>	<u>4,593</u>

32. CASH FLOW STATEMENT – FINANCING ACTIVITIES

	31 March 2017	31 March 2016
	£'000	£'000
Cash receipts of short and long term borrowing	0	0
Cash payments for the reduction of outstanding liabilities relating to finance leases	543	395
Repayments of short and long term borrowing	65	71

Net (inflow)/outflow from Council Tax collected and payable to the preceptors	6	402
Total	<u>(2,223)</u>	<u>(1,073)</u>

33. TRADING ACTIVITIES

The Council operated retail markets in Burton upon Trent during 2016/17, generating rental income from the letting of stalls. Their financial results are set out below:

2015/16				2016/17		
Exp	Income	Deficit		Exp	Income	Deficit
£'000	£'000	£'000		£'000	£'000	£'000
353	(185)	168	Market Undertakings	352	(150)	202
353	(185)	168		352	(150)	202

*The comparative figures for 2015/16 have been revised following the accounting changes to the format of the CIES and the exclusion of support service recharges.

34. MEMBERS ALLOWANCES

The Council is required to disclose the total of members allowances paid each year. In 2016/2017 a total of £256,095 was paid in allowances. In addition other expenses reimbursed by the Council including travel and subsistence and telephone/broadband charges totalled £4,115. Comparative figures for 2015/2016 were £259,763 and £5,445 respectively.

35. OFFICERS' REMUNERATION

The number of employees whose remuneration in the year ended 31 March 2017 was £50,000 or more, excluding employers' pension contributions, in £5,000 bands is set out in the table below.

The authority has undertaken significant management restructuring exercises in recent years, which has generated significant on-going savings. As a result of this there are 6 ongoing posts attracting salaries above £50,000. This includes the Chief Executive, Heads of Service, the Monitoring Officer and the ICT Manager. The number of employees within the bandings below includes honoraria payments made to the Chief Accountant.

Following the departure of a Head of Service during the course of 2016/17 and as part of the Council's ongoing efficiency drive, the post remains vacant under new interim management arrangements. Likewise, in 2015/16 the Head of Legal and Democratic Services post was removed from the establishment list following restructuring. These posts are highlighted in separate columns below.

Remuneration Band	2016/17	2016/17	2015/16	2015/16
	Total Number of Employees	Of which, Employees leaving during 2016/17	Total Number of Employees	Of which, Employees leaving during 2015/16
£50,000 - £54,999	2		1	
£55,000 - £59,999				
£60,000 - £64,999	1		1	
£65,000 - £69,999				
£70,000 - £74,999			1	
£75,000 - £79,999	1			
£80,000 - £84,999

£90,000 - £114,999	1	1*		
£115,000 - £119,999				
£120,000 - £124,999			1	
£125,000 - £129,999	1			
	7	1	7	1

*Posts deleted/or temporarily vacant as part of ongoing efficiency drive as noted above.

Further details in relation to Senior Officers' remuneration are outlined within the tables below. This information is in accordance with statutory regulations which came into effect from 31st March 2010 and includes comparator information for 2015/16. The definition used to determine Senior Officers has been taken from the Audit and Accounts Regulations which reference the Local Government and Housing Act 1989, and for this authority includes the Chief Executive and Heads of Service.

Detailed Information of Senior Officers Remuneration – 2016/17

The authority has generated significant ongoing savings through a management re-structuring in recent years and this is set out in more detailed above. Benefits in Kind figures represent car allowance and mileage payments made to officers using cars to drive for business need. In addition, these figures include costs associated with the car leasing scheme, whereby officers have sacrificed salary in terms of their entitlement to incremental grade progression.

Post holder information	Salary (including fees & allowances) 2016/17	Compensation for Loss of Office	Benefits in Kind (see note above)	Total Remuneration excluding pension contributions 2016/17	Pension contributions	Total Remuneration including pension contributions 2016/17

#Post vacant following interim management restructure

36. EXTERNAL AUDIT SERVICES

Fees payable to Grant Thornton for external audit and inspection were:

	2016/17 £'000	2015/16 £'000
Code of Practice Audit	49	49
Certification of Grant Claims and Returns	11	16
Fees for Other Services	8	16
	<u>68</u>	<u>81</u>

37. GRANT INCOME

The authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement including:

	2016/17 £'000	2015/16 £'000
Credited to Taxation and non Specific Grant Income		
Revenue Support Grant	(1,507)	(2,306)
Transitional Relief	(15)	0
Business Rates - Reliefs - Compensation	(73)	(284)
New Homes Bonus	(2,183)	(1,927)
Council Tax Freeze Grant	0	(70)
Capital Grants and Contributions	(912)	(1,839)
Small Business Rate Relief	(585)	(557)
Credited to Services		
NNDR Collection Grant	(179)	(179)
Housing Benefits Administration Grants	(579)	(589)
Housing and Council Tax Benefits Subsidy	(26,235)	(27,638)
New Burdens Grant	(192)	(265)
EU Referendum Grant	(159)	0
Independent Electoral Registration Grant	(14)	(23)
Other Capital Grants Conditions Met	(15)	(19)
Disabled Facilities Grant	(744)	(460)
Burton Hockey Club	0	(69)
	<u>(33,392)</u>	<u>(36,225)</u>

The authority has received a number of grants and contributions that have yet to be recognised as income as they have conditions attached to them that may require the monies to be returned to the giver if these conditions are not met. The balances at year end are as follows:

	31st March 17 £'000	31st March 16 £'000
Growth Point	1,017	1,430
Regional Housing Grant	207	207
Section 106 - Developers Deposits	1,891	1,137
Local Growth Fund	0	468
Others	12	33
	<u>3,127</u>	<u>3,275</u>

38. RELATED PARTY TRANSACTIONS

The Council is required to disclose material transactions with related parties. These are bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council, and include members, chief officers and close family members of the same household as these individuals. Disclosure of these transactions allows readers to assess the extent to which the council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the authority.

Central Government

Central government has effective control over the general operations of the authority – it is responsible for providing the statutory framework, within which the council operates, provides a significant proportion of its funding in the form of grants and prescribes the term of many of the transactions that the authority has with other parties (i.e. council tax bills and housing benefits). Grants received from government departments are set out in note 37, with sums due to or from central government set out within the debtors and creditors notes – 23 and 25 respectively.

Members and Officers

Declarations under section 81 of the Local Government Act 2000 and under the Local Authorities (Model Code of Conduct) (England) Order 2001 are made by members. In addition, members and officers make annual disclosures of their interests to the Council's Monitoring Officer for inclusion in the Register of Members and Officers Interests. Members have to make declarations on individual committee agenda items. Finally a separate declaration has been returned at year-end by members and chief officers.

