

# Ward - Anglesey

## Councillors

Michael Carruthers – Labour  
Ali Chaudhry – Labour

## Area

Anglesey covers 145 hectares. This is the smallest ward in geographical terms and represents 0.4% of East Staffordshire.

## 2001 & 2011 Census

The Census which takes place every ten years provides the most authoritative statistics on our local population. The 2011 Census work has started but the first results from this will not be available until September 2012, and this will initially be at a local authority level. Further results will be released by the Office for National Statistics throughout 2013/14. Therefore, many of the statistics throughout this report refer to the 2001 Census.

### Summary statistics from the 2001 Census of Population

Actual	Anglesey	East Staffordshire	England & Wales
Population	5,835	103,770	52,041,916
Total permanent households	2,266	42,717	21,660,475
Percentage	%	%	%
Male	49.3	48.7	48.7
Female	50.7	51.3	51.3
Ethnic minority	28.4	6.1	8.7
Religion – Christian	57.6	77.4	71.8
No Religion	12.0	11.5	14.8
Children aged 0-15	24.5	21.2	20.2
Persons aged 16-74	69.2	71.7	72.2
People aged 75+ years	6.3	7.1	7.6
Employed (of those aged 16-74)	56.0	63.1	60.6
Looking after home/family (of those aged 16-74)	10.3	6.6	6.5
Retired (of those aged 16-74)	10.7	14.5	13.6
Occupation – Manager or Senior Official	9.6	15.1	15.1
Occupation – Process, Plant or Machine Operative	18.5	12.1	8.5
Households with no car	37.2	23.2	26.8
Households with 2 or more cars	16.1	32.6	29.4
Travel to Work – by Bike or On Foot	28.3	15.1	12.8
Travel to Work – Drive a Car or Van	50.7	61.8	55.2
Residents with limiting long term illness	18.9	17.1	18.2
Residents who described their health as 'not good'	9.3	7.9	9.2
Residents who provide unpaid care	8.2	10.0	10.0
Owner occupied households	71.9	75.8	68.9
Rented from a Council or RSL	8.7	14.1	19.2
No Central Heating	31.7	15.3	8.5
Pensioner living alone	13.7	14.0	14.4
Single person households	33.0	27.7	30.0
Lone parent households	7.9	5.7	6.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census data show that when compared to East Staffordshire and England & Wales, Anglesey has:

- A significantly higher Black & Minority Ethnic population
- A lower proportion of Christians and a higher proportion with no religion than the Borough average
- A higher proportion of children
- A lower proportion over the age of 75 years
- A lower proportion of residents who are employed and a lower proportion who are retired
- A higher proportion of residents who look after the family/home
- A lower proportion of residents whose occupation is manager or senior official
- A higher proportion of residents whose occupation is process, plant or machine operative
- A far higher proportion of households with no car and a lower proportion with two or more cars
- A higher proportion of residents who travel to work by bike/foot and a lower proportion who drive
- A higher proportion of residents with a limiting long term illness and 'not good' health
- A lower proportion of residents who provide unpaid care
- A lower proportion of owner occupied households than the Borough average
- A lower proportion rented from the Council or an RSL
- A far higher proportion of households without central heating
- A higher proportion of single person and also lone parent households

## Population

The most authoritative population estimates are produced every ten years based on the Census of Population. The 2001 Census gives the population of Anglesey as 5,835.

### Age of Resident Population in 2001 - %

	Anglesey	East Staffordshire	England & Wales
Under 16	24.5	21.2	20.2
16 to 19	6.0	4.8	4.9
20 to 29	15.0	10.6	12.6
30 to 59	37.8	42.6	41.5
60 to 74	10.4	13.7	13.3
75 and over	6.3	7.1	7.6
<b>Average Age</b>	<b>34.6</b>	<b>38.6</b>	<b>38.6</b>

Source: 2001 Census Area Statistics

The above figures are updated to produce mid year population estimates in the inter-censal period. The latest figures are for 2009 and these estimate the population of Anglesey to be 6,321, which is a rise of 8.3% on the 2001 Census figure.

### Mid 2009 Population Estimates by Broad Age Group

	All Ages	Children 0 - 15	Working Age 16-64M/59F	Older People 65M/60F & over
Anglesey	6,321	24.5	63.8	11.7
East Staffordshire	108,800	19.6	60.0	20.4
Staffordshire	828,700	17.9	60.4	21.7
West Midlands	5,431,100	19.4	60.6	20.0
England	51,809,700	18.7	61.9	19.3

Source: Office for National Statistics Crown Copyright 2010

### Ethnic Group – Resident Population in 2001 - %

	Anglesey	East Staffs	England & Wales
White	71.6	93.9	91.3
Mixed	1.4	0.9	1.3
Asian or Asian British	23.6	4.3	4.4
Black or Black British	3.1	0.6	2.2
Chinese or Other Ethnic Group	0.3	0.3	0.9
<b>Black &amp; Minority Ethnic</b>	<b>28.4</b>	<b>6.1</b>	<b>8.7</b>

Source: 2001 Census Area Statistics

### Religion – Resident Population - 2001

In the 2001 Census 57.6% of Anglesey residents stated their religion to be Christian. This is below the East Staffordshire average of 77.4% and the England & Wales average of 71.8%. 12.0% responded with 'No Religion'. This falls between the East Staffordshire average of 11.5% and the England & Wales average of 14.8%. Christianity is not the only major religion in Anglesey. 22.4% of residents are Muslim. This is significantly above the Borough average, as Islam is the religion of 4.0% of all East Staffordshire residents. However, it is in line with the high Black & Minority Ethnic (BME) population in Anglesey.

Key points from the latest population data show that when compared to East Staffordshire and England, Anglesey has:

- A higher percentage of children
- A higher percentage of working age residents
- A lower percentage of older people
- A significantly higher Black & Minority Ethnic population
- A lower percentage of Christians and a significantly higher percentage of Muslims

## Economic Activity

### Economic Activity – Resident Population Aged 16 to 74 - %

	Anglesey	East Staffs	England & Wales
Employed	56.0	63.1	60.6
Unemployed	5.5	3.1	3.4
Economically active full-time students	2.1	2.1	2.6
Retired	10.7	14.5	13.6
Economically inactive students	4.8	3.1	4.7
Looking after home/family	10.3	6.6	6.5
Permanently sick or disabled	5.8	4.3	5.5
Other economically inactive	4.9	3.2	3.1

Source: 2001 Census Area Statistics

63.6% of all Anglesey residents aged 16 to 74 are economically active (full and part-time employed, self-employed, unemployed or economically active full-time student). This is below the East Staffordshire average of 68.3% and the England & Wales average of 66.5%.

