

Direction to vary conditions of consent to the discharge of trade effluent to the public foul water sewer

To: The Company Secretary
JCB Cab Systems Limited
Rocester
Uttoxeter
Staffordshire
ST14 5JP

WHEREAS

Trade effluent is now discharged from the premises known as **JCB Cab Systems Limited** and situated at **Power Station Road, Rugeley, Staffordshire, WS15 2WA** under a consent dated 15 August 1991 issued by Severn Trent Water Limited

NOW THEREFORE Severn Trent Water Limited (hereinafter called "The Sewerage Undertaker")

HEREBY Direct under the powers conferred on them by Section 124 of the Water Industry Act 1991, that subject as hereinafter specified as from 4 January 2011 the Consent dated 15 August 1991 be varied and the following conditions substituted for the conditions previously attached thereto.

- | | |
|------------------------------|---|
| Sewer Affected | 1. The public sewer into which the trade effluent may be discharged is the foul water sewer situated in Power Station Road . |
| Nature or Composition | 2. The trade effluent to be discharged shall consist solely of waste waters specified in the trade effluent notice served in respect of the premises and derived from paint pre-treatment . |
| Maximum volume | 3. The maximum volume of trade effluent to be discharged in any continuous period of 24 hours shall not exceed 80 cubic metres. |
| Maximum rate | 4. The highest rate at which the trade effluent may be discharged shall not exceed 1 litre per second. |
| Period of discharge | 5. The trade effluent shall only be discharged into the public sewer between 00:00 and 23:59 hours. |
| Quality Conditions | 6. a. The trade effluent to be discharged shall not contain any of the substances or properties listed in Appendix I in amounts or proportions other than those which comply with the limits there stated and shall not contain any substances or properties not listed in Appendix I except with the prior written permission of the Sewerage Undertaker and on such terms and conditions as are set out therein.

b. The trade effluent to be discharged shall not contain any special category effluent (as defined in Section 138 of the Water Industry Act 1991) in a concentration greater than background concentration (as defined in the Trade Effluents (Prescribed Processes and Substances) Regulations 1989).

c. Where the trade effluent derives from a prescribed process mentioned in Schedule 2 to the Trade Effluents (Prescribed Processes and Substances) Regulations 1989, it shall not contain asbestos (as defined in the said Regulations) and chloroform in a concentration greater than the background concentration (as defined in the said Regulations); |