Based on these key data sources, no material related party transactions have been identified for 2016/2017 amongst either Members or Chief Officers.

A number of Councillors serve on, or have interests in the following outside bodies which receive or have received some form of financial support from the Council:

2016/2017

Burton and District Arts Council
East Staffordshire Citizens Advice Bureau
East Staffordshire Sports Council

2015/2016

Burton Amateur Boxing Club
Burton and District Arts Council
East Staffordshire Citizens Advice Bureau
East Staffordshire Sports Council
SARAC Burton & District

Financial support for the above bodies totalled £0.048m for 2016/2017 compared to £0.096m for 2015/2016.

In addition a number of councillors and officers serve on the following outside bodies, which have some financial dealings with the Council:

2016/2017

Branston Golf and Country Club
 Burton Albion Community Trust
 Burton Caribbean Association
 Staffordshire Wildlife Trust
 Uttoxeter Heath Community Centre
 YMCA

2015/2016

Branston Golf and Country Club
 Burton Albion Community Trust
 Burton Caribbean Association
 Harvey Girls
 Staffordshire Wildlife Trust
 Uttoxeter Heath Community Centre
 YMCA

Payments made to the above bodies in 2016/2017 totalled £0.084m, with receipts being £0.121m. This compares to payments of £0.051m and receipts of £0.111m for 2015/2016.

Furthermore payments made to Trent and Dove Housing Ltd in respect of housing benefit for 2016/2017 totalled £12.037m, compared to £12.043m for 2015/2016. There were no receipts in 2016/17 compared to £0.024m in 2015/16.

39. CAPITAL EXPENDITURE AND FINANCING

The table below demonstrates that there has been a decrease in the capital financing requirement of £2.23m. The capital financing requirement represents the Council's underlying need to borrow in order to finance capital expenditure that has already been incurred.

	2016/17	2015/16
	£'000	£'000
Opening Capital Financing Requirement	20,821	20,744
<u>Capital Investment:</u>		
Property, Plant and Equipment	1,075	5,109
Intangible Assets	7	16
Revenue Expenditure Financed from Capital Under Statute	917	572
<u>Sources of Finance:</u>		
Capital Receipts	(238)	(309)
Capital Grants	(1,671)	(2,288)
Revenue/Reserves	(37)	(215)
Minimum Revenue Provision	(983)	(904)
Debt Repayment from Capital Receipt	(1,333)	(1,540)
Other Changes in Deferred Liabilities	0	(269)
Increase/(Reduction) in Long-term Debtors	37	(95)
Closing Capital Financing Requirement	18,595	20,821
EXPLANATION OF MOVEMENTS IN YEAR		
In year Debt Repayment	(2,279)	(2,808)
Increase/(Decrease) in underlying need to borrow	53	2,885
	(2,226)	77

40. FINANCE AND OPERATING LEASE RENTALS

Authority as Lessee

Finance Leases

The assets acquired under finance leases are carried as property, plant and equipment in the Balance Sheet at the following net amounts:

	2016/17	2015/16
	£'000	£'000
Property, Plant and equipment	1,863	2,383
	<u>1,863</u>	<u>2,383</u>

Depreciation in relation to these finance leases which is included within the Comprehensive Income and Expenditure Account amounts to £519,936 (£351,712 in 2015/16).

The authority is committed to making minimum payments under these leases comprising settlement of the long term liability for the interest in the property acquired by the authority and finance costs that will be payable by the authority in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	2016/17	2015/16
	£'000	£'000
Finance lease liabilities (net present value of minimum lease payments)	1,888	2,431
Finance costs	92	146
Minimum Lease Payments	<u>1,980</u>	<u>2,577</u>

The minimum lease payment will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	2016/17	2015/16	2016/17	2015/16
	£'000	£'000	£'000	£'000
Not more than one year	553	597	511	543
later than one year and not later than five years	1,427	1,980	1,377	1,888
Later than five years	-	-	-	-
	<u>1,980</u>	<u>2,577</u>	<u>1,888</u>	<u>2,431</u>

Contingent rents incurred during the period amount to £41,136 (£41,136 – 2015/16)

Operating Leases

The authority has acquired a small number of vehicles and properties under operating leases.

Future minimum lease payments due under non-cancellable leases in future years are as follows:

	2016/17	2015/16
	£'000	£'000
Not more than one year	326	342
later than one year and not later than five years	901	1,114
Later than five years	1,097	1,160
	2,324	2,616

The expenditure is charged directly to the appropriate line within the Comprehensive Income and Expenditure Statement. In 2016/17 this amounted to £337,798 (comparator figure for 2015/16 - £284,547).

Authority as Lessor

Finance Leases

The authority has leased out property at Branston Golf Course and Uttoxeter Racecourse on long term finance leases of 125 and 200 years respectively.

The authority has a gross investment in the lease, made up of the minimum lease payments expected to be received over the remaining term and the residual value anticipated for the property when the lease comes to an end. The minimum lease payments comprise settlement of the long term debtor for the interest in the property acquired by the lessee and finance income that will be earned by the authority in future years whilst the debtor remains outstanding. The gross investment is made up of the following amounts:

	2016/17	2015/16
	£'000	£'000
Finance lease debtor (net present value of minimum lease payments)	693	693
Unearned finance income	7,856	7,917
Gross investment in the lease	8,549	8,610

The gross investment in the lease and the minimum lease payments will be received over the following periods:

	Gross Investment in the Lease		Finance Lease Liabilities	
	2016/17	2015/16	2016/17	2015/16
	£'000	£'000	£'000	£'000
Not more than one year	61	61	61	61
later than one year and not later than five years	244	244	244	244
Later than five years	8,244	8,305	7,551	7,612
	8,549	8,610	7,856	7,917

There were no contingent rentals receivable for the period.

Operating Leases

The authority leases out property under operating leases for the generation of income to support the budget.

The future minimum lease payments receivable under non-cancellable leases in future years are:

	2016/17	2015/16
	£'000	£'000
Not more than one year	165	190
later than one year and not later than five years	508	452
Later than five years	5,300	5,391
	5,973	6,033

The future minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

Income receivable in relation to operating leases was £505,214 in 2016/17 (£483,916 in 2015/16) and this has been included within the Comprehensive Income and Expenditure Account.

41. IMPAIRMENT LOSSES

Impairment of Plant, Property and Equipment

There have not been any impairment losses relating Property, Plant and Equipment during 2016/17 or 2015/16.