Key points from the 2001 Census economic activity data show that when compared to East Staffordshire and England & Wales, Anglesey has:

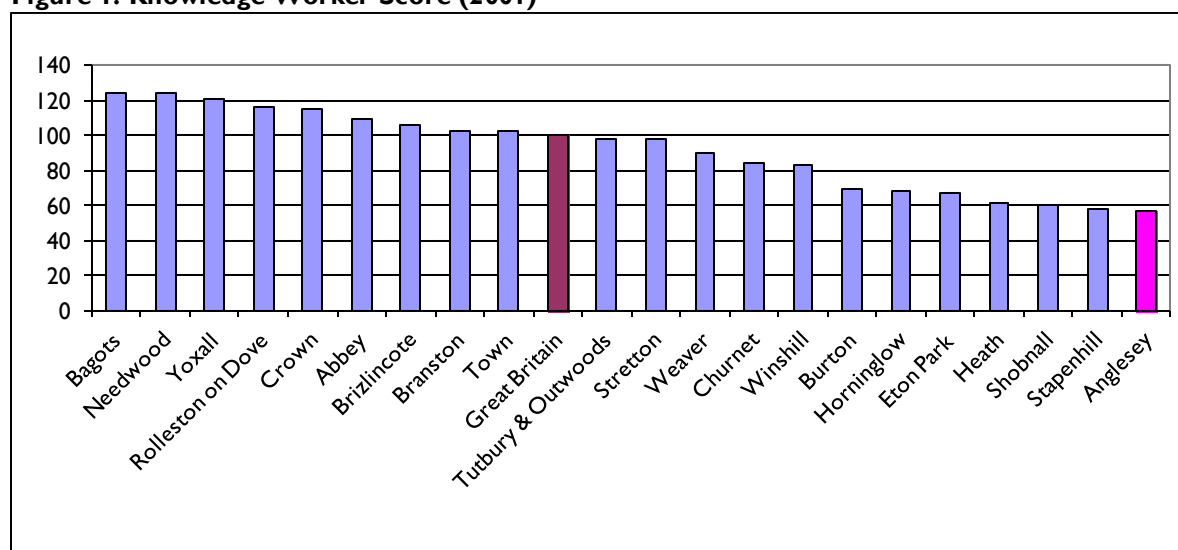

- A lower economic activity rate
- A lower employment rate
- A higher proportion of economically inactive students
- A lower proportion of retired residents
- A significantly higher proportion of those who are looking after the home/family
- A higher proportion of those who are permanently sick or disabled
- A higher economically inactive rate

### Occupation Groups – Resident Population Aged 16-74 - %

	Anglesey	East Staffs	England & Wales
Managers & Senior Officials	9.6	15.1	15.1
Professional	5.1	9.4	11.2
Associate Professional & Technical	7.9	11.0	13.8
Admin & Secretarial	8.9	11.3	13.3
Skilled Trades	12.5	12.9	11.6
Personal Service	6.9	6.5	6.9
Sales & Customer Service	9.6	6.8	7.7
Process, Plant & Machine Operatives	18.5	12.1	8.5
Elementary e.g. labourers, porters	21.1	14.7	11.9

Source: 2001 Census Area Statistics

**Figure 1: Knowledge Worker Score (2001)**

Source: Local Knowledge; Census 2001

The Knowledge Worker Score is an index showing the proportion of working age residents that are employed in knowledge occupations. These occupations are based on the following SOC groups:

- 1) Managers and Senior Officials
- 2) Professional Occupations
- 3) Associate Professional and Technical Occupations

The national average is 100 – if the figure is below 100 for a ward then a lower proportion of its residents work in knowledge occupations.

Key points from the 2001 Census occupation group data show that when compared to East Staffordshire and England & Wales, Anglesey has:

- A lower proportion of managers & senior officials, professionals, associate professional and technical occupations and also administration and secretarial occupations.
- A higher proportion of sales and customer service, process, plant and machine operatives and elementary occupations.
- A lower proportion of knowledge workers than the Great Britain average – in fact the lowest proportion in the Borough.

**Industrial Groups – Resident Population Aged 16-74 in Employment - %**

	Anglesey	East Staffordshire	England & Wales
Agriculture; Hunting; Forestry & Fishing	0.8	2.1	1.5
Mining & Quarrying	0.1	0.3	0.3
Manufacturing	24.9	22.7	15.0
Electricity; Gas & Water Supply	0.5	0.8	0.7
Construction	7.1	7.0	6.8
Wholesale & Retail Trade; Repair of Motor Vehicles	21.7	17.3	16.8
Hotels & Restaurants	5.6	4.9	4.8
Transport; Storage & Communication	9.7	6.5	7.0
Financial Intermediation	1.0	1.9	4.7
Real estate; Renting & Business Activities	8.5	10.4	13.0
Public Administration & Defence; Social Security	2.5	3.5	5.7
Education	4.7	7.5	7.8
Health & Social Work	8.6	10.5	10.8
Other	4.4	4.5	5.2

Source: 2001 Census Area Statistics

Key points from the 2001 Census Industry data show that when compared to East Staffordshire and England & Wales, Anglesey has:

- A higher proportion of residents employed in manufacturing, construction, wholesale & retail trade, repair of motor vehicles, hotels & restaurants, transport, storage & communications,
- A lower proportion in agriculture, hunting, forestry & fishing, financial intermediation, real estate, renting & business activities, public administration & defence, social security, education, health & social work and other.