Impairment of Investments

Background

Early in October 2008, the Icelandic banks Landsbanki, Kaupthing and Glitnir collapsed and the UK subsidiaries of the banks, Heritable and Kaupthing Singer and Friedlander went into administration.

The authority had £5m deposited across 2 of these institutions, with varying maturity dates and interest rates as follows:

Bank	Deposit Date	Maturity	Amount (£)	Interest
KSF	08/09/2008	08/10/2008	2,000,000	5.41%
Landsbanki	01/09/2008	02/01/2009	1,000,000	5.87%
Landsbanki	01/08/2008	02/02/2009	1,000,000	6.05%
Landsbanki	01/08/2008	02/03/2009	1,000,000	6.00%

The Council sold its Landsbanki claims in 2013/14, recovering £2.8m in total. The administration process in relation to KSF continues.

Position at 31st March 2017 : Kaupthing Singer and Friedlander Ltd

The Council has received £1.7m of repayments between 2009/10 & 2016/17, demonstrating that the vast majority of the original sums have now been recovered. The authority considers that it appropriate to make an impairment adjustment for the deposits. Based on the latest information the level of impairment shown within the 2015/16 accounts as been adjusted downwards by £0.014m, as shown within the table below:-

Bank	Original Deposit £'000	2015/16		Repayments £'000	2016/17	
		Carry Amount £'000	Impairment £'000		Carry Amount £'000	Impairment £'000
KSF	2,000	40	278	1,693	43	264
	2,000	40	278	1,693	43	264

The impairment loss shown within the accounts of £0.264m has been calculated by discounting the assumed cash flows at the effective interest rate of the deposits in order to recognise the anticipated loss of interest to the authority until monies are recovered. Adjustments to the assumptions will continue to be made in future years in light of the most recent information.

At the time the 2015/16 accounts were published, the total amount estimated to be received was to be 86.5% of the claim. The current estimated total distributions to unsecured creditors should be in the range of 84p to 86.5p in the pound.

The following repayment schedule has been assumed to calculate the recoverable amount (present value of £0.043m), as set out in the table above. This is based on expected total repayments of 86.5% of the claim.

May 2017	0.75%	December 2017	0.75%
December 2018	0.75%		

42. TERMINATION BENEFITS AND EXIT PACKAGES

The authority terminated the contracts of a number of employees in 2016/17 incurring liabilities of £21k (£228k in 2015/16). This reduction in numbers of staff is consistent with the council's medium term financial strategy and the delivery of service efficiencies to ensure the best possible value for money is delivered for our residents. The number of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the table below:

Exit package cost band (including special payments)	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band	
	2015/16	2016/17	2015/16	2016/17	2015/16	2016/17	2015/16	2016/17
£0 - £20k	10	6	0	0	10	6	£ 123,413	£ 21,379
£20 - £40k	1	0	0	0	1	0	28,573	0
£40 - £60k	0	0	0	0	0	0	0	0
£60 - £80k	1	0	0	0	1	0	75,743	0
£80 - £100k	0	0	0	0	0	0	0	0
£100 - £150k	0	0	0	0	0	0	0	0
Total	12	6	0	0	12	6	227,729	21,379

43. PENSIONS

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in the Local Government Pensions Scheme. This scheme is administered locally by Staffordshire County Council. It is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets.

The scheme is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the pensions committee of Staffordshire County Council. Policy is determined in accordance with the Pensions Fund Regulations. The investment managers of the fund are appointed by the committee. Further details can be found in the Annual Report published on the Staffordshire County Council Pension Fund website.

The principal risks to the authority of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund the amounts required by statute as described in the accounting policies note.

Transactions Relating to Post-employment Benefits

We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against the council tax is based on the cash payable in the year, so the real costs of post employment benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year.

Comprehensive Income and Expenditure Statement	Local Government Pension Scheme	
	2016/17	2015/16
	£'000	£'000
Cost of Services		
Current Service Cost	1,749	2,116
Past Service Costs	0	1
Effect of Settlements	0	0
Financing and Investment Income and Expenditure		
Net Interest Expense	1,631	1,835
Total Post Employment Benefit Charged to the Surplus or Deficit on the Provision of Services	3,380	3,952
Other Post Benefit Charged to the Comprehensive Income and Expenditure Statement		
Remeasurement of the net defined benefit liability comprising:		
Return on Plan Assets (excluding the amount included in the net interest expense)	(11,670)	1,508
Actuarial gains and losses arising on changes in demographic assumptions	(759)	0
Actuarial gains and losses arising on changes in financial assumptions	19,800	(11,683)
Other	(1,078)	(2,280)
	6,293	(12,455)
Total Post Employment Benefits charged to the Comprehensive Income & Expenditure Statement	9,673	(8,503)
Movement in Reserves Statement		
Reversal of net charges made to the Surplus or Deficit for the Provision of Services for post employment benefits in accordance with the Code	(3,380)	(3,952)
Actual Amount charged against the General Fund Balance for pensions in the year		
Employers' contributions payable to scheme	2,116	1,975
	(1,264)	(1,977)

Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Council's obligation in respect of its defined benefit plans is as follows:

	Local Government Pension Scheme	
	2016/17 £'000	2015/16 £'000
Present value of the defined benefit obligation	136,694	116,352
Fair Value of Plan Assets	(82,323)	(69,538)
Sub total	54,371	46,814
Other Movements in the liability	0	0
Net liability arising from benefit obligation	54,371	46,814

Reconciliation of the Movements in the Fair Value of Scheme (Plan Assets).

	Local Government Pension Scheme	
	2016/17 £'000	2015/16 £'000
Opening fair value of scheme assets	69,538	70,211
Interest Income	2,410	2,225
Remeasurement gain/(loss): The return on plan assets, excluding the the amount included in the net interest	11,670	(1,508)
Contributions from employer	2,116	1,975
Contributions from employees	459	471
Benefits Paid	(3,870)	(3,836)
Closing fair value of scheme assets	82,323	69,538

Total Assets	82,323	69,538

Basis for Estimating Assets & Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependant on assumptions about mortality rates, salary levels etc.

Both the Local Government Pension Scheme and discretionary benefits liabilities have been estimated by Hymans Robertson LLP, an independent firm of actuaries, estimates for the County Council Fund being based on the latest full valuation of the scheme as at 31st March 2017.