#### Travel to Work Methods – All People Aged 16-74 in Employment - %

	Anglesey	East Staffs	England & Wales
Work from home	6.0	9.6	9.2
Underground; metro; light rail; Tram	0.0	0.0	3.0
Train	0.3	0.8	4.1
Bus; Mini Bus or coach	3.3	3.7	7.4
Motorcycle; Scooter; moped	1.2	1.0	1.1
Driving a car or van	50.7	61.8	55.2
Passenger in a car or van	8.3	7.1	6.3
Taxi or minicab	1.5	0.6	0.5
Bicycle	8.0	4.1	2.8
On foot	20.3	11.0	10.0
Other	0.5	0.4	0.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census Travel to Work data show that when compared to East Staffordshire and England & Wales, Anglesey has:

- A lower proportion of residents who work from home
- A lower proportion of residents who travel by bus, mini bus or coach
- A lower proportion of residents who drive to work
- A higher proportion of residents who are passengers in a car or van
- A higher proportion of residents who use a bicycle
- A significantly higher proportion who travel on foot

#### Number of Employees & Proportion of Full-time & Part-time Employment – 2009

	Number of Employees	% Full time	% Part time
Anglesey	1,900	67.3	32.7
East Staffordshire	53,000	70.3	29.7
Staffordshire	309,300	68.0	32.0
England & Wales	23,823,600	67.9	32.1

Source: Business Register and Employment Survey 2009 (Figures are rounded to nearest 100)  
These figures exclude farm agriculture

Key points from the 2009 Employment Survey data show that when compared to the East Staffordshire average, Anglesey has:

- A lower proportion of full-time employees
- A higher proportion of part-time employees

## Unemployment

April 2011	Anglesey	East Staffordshire	Staffordshire	England
Total unemployed - %	5.8	2.9	2.8	3.7
<b>Of which:</b>				
% aged under 25	28.4	31.1	31.7	28.2
% unemployed for over 12 months	11.2	8.2	11.4	14.0

Source: Nomis – Claimant Count

Key points from the unemployment data show that when compared to Staffordshire and East Staffordshire, Anglesey has:

- A much higher unemployment rate, in fact the second highest in the Borough (along with Burton ward)
- A lower youth unemployment proportion
- A higher long term unemployment proportion than the Borough average

## Education

### Key Stage 2 Test Results in 2010 - %

Key Stage 2 Results	Both English & Maths	English	Maths	Average Point Score
2010	%		%	
Anglesey (GM) Primary	Boycott school			
Staffordshire Average	74	81	81	27.6
England Average	73	80	79	27.5
The table shows the percentage of eligible pupils achieving Level 4 or above in each subject. Level 4 is the level expected of most 11 year olds.

### Percentage in Receipt of Free School Meals – October 2010

Primary Schools	%	Middle & Secondary Schools	%
Anglesey Foundation Primary	23.5	Paget High	13.6
East Staffordshire	14.5	East Staffordshire	8.7
Staffordshire	13.3	Staffordshire	9.4

Source: Staffordshire LEA

The School Census summaries, at a ward level, some of the information set out above. It is collected by Staffordshire County Council and covers nursery, primary, middle, secondary and special schools in the maintained sector in Staffordshire. It includes information on pupils by gender, free school meal eligibility, ethnicity, special educational needs, travel to school methods and gifted and talented status. If there are less than 10 children in one category the percentage is given as Suppressed.

### School Census 2010

2010	Anglesey	East Staffordshire	Staffordshire
% of pupils who are girls	48.5	48.8	48.8
% of pupils who are boys	51.5	51.2	51.2
% of BME pupils	64.7	18.6	7.2
% who have Free School Meals	22.2	13.4	12.4
% of pupils subject to School Action	18.5	12.8	10.6
% of pupils subject to School Action Plus	5.9	12.8	10.6
% of pupils who have a SEN Statement	1.9	2.3	2.7
% of pupils who are subject to School Action Plus or have a SEN Statement	7.8	6.6	7.6
% of pupils travelling to school by car/van	23.5	23.7	27.7
% of pupils travelling to school by bus	2.4	1.9	2.4
% of pupils walking to school	59.6	58.1	54.8
% of Pupils who are Gifted or Talented	5.2	10.3	10.4

Source: Staffordshire Observatory/Staffordshire County Council

### Qualifications Held by Resident Population Aged 16-74 in 2001 - %

	Anglesey	East Staffs	England & Wales
Had no qualifications	40.6	31.8	29.1
Qualified to degree level or higher	9.2	16.0	19.8

Source: 2001 Census Area Statistics

Key points from the schools data show that when compared to Staffordshire and England averages, schools in and around Anglesey have:

- A higher level of overall absence persistent absence
- A lower percentage of eligible pupils achieving 5 or more GCSEs at grades A-C
- A lower percentage of eligible pupils achieving 5 or more GCSEs at grades A-C that include English & Maths
- A lower average point score per student and per exam entry at GCE (Post 16) level
- No results for Key Stage 2 (boycott school)
- A significantly higher percentage of pupils receiving free school meals at all the schools
- A higher percentage of school leavers continuing with structured learning by 2010
- A lower percentage of school leavers not yet settled in any full-time positive activity by 2010 than the Borough average.

Key points from the Census show that when compared to East Staffordshire and England & Wales averages, residents in Anglesey have:

- A higher proportion of residents with no qualifications
- A lower proportion of residents qualified to degree level or above

Key points from the 2010 School Census show that when compared to East Staffordshire averages, pupils in Anglesey are:

- Far more likely to be of BME origin
- More likely to have free school meals
- More likely to be subject to School Action but less likely to be subject to School Action Plus
- Less likely to have a SEN statement
- Just as likely to travel to school by car
- More less likely to travel to school on foot
- Less likely to be termed gifted or talented.

## Health

### Key Health Comparators - %

2001 Census Area Statistics	Anglesey	East Staffs	England & Wales
Residents with limiting long-term illness (2001)	18.9	17.1	18.2
Residents who described their health as 'Good'	64.9	69.4	68.6
Residents who described their health as 'Fairly Good'	25.9	22.6	22.2
Residents who described their health as 'Not Good'	9.3	7.9	9.2
Residents who provide unpaid care	8.2	10.0	10.0

Source: 2001 Census Area Statistics

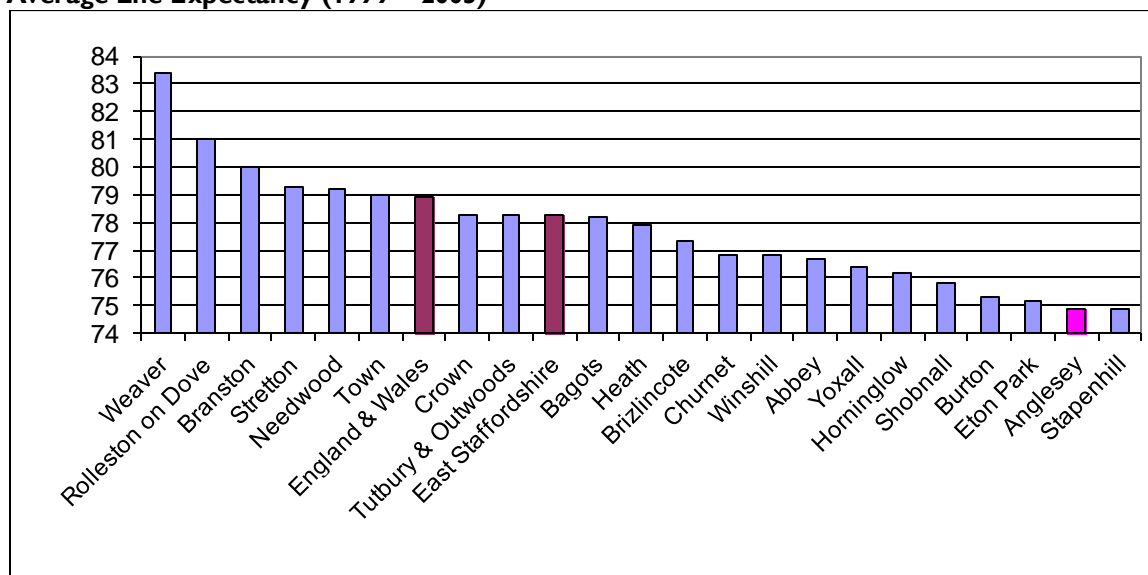

### Health Lifestyle Behaviours – 2000/2002

	Anglesey	East Staffordshire	England
Proportion of Residents who Binge Drink	15.8	16.2	16.5
Proportion of Residents who are Obese	25.1	23.8	20.5
Proportion of Residents who Smoke	31.8	24.6	24.2
Proportion of Adult Residents who eat 5+ Fruit & Vegetable Portions per day	22.2	23.6	22.2
Proportion of Child Residents who eat 3+ Fruit & Vegetable Portions per day	34.7	32.8	35.1

The data for this indicator is part of a data modelling exercise carried out based on the Health Survey of England. Results are based on 3 year sample data of 16,000 adults and 4,000 children each year. The figures should not be used as actual figures but rather should be viewed as expected levels based on the socio-demographic characteristics of the area.

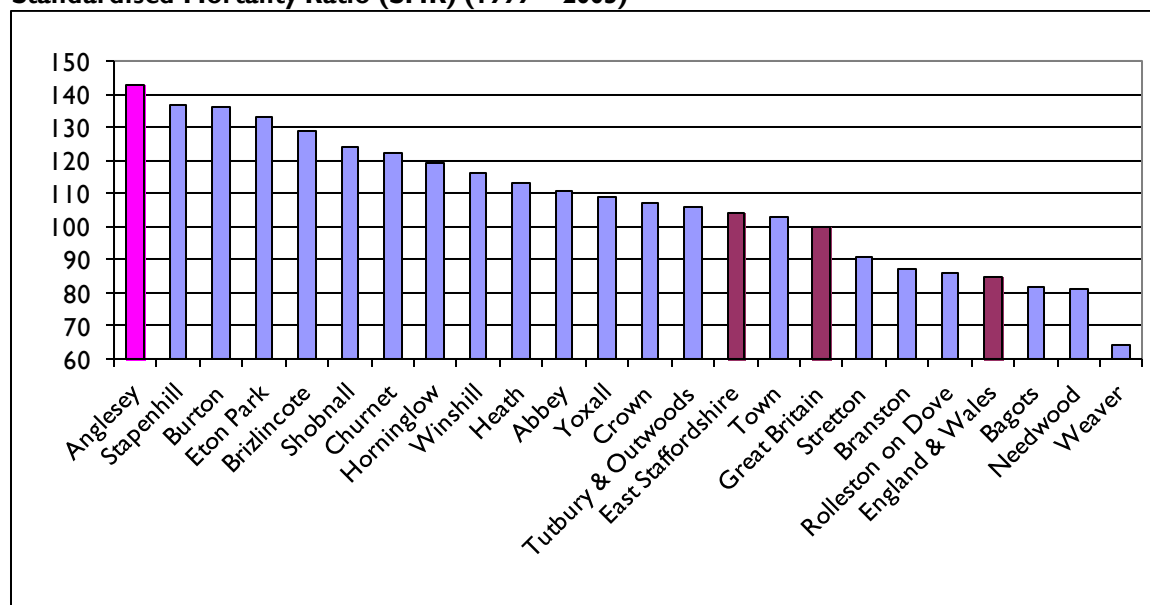

Source: Local Knowledge: Synthetic Health Indicators for Health Lifestyle Behaviours

### Average Life Expectancy (1999 – 2003)

Source: Local Knowledge; Life Expectancy at Birth

### Standardised Mortality Ratio (SMR) (1999 – 2003)

Source: Local Knowledge; Standardised Mortality Ratios

The Standardised Mortality Ratio compares overall mortality in a locality with that for the UK as a whole. The ratio expresses the number of deaths in a locality as a percentage of the hypothetical number that would have occurred if the local population had experienced the sex/age specific rates of the UK in that year. The lower the figure, the lower the relative mortality.

In the table below the Health Intelligence and Clinical Evidence Team, Staffordshire Public Health have summarised some of the key health indicators. Those shaded red are statistically worse than the England average. The following measurements are statistically worse for those living in Anglesey:

- Percentage of births with a low birth weight (under 2,500 gram)s
- Life expectancy at birth for males and females (years)
- All-age all cause mortality rate per 100,000 population
- Premature mortality (rate per 100,000 population aged under 75)
- Smoking prevalence - adults (Mosaic estimates)
- Percentage of adult population eating five or more portions of fruit or vegetables a day (Mosaic estimates)
- Percentage of adult population doing no exercise in the last month (Mosaic estimates).