The significant assumptions used by the actuary have been:

	2016/17	2015/16
	%	%
Long Term expected rate of return on assets:		
Equities	2.6	3.5
Bonds	2.6	3.5
Property	2.6	3.5
Cash	2.6	3.5
Mortality assumptions		
Longevity at 65 for current pensioners		
Male	22.1	22.1
Female	24.4	24.3
Longevity at 65 for future pensioners		
Male	24.1	24.3
Female	26.4	26.6
Rate of inflation	3.4	2.2
Rate of increase in salaries	2.8	4.2
Rate increase in pensions	2.4	2.2
Rate for discounting scheme liabilities	2.6	3.5

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below has been determined based on reasonable changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The method and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	Impact on the Defined Obligation in the Scheme	
	Increase in Assumption	Decrease in Assumption
	£000	£000
0.5 decrease in Real Discount Rate		13,447
1 year increase in member life expectancy	6,835	
0.5% increase in the Salary Increase Rate	1,924	
0.5% increase in the Pension Increase Rate	11,339	

Impact on the Authority's Cash Flows

The County Council has agreed a strategy with the fund actuary to achieve a funding level of 100% over the next 20 years. Funding levels are monitored on an annual basis. The latest triennial revaluation was completed on 31st March 2016.

The scheme takes into account the national changes to the scheme under the Public Pensions Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31st March 2014. The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earning schemes to pay pensions and other benefits to public servants.

The authority anticipates payment of £1.991m in expected contributions to the scheme in relation to the financial year 2017/18.

44. CONTINGENT LIABILITES

Externally Funded Schemes

The Council was previously involved as the accountable body in a number of schemes where grants are received from external funding agencies - primarily the European Commission for European Regional Development Fund (ERDF) grant and Advantage West Midlands for Single Regeneration Budget grant. Under the conditions for offer of grant, there is a potential for these bodies to claw-back grants if these conditions are not met, although none are known at present.

Planning Appeal - Red House Farm

The Council has an outstanding planning appeal sitting with the court of appeal associated with the Red House Farm site. The council has a strong legal case; however in the event of an unfavourable outcome the council may be liable for costs.

Pennycroft Industrial Site – Relocation

The Council has undertaken remediation and infrastructure works at sites located on Pennycroft Lane and Dove Way. These sites have planning permission granted for commercial and residential use. The Council is currently pursuing a sale of the these properties. However it is likely that a compensation package to relocate existing tenants will be required under the lease arrangements.

Municipal Mutual Insurance

The Scheme of Arrangement was enacted in 2012/13. The liability upon the Council as a scheme creditor cannot be fully estimated at this stage for unknown claims incurred but not yet reported. Whilst the council has considered the financial impact in producing its Statement of Final Accounts there is a risk that the Council's financial liability could increase from this level.

Business Rates – Appeals and Reliefs

The Council has made a provision for NNDR Appeals based on its best estimate of the actual liability as at the year-end in known appeals. It is not possible to quantify appeals that have not yet been lodged with the valuation office so there is a risk to the Council that national and local appeals may have a future impact on the accounts. This is however restricted to 1st April 2015.

The Council has also made a provision against applications that have been made by NHS Trusts for Mandatory Relief. Whilst the Council believes there is a strong legal case to rebut these applications, there remains a risk that the applications are appealed through the courts. The estimated backdated cost of this to the authority is £1.4m, of which £0.3m has been provided for.

EU Referendum

The UK voted on 23 June 2016 to leave the European Union, this has created a great deal of uncertainty as politicians seek to grapple with the reality they now face. However, it is in everyone's interest that a clear and achievable transition is agreed promptly. It is expected that the transition will take place over a two-year period allowing at least some time to plan for the major changes that will follow.

We will keep up to date with the situation as it unfolds and as information is available to advise on any concerns for the Council's financial and operational position including:

- Future levels of Government support / funding;
- The potential for an economic downturn / recession and impact on Council service provision / finances;
- Impact on interest rates and investment and other income for the Council e.g. treasury management interest, car parking, planning, commercial & industrial rents etc;
- Impact on business rates collection levels;
- Potential impact on Property Valuations and the Pension Fund.

45. PRIOR PERIOD RESTATEMENT OF SERVICE EXPENDITURE AND INCOME

Expenditure on services and income relating to or derived from those services classified in the Comprehensive Income and Expenditure Statement in accordance with the CIPFA Code of Local Authority Accounting in the UK. The 2016/17 code requires that authorities present expenditure and income on services on the basis of its reportable segments. These reportable segments are based on the authority's internal management reporting structure. This is a change from the previous requirement to present expenditure and income in accordance with the Service Expenditure Code of Practice (SERCOP). This note shows how the net expenditure and income for 2015/16 has been restated.

Net Expenditure	As reported in the Comprehensive Income and Expenditure Statement 2015/16	Adjustments between SERCOP classifications and internal reporting classifications	As restated 2015/16	
SERCOP Service Line	£000's	£000's	£000's	Council Services
Central services to the public	1,195	(1,195)	0	Land Charges
		(101)	(101)	Human Resources and Payments
		656	656	
Cultural services and related services	4,853	(4,853)	0	Arts, Brewhouse and Functions
		533	533	Leisure Centres - Indoor Facilities
		1,546	1,546	Leisure Centres - Outdoor Facilities
		547	547	Cultural Services - Marketing
		0	0	Community and Open Spaces
		2,595	2,595	
Environmental and regulatory services	4,788	(4,788)	0	Environment
		3,431	3,431	
Planning services	932	(932)	0	Planning
		(83)	(83)	Enterprise
		336	336	
Highways and transport services	(772)	772	0	Enforcement
		(682)	(682)	
Housing services	661	(661)	0	Revenue, Benefits and Customer Contacts
		261	261	Housing
		288	288	Environmental Health
		553	553	
Corporate and democratic core	1,223	(1,223)	0	Financial Services
		550	550	Corporate and Commercial
		1,052	1,052	Corporate Management Team
		631	631	IT and Printing
		648	648	Legal Services
		289	289	
Non distributed costs	2,199	(2,199)	0	Non Distributed Costs
		2,199	2,199	External Funding and Holding Accounts
		(43)	(43)	
Cost of Services	15,079	127	15,206	

The net expenditure figure for financing and investment income and expenditure has been re-stated to remove the support service recharges from trading and investing activities. This results in a reduction of £0.127m from £1.078m to £0.951m.

Gross Expenditure	As reported in the Comprehensive Income and Expenditure Statement 2015/16	Adjustments between SERCOP classifications and internal reporting classifications	As restated 2015/16

		0	0	Non Distributed Costs
		(709)	(709)	External Funding and Holding Accounts
Cost of Services	(40,272)	(200)	(40,472)	

A number of associated notes have also been re-stated to ensure consistency with the re-stated comparator figures in the Comprehensive Income and Expenditure Statement. This reflects the removal of support service recharges.

46. EVENTS AFTER BALANCE SHEET DATE

The unaudited statement of Accounts was authorised for issue on 31st May 2017. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31st March 2017, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

The financial statements and notes have not been adjusted for the following events which took place after 31st March 2017 as they provide information that is relevant to an understanding of the authority's financial position but do not relate to conditions at that date:

Decision to Sell Assets, Dove Way/Pennycroft Lane – Non adjusting event

The Council has undertaken a competitive exercise to dispose of brownfield sites at Dove Way and Pennycroft Lane following infrastructure and remediation works. These sites have planning permission and their development will bring additional housing and employment to the area. These sites are held at a book value of £2.3m on 31st March 2017. On 19th May 2017 the Council made a decision to sell these sites, subject to further detailed negotiations with the preferred bidder and existing tenants.

Pension Fund Pre-payment – Non adjusting event

The Council's Pension Fund is subject to triennial reviews by an independent actuary to assess the levels of contributions that will be required. The latest valuation took place as at 31st March 2016 and resulted in an overall increase in contribution rates of 2%. This includes employer contribution rates plus a deficit repair lump sum payment. The Council has taken the option to pay the annual lump sum amounts for the three years to March 2020 as one advance payment of £3m. This was paid in April 2017 and reflects a discount of 3.7% on the nominal sums.

47. DATE FINANCIAL STATEMENTS AUTHORISED FOR ISSUE

The unaudited accounts were issued on 31st May 2017 and the audited accounts were authorised for issue on 25th July 2017. Events occurring after this date have not been recognised in the financial statements.

Sal Khan CPFA, MSc
Chief Finance Officer

NOTES TO THE COLLECTION FUND ACCOUNT

1. General

The Collection Fund is an agent's Statement that reflects the statutory obligation of billing authorities to maintain a separate Collection Fund. The Statement shows the transactions of the billing authority in relation to the collection from taxpayers of Council Tax and Business Rates and its distribution to Local Government bodies and the Government.

The purpose of the Collection Fund therefore, is to isolate the income and expenditure relating to Council Tax and Business Rates. The administrative costs associated with the collection process are charged to the General Fund.

Collection Fund surpluses or deficits declared by the billing authority in relation to Council Tax are apportioned to the relevant precepting bodies in subsequent financial years. For East Staffordshire, the Council Tax precepting bodies are Staffordshire County Council, Staffordshire Police and Crime Commissioner (PCC) and Staffordshire Fire Authority.

In 2013/14, the local government finance regime was revised with the introduction of the retained business rates scheme. The main aim of the scheme is to give Councils greater incentive to grow businesses in the Borough. It does, however, also increase financial risk due to non-collection and the volatility of the business rates tax base.

Business Rates surpluses or deficits declared by the billing authority in relation to Collection Fund are apportioned to the relevant bodies in subsequent financial years in their respective proportions.

The national code of practice followed by Local Authorities in England stipulates that a Collection Fund Income and Expenditure account is included in the Council's accounts. The Collection Fund balance sheet meanwhile is incorporated into the Council's consolidated balance sheet.

2. Council Tax

Council Tax derives from charges raised according to the value of residential properties, which have been classified into 9 valuation bands (A-H) for this specific purpose. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by the Council for the forthcoming year and dividing this by the Council Tax base (i.e. the equivalent number of Band D dwellings).

The Council Tax base for 2016/17 was 35,160 (34,436 in 2015/16). The tax base for 2016/17 was approved at the Cabinet meeting on 18 January 2016 and was calculated as follows:

Valuation Band		No. of Dwellings after Discounts and Exemptions	Ratio to Band D	Band D Equivalent Dwellings
A	Up to £40,000	12,063	6/9	8,042
B	£40,001 to £52,000	8,778	7/9	6,827
C	£52,001 to £68,000	7,134	8/9	6,341
D	£68,001 to £88,000	5,363	9/9	5,363
E	£88,001 to £120,000	3,830	11/9	4,681
F	£120,001 to £160,000	2,022	13/9	2,920
G	£160,001 to £320,000	1,048	15/9	1,746
H	Over £320,000	71	18/9	141
		40,309		36,061
Less adjustment for collection rates and property changes				(901)
Council Tax Base for 2016/17				35,160

3. Income from Business Ratepayers

The Council collects National Non-Domestic Rates (NNDR) for its area based on local rateable values provided the Valuation Office Agency (VOA) multiplied by a uniform business rate set nationally by Central Government.

In 2013/14, the allocation of business rates resources changed following the introduction of a business rates retention scheme which aims to give Councils a greater incentive to grow businesses but also increases the financial risk due to volatility and non-collection of rates. Instead of paying NNDR to a central pool, local authorities retain a proportion of the total collectable rates due. In the case of East Staffordshire the local share is 40%. The remainder is distributed to the preceptors and in the case of East Staffordshire these are Central Government (50%), Staffordshire County Council (9%) and Staffordshire Fire Authority (1%).

In addition to the local management of business rates, authorities are expected to finance appeals made in respect of rateable values as defined by the Valuation Office Agency. As such, authorities are expected to make a provision for these amounts. The total provision at 31st March 2017 has been calculated at £4.029m (£4.850m at 31st March 2016).

The business rates shares payable to preceptors for 2016/17 were estimated before the start of the financial year and these sums have been paid in 2016/17 and charged to the Collection Fund in year.

The total non-domestic rateable value at 31 March 2017 was £138.129m, compared to £133.066m at 31 March 2016. The national non-domestic rate multiplier for the year was 49.7p for properties with a rateable value in excess of £18k and 48.4p for properties with a rateable value lower than £18k, compared to 49.3p and 48.0p respectively for the previous year.

4. Provisions for Doubtful Debts and for Valuation Appeals

Provision for Council Tax Doubtful Debts

The Collection Fund account provides for doubtful debts on arrears on the basis of prior year experience and current years' collection rates.

	2016/17	2015/16
	£000	£000
Balance at 1 April	1,335	1,371
Net Increase/(Decrease) in Provision	-	(36)
Balance at 31 March	1,335	1,335

East Staffordshire Borough Councils proportion of this provision is shown below.

	2016/17	2015/16
	£000	£000
Balance at 1 April	186	195
Net Increase/(Decrease) in Provision	(5)	(9)
Balance at 31 March	181	186

Provision for Business Rates / NNDR Doubtful Debts

The Collection Fund account also provides for doubtful debts on NNDR arrears.