### Summary of Key Health Indicators

	Anglesey	East Staffs
Percentage of births with a low birth weight (under 2,500 grams) (2004/08)	13.2%	9.1%
Life expectancy at birth for males (years) (2004/08)	72.6	76.9
Life expectancy at birth for females (years) (2004/08)	78.7	81.1
All-age all cause mortality rate per 100,000 population (2004/08)	862	626
Premature mortality (rate per 100,000 population aged under 75) (2004/08)	382	306
Premature mortality from circulatory diseases (rate per 100,000 people aged under 75) (2004/08)	95	80
Premature mortality from cancers (rate per 100,000 people aged under 75) (2004/08)	117	113
Mental Illness Needs Index (MINI) (rate per 100,000 population) (2000)	486	350
Percentage of population with a self reported limiting long term illness (2001)	18%	17%
Smoking prevalence - adults (Mosaic estimates) (2009)	33%	25%
Obesity prevalence - adults (Mosaic estimates) (2009)	16%	17%
Percentage of adult population eating five or more portions of fruit or vegetables a day (Mosaic estimates) (2009)	20%	24%
Percentage of adult population doing no exercise in the last month (Mosaic estimates) (2009)	55%	51%

Source: Health Intelligence and Clinical Evidence Team, Staffordshire Public Health

Key points from the 2001 Census show that when compared to the East Staffordshire and England & Wales averages Anglesey has:

- A higher proportion of residents suffering with a limiting long-term illness
- A higher proportion of residents who described their health as 'Not Good'
- A lower proportion of residents who provide unpaid care

Key points from the Synthetic Health Indicators for Health Lifestyle Behaviours Survey show that when compared to the national averages Anglesey is thought to have (based on a sample survey):

- A lower proportion of residents who binge drink and a lower proportion of children who eat 3 or more portions of fruit and vegetables per day
- A higher proportion of residents that are obese and who smoke

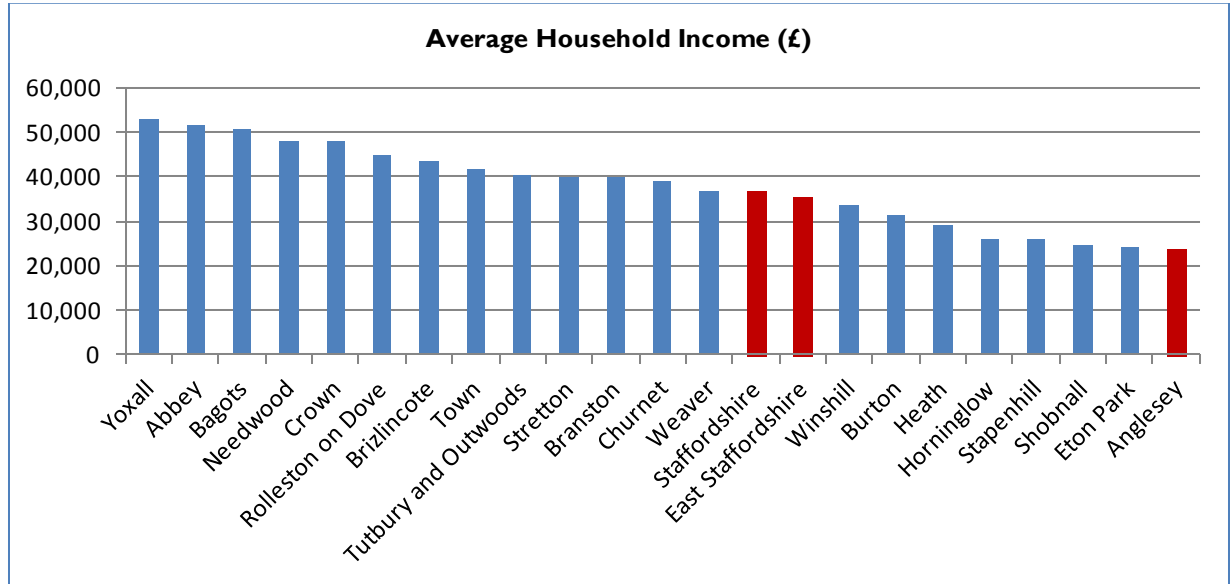

Key points from the 1999 – 2003 life expectancy and standardised mortality ratio data show that when compared to the national average Anglesey has:

- A lower than average life expectancy
- A higher than average SMR – in fact the highest in East Staffordshire

## Income

The average household income across East Staffordshire in 2008 was £35,500, which is slightly below the Staffordshire average of £36,800. However, across Anglesey the average household income in 2008 was £23,800, which is significantly below the Borough and County figures. In fact Anglesey has the lowest average household income of all the Borough's wards.

### Average Household Income – 2008

### DWP Benefit Claimants – Working Age Clients – May 2010

Proportion of resident population aged 16-64 claiming benefits			
%	Anglesey	East Staffordshire	Great Britain
Total claimants	19.9	13.3	14.7
Job seekers	6.0	3	3.5
ESA and incapacity benefits	7.5	6	6.7
Lone parents	3.3	1.5	1.7
Carers	1.5	1.1	1.1
Others on income related benefits	0.5	0.5	0.5
Disabled	1.0	1	1
Bereaved	0.1	0.3	0.2

Source: DWP Benefit Data – Nomis

Key points from the income data show that when compared to East Staffordshire, Anglesey has:

- An average household income of £23,800, which is below the East Staffordshire average (£35,500). In fact it has the lowest average household income of all the 21 wards.
- A significantly higher proportion of total benefit claimants
- A higher proportion claiming Job seekers, ESA & incapacity benefits, lone parents and carers allowance.

## Housing

At the time of the 2001 Census there were 2,266 household spaces with residents in Anglesey. There was also an additional 170 household spaces without residents, making a total of 2,436 household spaces in Anglesey in April 2001.

### Households – 2001 Census Findings - %

	Anglesey	East Staffs	England & Wales
One person households	33.0	27.7	30.0
Pensioner living alone	13.7	14.0	14.4
Other all pensioner households	5.6	9.6	9.4
Contained dependent children	35.8	31.0	29.5
Lone parent households with dependent children	7.9	5.7	6.5
Owner occupied	71.9	75.8	68.9
Rented from Council	3.1	8.1	13.2
Rented from Housing Association or RSL	5.6	6.0	6.0
Private rented or lived rent free	19.4	10.2	11.9
Without central heating	31.7	15.3	8.5
Without sole use of bath, shower or toilet	1.0	0.3	0.5
Have no car or van	37.2	23.2	26.8
Have 2 or more cars or vans	16.1	32.6	29.4
Average household size (number)	2.5	2.4	2.4
Average number of rooms per household	5.5	5.7	5.3

Source: 2001 Census Area Statistics

Key points from the housing data show that when compared to East Staffordshire, households in Anglesey are:

- More likely to be single person households, lone parent households and households containing dependent children
- Less likely to be single pensioner or all pensioner households
- Less likely to be owner occupied than the Borough average
- Less likely to be rented from the Council/RSL but more likely to be private rented/rent free
- Far more likely to be without central heating and more likely to be without sole use of a bath, shower or toilet
- Far more likely to have no car or van and far less likely to have 2 or more cars or vans
- More likely to be larger in terms of the number of people

### Households – 2001 Census – Accommodation Type - %

	Anglesey	East Staffs	England & Wales
Percentage living in a detached house	6.3	31.7	22.8
Percentage living in a semi-detached house	11.8	32.8	31.6
Percentage living in a terraced house	74.8	25.7	26.0
Percentage living in a flat or maisonette	7.1	9.4	19.2
Percentage living in a caravan or mobile home	0.0	0.4	0.4

Source: 2001 Census Area Statistics

Key points from the 2001 Census show that when compared to East Staffordshire, households in Anglesey are:

- Far less likely to be in a detached house
- Far less likely to be in a semi-detached house
- Far more likely to be in a terraced house
- Less likely to be in a flat or maisonette
- Less likely to be in a caravan or mobile home

## Private Sector House Condition Survey 2008

The 2008 House Condition Survey was distributed to a random sample of 1,250 private sector households and entailed full internal and external surveys plus supporting interviews with the occupying households. At the time of the survey there were 41,968 private dwellings, 38,849 of which were occupied (92.6%) and 3,119 (7.4%) were vacant. Of these 14,048 households (36.2%) are elderly and 12,464 households are economically vulnerable (32.1%). There is a mixed age profile with 16,596 dwellings (39.5%) constructed pre-1945 and 11,434 dwellings (27.2%) constructed pre-1919.

Housing conditions in the Borough are better than the national average for private housing; however, housing condition problems remain significant:

- 13,445 dwellings (32.0%) are non-decent
- 8,137 dwellings (19.4%) exhibit Category I hazards

	Category I Hazards	Non-decent Homes	Decent homes Energy Failure Rates	Fuel Poverty
Burton & Horninglow	30.3	50.3	25.9	39.2
Inner Burton (Anglesey, Eton Park and Shobnall)	29.9	39.9	18.8	41.7
Rural North (Abbey, Churnet & Weaver)	23.9	31.3	22.5	33.6
Rural South (Bagots, Crown, Needwood, Rolleston on Dove, Tutbury & Outwoods, Yoxall)	21.0	39.5	26.9	44.6
Winshill & Stapenhill	14.5	23.5	12.3	32.9
Uttoxeter (Heath & Town)	12.0	22.8	9.6	27.2
Outer Burton (Branston, Brizlincote and Stretton)	8.4	18.5	11.1	27.2
Borough Average	19.4	32.0	18.1	35.5

### Category I hazards

These include falls on steps/stairs, excess cold, dampness/mould and crowding/space. Category I hazards are not evenly distributed across the Borough but are higher across the Inner Burton and Burton/Horninglow areas

### Non-decent homes

The most common reasons for failing the Decent Homes Standard relate to energy efficiency and Category I hazards. Patterns of non-decent housing are similar to those for Category I hazards with higher rates for the Inner Burton and Burton/Horninglow areas. Rates of non decency are also higher in the Rural South. Poor housing conditions within the Borough are associated with households in social and economic disadvantage. A significant proportion of households living in non-decent homes are made up of the elderly (36.2%) and the economically vulnerable (48.8%).

### Home energy efficiency

The home energy efficiency rates in private housing in the Borough are above the national average. East Staffordshire has an average SAP Rating of 56 compared to an average of 47 for all private housing in England. 7,585 dwellings fail the Decent Homes energy requirements representing 18.1% of all private dwellings.

### Fuel Poverty

13,805 households in the Borough (35.5%) are in Fuel Poverty. The highest rates of fuel poverty are associated with Inner Burton and the Rural South. Rates of fuel poverty are also higher for households in pre-war housing, terraced housing and converted flats. Households most affected include young single households, single parent families and the elderly.

Key points from the 2008 House Condition Survey show that when compared to the East Staffordshire average, private housing stock in the Inner Burton area is:

- More likely to exhibit Category I Hazards
- More likely to be non-decent
- More likely to fail the Decent Homes Energy Rating
- More likely to be in Fuel Poverty

### Register of Electors 2010

The table below shows a count of the number of properties at the time of the 2010 Register of Electors. It shows a total of 2,750 properties in Anglesey ward, which is an increase of 12.9% on the 2001 Census figure. This is above the East Staffordshire increase of 10.4%. There are obviously differences in the way the information is produced but it gives an indication of the change in the number of properties during this period.

Electoral Area	Properties	% of Total	Void Properties	Void % of Props
AH - Anglesey	1,474	54%	181	12%
AI - Anglesey	1,276	46%	147	12%
<b>Anglesey</b>	<b>2,750</b>	<b>6%</b>	<b>328</b>	<b>12%</b>
East Staffordshire	49,048	100%	3,385	7%

Source: Register of Electors 2010

### Fire Service Arson Returns 2008-2009

Anglesey	%	Number
Arson incidents	8.1	16
Malicious false Alarms: Attended	16.7	2
Malicious false Alarms: Not attended	8.7	2
Primary fires	42.9	3
Accidental dwelling fires	7.7	3
Deliberate vehicle fires	0.0	0
Deliberate other fires	0.0	0
Deliberate grass fires	0.0	0

Source: Staffordshire Fire Service

## Index of Local Deprivation 2010

The Indices of Deprivation 2010 (ID 2010) is a measure of multiple deprivation at a small area level. The small geographical areas the ID 2010 is based upon are called Lower Layer Super Output Areas (LSOA's) and each account for between 1,000 and 3,000 people. The purpose of basing the Indices upon LSOA's is to pinpoint small areas of deprivation that may otherwise be hidden within larger wards. The ID 2010 consists of an overall measure of deprivation and seven specific aspects – Income, Employment, Health and Disability, Education, Skills and Training, Barriers to Housing and Services, Living Environment and also Crime.