	2016/17	2015/16
	£000	£000
Balance at 1 April	669	460
Net Increase/(Decrease) in Provision	(76)	209
Balance at 31 March	593	669

East Staffordshire Borough Councils proportion of this provision is shown below.

	2016/17	2015/16
	£000	£000
Balance at 1 April	267	184
Net Increase/(Decrease) in Provision	(30)	83
Balance at 31 March	237	267

NNDR – Provision for Appeals/Reliefs

The Collection Fund account also provides for provision for appeals against the rateable valuation set by the valuation Office Agency (VOA) not settled as at 31st March 2017.

	2016/17	2015/16
	£000	£000
Balance at 1 April	4,850	5,891
Net Increase/(Decrease) in Provision	(161)	(1,041)
Balance at 31 March	4,689	4,850

East Staffordshire Borough Councils proportion of this provision is shown below.

	2016/17	2015/16
	£000	£000
Balance at 1 April	1,940	2,357
Net Increase/(Decrease) in Provision	(65)	(417)
Balance at 31 March	1,875	1,940

In addition to which, the authority has received a number of applications from NHS Trusts for backdated mandatory relief. Whilst the authority believes that these applications are not valid, the accounts include a provision of £0.710m against the possibility this is appealed in the courts, with East Staffordshire Borough Council's element being £0.284m.

Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF EAST STAFFORDSHIRE BOROUGH COUNCIL

We have audited the financial statements of East Staffordshire Borough Council (the "Authority") for the year ended 31 March 2017 under the Local Audit and Accountability Act 2014 (the "Act"). The financial statements comprise the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement, the Collection Fund and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17.

This report is made solely to the members of the Authority, as a body, in accordance with Part 5 of the Act and as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the Authority's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Authority and the Authority's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Chief Finance Officer and auditor

As explained more fully in the Statement of Responsibilities, the Chief Finance Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17, which give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law, the Code of Audit Practice published by the National Audit Office on behalf of the Comptroller and Auditor General (the "Code of Audit Practice") and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the Authority's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Chief Finance Officer; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Narrative Report, and the Annual Governance Statement to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion:

- the financial statements present a true and fair view of the financial position of the Authority as at 31 March 2017 and of its expenditure and income for the year then ended; and
- the financial statements have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2016/17 and applicable law.

Opinion on other matters

In our opinion, the other information published together with the audited financial statements in the Narrative Report and the Annual Governance Statement for the financial year for which the financial statements are prepared is consistent with the audited financial statements.

Matters on which we are required to report by exception

We are required to report to you if:

- in our opinion the Annual Governance Statement does not comply with the guidance included in 'Delivering Good Governance in Local Government: Framework (2016)' published by CIPFA and SOLACE; or
- we have reported a matter in the public interest under section 24 of the Act in the course of, or at the conclusion of the audit; or
- we have made a written recommendation to the Authority under section 24 of the Act in the course of, or at the conclusion of the audit; or
- we have exercised any other special powers of the auditor under the Act.

We have nothing to report in respect of the above matters.

Conclusion on the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

Respective responsibilities of the Authority and auditor

The Authority is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

We are required under Section 20(1)(c) of the Act to be satisfied that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Scope of the review of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criteria issued by the Comptroller and Auditor General in November 2016, as to whether the Authority had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criteria as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2017.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether in all significant respects the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Conclusion

On the basis of our work, having regard to the guidance on the specified criteria issued by the Comptroller and Auditor General in November 2016, we are satisfied that in all significant respects the Authority put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2017.

Certificate

We certify that we have completed the audit of the financial statements of the Authority in accordance with the requirements of the Act and the Code of Audit Practice.

Glossary of Terms

GLOSSARY OF TERMS

Accounting Concepts

The fundamental accounting principles that are applied to ensure that the Statement of Accounts present a true and fair view of the financial performance and position of the local authority.

Accounting Policies

Accounting policies and estimation techniques are the principles, bases, conventions, rules and practices applied by the authority that specify how the effects of transactions and other events are to be reflected in its financial statements. An accounting policy, for example, will specify the estimation basis for accruals where there is uncertainty over the amount.

Accruals

Sums included in the accounts to recognise revenue and capital expenditure and income incurred or earned in the financial year, but for which actual payment had not been made or received as at 31 March (see Creditors and Debtors).

Balances

The total level of funds the Council has accumulated over the years.

Capital Expenditure

Expenditure on the acquisition of a fixed asset, or which adds to the life or value of an existing fixed asset.

Capital Receipts

Income received from the sale of assets and from the repayment of grants and loans made by the Council. Capital receipts may be used to finance new capital expenditure or to repay loan debt.

Collection Fund

A separate account which records receipts of Council Tax and Business Rates. Payments to the Council and other authorities are shown.

Community Assets

Assets which the Council intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples of community assets are parks and historic buildings.

Consistency

The concept that the accounting treatment of like items within an accounting period and from one period to the next is the same.

Balance Sheet

A statement of the recorded assets, liabilities and other balances of the Council at the end of the financial year.

Creditors

Amounts owed by the Council for works done, goods received or services provided within the financial year, but for which payment has not been made at the end of the financial year.

Debtors

Amounts owed to the Council for works carried out, goods provided or services rendered within the financial year, but for which payment has not been received at the end of the financial year.

Deferred Credits

Are deferred capital receipts, which are amounts derived from the sale of assets which will be received in instalments over agreed periods of time.

Depreciation

The measure of the wearing out, consumption or other reduction in the useful economic life of a fixed asset.

Earmarked Reserve

A sum set aside for a specific purpose.

Emoluments

All sums paid to or receivable by an employee, including the money value of any non-cash benefits.

Events After the Balance Sheet Date

Events, both favourable and unfavourable, which occur between the balance sheet date and the date on which the Statement of Accounts is signed for issue by the Chief Finance Officer.

Fees and Charges

Income arising from the provision of services e.g. the use of leisure facilities.

GLOSSARY OF TERMS

Finance Lease

A lease that transfers all the risks and rewards of ownership of a fixed asset to the lessee.

Financial Year

The period of time to which the Statement of Accounts relates. The financial year of the Council is from 1 April to 31 March.

IFRS

International Financial Reporting Standards.

General Fund

The account which records the cost of all Council services except those shown in the Collection Fund.

Government Grants

Grants made by the government and other bodies towards either revenue or capital expenditure, in return for past or future compliance with certain conditions relating to the activities of the Council. These grants may be specific to a particular scheme or may support the revenue spend of the Council in general.