There are 32,482 LSOA's in England and four of these are located within Anglesey ward. Below is a summary of the key points arising from the ID 2010 for Anglesey's LSOA's. If the LSOAs fall within the top 10% or top 20% most deprived they are considered here to be deprived:

- **Overall Deprivation:** There is deprivation in Anglesey - two of Anglesey's four LSOAs are in the **top 20% most deprived**. However these two areas have improved on their 2007 rankings. The other 2 LSOAs have seen a slight deterioration in their rankings since 2007. However, these are less deprived areas and fall within the top 30% most deprived
- **Income Deprivation:** Anglesey experiences income deprivation – two of its LSOAs are in the **top 20% most deprived** and two fall into the top 30% most deprived.
- **Employment Deprivation:** Anglesey is less deprived in terms of employment – one of its LSOAs is in the top 30% most deprived and the other three are in the top 40% most deprived.
- **Health & Disability Deprivation:** Anglesey is less deprived in terms of health and disability – three of its LSOAs are in the top 30% most deprived and the other is in the top 50% most deprived.
- **Education, skills and training deprivation:** Anglesey is deprived in terms of education, skills and training – three of its LSOAs are in the **top 20% most deprived** and the other one is in the top 30% most deprived.
- **Barriers to housing and services deprivation:** None of the LSOAs are deprived in terms of barriers to housing and services deprivation.
- **Crime Deprivation:** Anglesey experiences some crime deprivation – one of its LSOAs falls within the **top 20% most deprived** and one falls within the top 30%.
- **Living environment deprivation:** Anglesey is very deprived in terms of living environment and in fact all four of its LSOAs fall within the **top 5% most deprived** in England.

According to the Indices of Deprivation 2010 Anglesey ward exhibits deprivation. It is particularly deprived in terms of its living environment but there is also deprivation in terms of income, education and crime.

## The Place Survey 2008/09

All local authorities are required to undertake a Place Survey containing a standard set of questions which are designed to capture local people's views, experiences and perceptions. The aim is to use the findings to ensure that improvements for an area reflect local views and preferences. A random sample of 3,000 residents (aged 18 and over) were selected and 1,134 responses were received – a response rate of 38%. The findings set out below were calculated as a proportion of respondents who answered each question and exclude those who did not reply. The tables include a column for ranking within East Staffordshire, with a ranking of 1 being the most satisfied and 21 being the least satisfied.

### The Local Area

Respondents were asked to select five factors they felt were most important in making somewhere a good place to live and they were then asked to select the five that were most in need of improvement in their local area. The results for East Staffordshire as a whole are set out below:

Most important	Most in need of improvement
The level of crime (65%)	Activities for teenagers (47%)
Clean streets (45%)	Level of traffic congestion (37%)
Health services (41%)	Road and pavement repairs (31%)
Affordable decent housing (36%)	The level of crime (26%)
Education provision (28%)	Public transport (25%)

Only one factor (the level of crime) is thought to be both important and in need of improvement which suggest the Council and its partners are performing well in the areas considered to be the most important to the local residents.

Respondents were asked how satisfied or dissatisfied they are with their local area as a place to live. In Anglesey only 57% of respondents were very/fairly satisfied, which is below the Borough average (79%). In fact Anglesey has the lowest ranking within East Staffordshire for this question. The survey found that older respondents were more likely to be satisfied with their local area than younger respondents. Anglesey has a higher proportion of residents under 30 than the Borough average.

Respondents were asked how satisfied or dissatisfied they are with their home as a place to live. In Anglesey 80% of respondents were very/fairly satisfied which is below the Borough average (90%). The survey found that home owners were more likely to be satisfied with their home than those who were renting. Anglesey has a lower proportion of home owners than the Borough average (2001 Census).

Respondents were asked how strongly they feel they belong to their immediate neighbourhood. In Anglesey just 37% of respondents feel they very/fairly strongly belong which is below the Borough average (61%). In fact Anglesey has the lowest ranking within East Staffordshire for this question. The survey found that older respondents (65+) were more likely to feel they belong to their immediate neighbourhood and those who rent privately were less likely to feel so. Anglesey has a lower proportion of residents of pensionable age than the Borough average.

% of respondents who are:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Satisfied with local area	57	79	↓	21	80	↓
Satisfied with home as a place to live	80	90	↓	18 (joint)	N/A	N/A
Feel they belong to immediate neighbourhood	37	61	↓	21	59	↓

## Local Public Services

This section covers perceptions of and satisfaction with local public services. Generally older respondents were more positive than younger respondents. There are a wide range of factors that may affect how people feel about their local authority and its services, such as demographic characteristics, how informed people are, and views on participation and local decision making.

In Anglesey the respondents are more likely to agree that local public services are working to make the area safer. However, they are less likely to agree that local public services are:

- Promoting the interests of local residents
- Treating all types of people fairly.
- Working to make the area cleaner and greener
- Acting on the concerns of local residents.

% of respondents who think local public services are:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Working to make the area safer	68	67	↑	7 (joint)
Working to make the area cleaner and greener	66	71	↓	12 (joint)
Promote the interests of local residents	41	43	↓	10 (joint)
Act on the concerns of local residents	44	47	↓	12 (joint)
Treat all types of people fairly	66	72	↓	16

Respondents were asked how satisfied or dissatisfied they are with a number of different local services. In Anglesey the satisfaction levels are below the Borough average for GPs (family doctors) and local dentists. However, Anglesey has higher satisfaction levels for the Staffordshire Police service, Staffordshire Fire & Rescue and the local hospital. Again older people were more positive than younger people and females were more satisfied than males.