Gross Expenditure (Total Cost)

Gross expenditure includes expenditure relating to employees, premises, transport, supplies and services, third party payments, transfer payments, support services and capital charges including depreciation.

Impairment

A reduction in the value of a fixed asset to below the amount it is included on the balance sheet.

Income and Expenditure Account

This statement reports the net cost for the year of all the functions for which the authority is responsible and demonstrates how that cost has been financed from general government grants and income from local taxpayers.

Infrastructure Assets

Assets belonging to the Council which cannot be transferred or sold and therefore their cost is only recoverable by continued use of the asset created. Examples are highways and footpaths.

Intangible Assets

Represents expenditure on assets that do not have a physical substance but are identifiable and controlled by the Council (e.g. computer software licences).

Investments

The lending of surplus revenue balances to provide additional income in the form of interest received.

Investment Properties

Are held by the Council for investment purposes only and cannot be classified as any other type of asset.

Liabilities

Amounts due to individuals or organisations, which will have to be paid at some time in the future. Current liabilities are usually payable within one year of the balance sheet date.

Materiality

An item is material if its omission, non-disclosure or mis-statement in financial statements could lead to a distortion of the view given by those statements.

National Non-Domestic Rates (NNDR)

Are rates levied on business properties and therefore known as business rates. The Council collects these rates and under the Business Rates Retention Scheme this is shared 50% to central government, 40% to East Staffordshire Borough Council, 9% to the County Council and 1% to the Fire Authority.

Net Book Value

The amount at which fixed assets are included in the balance sheet i.e. their historical cost or current value less the cumulative amounts provided for depreciation.

Net Current Replacement Cost

Cost of replacing or recreating the particular asset in its existing condition and in its existing use, i.e. the cost of its replacement or of the nearest equivalent asset, adjusted to reflect the current condition of the existing asset.

Net Expenditure

Net expenditure is gross expenditure less income from grants, contributions, sales, fees and charges, rents and recharges.

GLOSSARY OF TERMS

Net Realisable Value

Open market value of an asset in its existing use, less the expenses to be incurred in realising the asset.

Non-Operational Assets

Fixed assets held by the Council but not directly occupied, used or consumed in the delivery of services. Examples are investment properties and assets surplus to requirements and awaiting sale or redevelopment.

Operating Lease

The ownership of the asset remains with the leasing company who charge an annual rental.

Operational Assets

Fixed assets held and occupied, used or consumed by the Council in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Precepts

Amounts which the Council is required to collect as council tax on behalf of other authorities.

Prior Period Adjustments

Material adjustments applicable to prior years arising from changes in accounting policies or from the correction of fundamental errors. They do not include normal recurring conditions or adjustments of accounting estimates made in prior years.

Provisions

Amounts set aside to meet liabilities which are likely to be incurred, but where the amount and date on which they will arise is uncertain.

Prudence

The concept that income is not anticipated but is recognised only when realised in the form of cash or other assets and which can be assessed with reasonable certainty.

Public Works Loan Board (PWLB)

Central Government Agency which lends money to local authorities, usually at interest rates which are more favourable than those found elsewhere.

Related Party

Two or more parties are related where one party has control or is able to influence the financial or operational policies of another.

Residual Value

The net realisable value of an asset at the end of its useful life.

Revenue Expenditure

Expenditure on the day-to-day running of the Council, such as employee costs and supplies and services.

Revenue Support Grant (RSG)

A grant paid by Central Government towards the cost of providing services.

Stocks

The value of items purchased for use on a continuing basis, but which have not been used at the balance sheet date.

Tangible Fixed Assets

Tangible assets that yield benefits to the council and the services it provides for a period of more than one year. Examples include land, buildings and vehicles.

Useful Life

Period over which the Council will derive benefits from the use of a fixed asset.

Annual Governance Statement

ANNUAL GOVERNANCE STATEMENT

2016/2017

1. SCOPE OF RESPONSIBILITY

East Staffordshire Borough Council (ESBC) is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. ESBC also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, ESBC is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, and which includes arrangements for the management of risk.

ESBC has approved and adopted a code of corporate governance, which is consistent with the principles of the CIPFA/SOLACE Framework Delivering Good Governance in Local Government. A copy of the code can be found on our website, or can be obtained from the Corporate and Commercial Team. The statement explains how ESBC has complied with the code, and also meets the requirements of The Accounts and Audit Regulations 2015, regulation 6(1)(b), which requires all relevant bodies to prepare an annual governance statement.

2. THE PURPOSE OF THE GOVERNANCE FRAMEWORK

The governance framework comprises the systems and processes, culture and values by which the authority is directed and controlled and its activities through which it accounts to, engages with and leads its communities. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate services and value for money.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of ESBC's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at ESBC for the year ended 31st March 2017 and up to the date of approval of the annual report and statement of accounts.

3. THE GOVERNANCE FRAMEWORK

ESBC operates a number of systems and processes that comprise the authority's governance arrangements including:

- The clear statement of corporate objectives in the Corporate Plan and Service Plans, with the monitoring of achievement of corporate objectives via quarterly monitoring at the corporate management team, cabinet and scrutiny. The Corporate Plan, and Service Plans, are reviewed annually. Communication with respect to the Corporate Plan is with key stakeholders externally, and through internal communications. Service Plans are communicated through the internal communications, and via the employee appraisal process;
- The effective facilitation and operation of policies and decision-making processes including Cabinet and Scrutiny Committees, the Council's Constitution and delegated decision making

powers. The Constitution sets out how the Council operates and the procedures which are followed to enable transparent and accountable decisions to be made by the Cabinet. Scrutiny Committees provide the opportunity for independent Member review of Cabinet decisions and Council services and meetings are open to the public except where confidential matters are being disclosed. In addition, delegated decision making authority is given to senior officers in certain circumstances outlined in the Council's Constitution. The Council publishes a Forward Plan containing forward details of key decisions to be made by the Council;