% of respondents who are satisfied with:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Staffordshire Police	67	62	↑	4 (joint)
Staffordshire Fire & Rescue	86	84	↑	7
Your GP	77	85	↓	16 (joint)
Local hospital	83	78	↑	6 (joint)
Local dentist	61	72	↓	18

Respondents were asked if they had used a number of services provided or supported by the Council in the last 12 months. Compared to the Borough average, fewer Anglesey respondents had used:

- Local tips/Household WRC – Anglesey has the lowest ranking in the Borough
- Sport
- Libraries
- Museums
- Theatres – Anglesey has the lowest ranking in the Borough

% of respondents who have used the service in last 12 mths:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Local tips/Household WRC	70	90	↓	21
Local Transport Information	68	57	↑	2
Bus	57	57	→	10 (joint)
Sport	40	57	↓	20
Libraries	54	59	↓	13
Museums	14	22	↓	16 (joint)
Theatres	17	30	↓	21
Parks	92	87	↑	5 (joint)

Respondents were asked to state the extent to which they agree or disagree that the County Council and Borough Council provide value for money. Anglesey respondents were less likely to agree with the statements than the Borough average.

% of respondents who think:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council provides value for money	18	31	↓	19
Staffordshire County Council provides value for money	19	30	↓	19 (joint)

Respondents were asked how satisfied they are with the way the County Council and Borough Council runs things. Anglesey respondents were less likely to be satisfied with how East Staffordshire Borough Council and Staffordshire County Council run things than the Borough average.

% of respondents who are satisfied with the way:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council runs things	30	43	↓	19 (joint)
Staffordshire County Council runs things	35	41	↓	15 (joint)

### Local Decision Making

The Government aims to build communities where individuals are empowered to make a difference both to their own lives and to the area in which they live. A key indicator of this is the extent to which people feel able to influence decisions affecting their local area. Respondents were asked if they feel they can influence decisions in their locality. Anglesey respondents are less likely to feel they can than the Borough average.

% of respondents who feel:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
They can influence decisions in their locality	13	26	↓	20	29	↓

### Respect and Consideration

Compared to the Borough average Anglesey respondents are less likely to score positively in the following areas:

- Parents take responsibility for the behaviour of their children – the rationale behind this question is to focus local authorities and their partners on supporting effective parenting and to take action to ensure parents are held responsible where their children behave in an unacceptable manner. Anglesey has the lowest ranking for this measure.
- People from different backgrounds get on well together – this measure is widely recognised as a key indicator of a cohesive society. The Local Government White Paper sets out the aim of creating strong and cohesive communities.
- People do not treat each other with respect and consideration – the rationale behind this question is to encourage local authorities and their partners to take action to promote strong communities with shared values where community members treat each other with respect and consideration.
- They have been treated with respect and consideration by local public services – local authorities are encouraged to consider this indicator in terms of narrowing gaps between perceptions for different group(s).

% of respondents who feel:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Parents take responsibility for the behaviour of their children	7	30	↓	21	30	↓
People from different backgrounds get on well together	55	71	↓	20	76	↓
People do not treat each other with respect & consideration	51	29	↓	20	31	↓
They have been treated with respect & consideration by local public services	57	71	↓	20 (joint)	72	↓

### Community Safety

Respondents were asked how safe they feel when outside in their local area during the day and after dark. Across the Borough those who were dissatisfied with their local area as a place to live were more likely to feel unsafe.

Anglesey respondents were less likely to feel safe after dark and during the day than the Borough average.

% of respondents who feel:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Safe after dark	26	54	↓	20
Safe during the day	85	90	↓	17 (joint)

### Anti-social Behaviour

Respondents were asked to think about their local area and to say whether each of a number of different types of antisocial behaviour was a very/fairly big problem. Local authorities are the key partner in tackling ASB and have statutory duties to enforce ASB legislation. Anglesey scores negatively compared to the Borough average for all the aspects of anti-social behaviour listed in the questionnaire. In fact Anglesey has the lowest ranking for noisy neighbours or loud parties.

% of respondents who feel the following ASB is a problem:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Noisy neighbours or loud parties	35	13	↓	21	N/A	N/A
Teenagers hanging around the streets	56	41	↓	15	N/A	N/A
Rubbish or litter lying around	46	27	↓	20	N/A	N/A
Vandalism/graffiti to property/vehicles	43	26	↓	18	N/A	N/A
People using or dealing drugs	40	28	↓	15	31	↓
People being drunk or rowdy in public	42	24	↓	20	29	↓
Abandoned or burnt out cars	7	5	↓	17	N/A	N/A

### Confidence in Police

Respondents were asked whether they agree or disagree that the police and other local public services seek people's views about dealing with ASB and crime in their local area. This measure is being employed as a proxy to measure confidence in local agencies to tackle the community safety issues that matter to local people. Anglesey respondents were less likely to agree with this statement (17%) than the Borough average (26%).

% of respondents who agree the police & other local services are:	Anglesey	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Seeking people's views about dealing with ASB & crime	17	26	↓	18	25	↓
Successfully dealing with ASB & crime	10	26	↓	21	26	↓

Respondents were then asked whether they agree or disagree that the police and other local public services are successfully dealing with ASB and crime in their local area. Anglesey respondents were less likely to agree with this statement (10%) than the Borough average (26%) and in fact Anglesey has the lowest ranking for this measure.

### Additional Questions

East Staffordshire Borough Council added additional questions to the Place Survey about the local bus services. Older respondents were more likely to be satisfied with each element than younger respondents as were non disabled respondents compared with disabled respondents.

Anglesey scores below the Borough average for satisfaction in terms of all aspects of the local bus service with the exception of the state of the bus stops.

<b>% of respondents who are satisfied with:</b>	<b>Anglesey</b>	<b>East Staffordshire</b>	<b>Comparison with East Staffordshire</b>	<b>Rank within East Staffordshire</b>
The frequency of buses	50	61	↓	15
The number of bus stops	71	76	↓	14
The state of the bus stops	76	71	↑	9
Whether buses arrive on time	34	59	↓	19
How easy buses are to get on & off	52	73	↓	19
The bus service overall	51	60	↓	14 (joint)