- The operation of the statutory officer roles of Head of Paid Service (Chief Executive), Chief Financial Officer and Monitoring Officer, having specific responsibility for ensuring compliance with established policies, procedures, laws and regulations. The Monitoring Officer has the authority to report to Council if it is considered that any proposal, decision or omission would give rise to unlawfulness or maladministration, thereby stopping the proposal or decision being implemented until the report has been considered;
- The statutory officers have the authority to report to all the local authority's members if there is or is likely to be unlawful expenditure or an unbalanced budget set.
- The Council's procedure rules, and scheme of delegation are contained within the authority's Constitution. The constitution is reviewed on a regular and ongoing basis, with recommendations regarding changes and improvements being made to full Council;
- Effective financial management of the Council is conducted in accordance with Financial Regulations as Appended to Part 4 of the Constitution and appropriate professional standards, under the responsibility of the Chief Finance Officer in accordance with Section 151 of the Local Government Act 1972. This includes comprehensive budget setting processes and budgetary control systems, clearly defined capital expenditure guidelines and regular reporting mechanisms to Services and Members including quarterly and annual financial reports that indicate financial performance against forecasts. The Council has introduced a reporting mechanism to demonstrate the relationship between financial and operational performance. The Council has in place an annually updated financial plan in line with Central Government's funding policy and aligned with the authority's Corporate Plan.
- The Council maintains an Internal Audit Service, which operates to the Public Sector Internal Audit Standards.
- The Council has a formally constituted Audit Committee, which is responsible for providing independent assurance on the adequacy and effectiveness of the authority's control environment. The committee acts in accordance with the guidance and requirements outlined in the CIPFA guidance on Audit Committees: Audit Committee – Practical Guidance for Local Authorities;
- The Council has two independent members residing on the Audit Committee.
- The Council has an objective and professional relationship with external auditors and statutory inspectors, as evidenced by the Annual Audit Letter;
- There is a robust risk management approach which is considered and overseen by the Audit Committee. The policy enables the Council to identify, and take appropriate action to mitigate against or eradicate significant risks to the Council's objectives in line with the requirements of the Council's Risk Management Strategy. This approach is continually being developed, maintained and embedded through the proactive participation of all services, with the management and development of this being led by the Chief Accountant. This approach strengthens the links between risk management and audit.
- Corporate review of services, processes and procedures to ensure the economical, effective and efficient use of resources, combined with target setting and monitoring via a

performance management framework designed to secure continuous improvement in the way in which its services are delivered;

- Services are delivered by suitably trained and experienced staff, all posts having detailed job descriptions and person specifications while training and development needs are identified through a staff appraisal scheme which ensures that objectives and targets are clear and agreed;
- The adoption and use of PRINCE2 methodology to ensure the effective and ultimately successful management of projects. This, combined with the regular meeting of the Business Assurance Group (BAG), enables the Council to proactively monitor and appraise appropriate projects;
- A comprehensive performance management and benchmarking framework including regular reporting to senior officers and members;
- An effective approach to engaging with local people and other stakeholders through partnership arrangements, electronic channels such as the website and social media, the Customer Service Centres, and the Neighbourhood Forums.
- A customer feedback scheme for the public to make complaints, comments, compliments and constructive criticism about any aspect of the Council's services, which is used to improve services;
- The Council's whistle-blowing policy enables the authority to receive and investigate alleged incidences of malpractice or illegal activities. The policy is reviewed and updated on a regular basis, and allows for staff, members, partners, public and other stakeholders the opportunity to report such instances of malpractice or illegal activity. The policy is widely publicised, and is effectively communicated to the aforementioned stakeholders;
- Appropriate governance arrangements are put in place for each of the partnerships the authority is involved with and relevant partnerships are reviewed using the Partnership Toolkit.
- Developing the capacity and capability of Members in order to improve and become more effective, and also ensure that officers (including statutory officers) have the capability and capacity to deliver efficiency.
- The authority's financial management arrangements conform to the governance requirements of the CIPFA statement on The Role of The Chief Financial Officer in Local Government. By doing so, the Authority is able to demonstrate that the core principles are adhered to and achieved.

4. REVIEW OF EFFECTIVENESS

ESBC has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control.

The review of effectiveness is informed by the work of the senior managers within the authority who have responsibility for the development and maintenance of the governance environment, the Chief Internal Auditor's annual report, and also by comments made by the external auditors and other review agencies and inspectorates.

In practice, this review of the effectiveness of the system of internal control is an ongoing process incorporating the various elements described above. This review has carried out throughout 2016/17 and encompassed the following:

- The ongoing review of existing corporate policies and production and approval of new or revised policies and procedures in accordance with best practice. This included developing a new Corporate Fees and Charges Policy for approval in December 2016.
- The ongoing review of the Council's Constitution by Members and Senior Officers of the Council;
- The continued operation of clear policy and decision making through Cabinet and Regulatory Committees and review and challenge through Scrutiny Committees;
- Formal reporting mechanisms to members to review and monitor the work of the Internal Audit Service through reports to the Audit Committee, including an annual report containing an opinion statement on the overall adequacy and effectiveness of the Council's internal control environment;
- The development of the authority's chosen internal audit supplier, CW Audit, and implementing advice and guidance;
- The Audit Committee also, as part of its terms of reference, approves and/or recommends changes to the Annual Governance Statement, and reviews its content and effectiveness on an annual basis;
- The Audit Committee has received training and briefing sessions to support with its effectiveness;
- There have been a number of Financial Management training and briefing sessions that were made available and delivered to Council Members.
- The Council's Scrutiny Committees reviewed decisions made by Cabinet, and carried out a number of specific reviews.
- The Standards Committee is responsible for the Council's ethical framework, and works closely with the Monitoring Officer. Issues covered by the committee's terms of reference include member conduct and ethical standards;
- There have been quarterly formal reports being considered by Cabinet which focus on both Corporate Plan and Financial Performance.
- The Audit Committee received and reviewed the quarterly financial performance reports and the three Scrutiny Committees reviewed performance against the Corporate Plan through quarterly performance reports.
- Internal Audit review of services and functions based on a risk assessed audit plan, in order to provide an independent opinion on the adequacy and effectiveness of the system of internal control;
- Internal Audit's presence and participation on appropriate Council projects in order to provide additional assurance;
- There is an external review of the Council's internal control environment by the external auditor, including a thorough review of Internal Audit's work and external review by other review agencies;
- There are quarterly review meetings that are held with external auditors and the Council's three statutory officers on an individual basis;
- There are regular meetings that are held between the Head of Internal Audit/ the Chief Executive and the Head of Internal Audit/Chief Finance Officer;

- The Council's Project Management approach has been continuously improved.
- There are regular meetings between the Council's three statutory officers to discuss risk and governance.

5. SIGNIFICANT GOVERNANCE ISSUES

During the 2016/17 financial year no significant governance issues arose. However, with reference to areas for future learning in our project management regime, there were specific areas which have been reported through Internal Audit.

We propose that we continue to maintain the level of governance at the authority, whilst striving to improve wherever we can.
