

Ward - Burton

Councillor

Michael Rodgers – Liberal Democrat

Area

Burton covers 548 hectares. This represents 1.4% of East Staffordshire.

2001 & 2011 Census

The Census which takes place every ten years provides the most authoritative statistics on our local population. The 2011 Census work has started but the first results from this will not be available until September 2012, and this will initially be at a local authority level. Further results will be released by the Office for National Statistics throughout 2013/14. Therefore, many of the statistics throughout this report refer to the 2001 Census.

Summary statistics from the 2001 Census of Population

Actual	Burton	East Staffordshire	England & Wales
Population	2,127	103,770	52,041,916
Total permanent households	1,084	42,717	21,660,475
Percentage	%	%	%
Male	48.8	48.7	48.7
Female	51.2	51.3	51.3
Ethnic minority	12.7	6.1	8.7
Religion – Christian	64.0	77.4	71.8
No Religion	19.3	11.5	14.8
Children aged 0-15	18.7	21.2	20.2
People aged 16-74	73.2	71.7	72.2
People aged 75+ years	8.1	7.1	7.6
Employed (of those aged 16-74)	58.3	63.1	60.6
Looking after home/family (of those aged 16-74)	7.1	6.6	6.5
Retired (of those aged 16-74)	12.3	14.5	13.6
Occupation – Manager or Senior Official	13.9	15.1	15.1
Occupation – Process, Plant or Machine Operative	15.0	12.1	8.5
Households with no car	46.8	23.2	26.8
Households with 2 or more cars	11.8	32.6	29.4
Travel to Work – by Bike or On Foot	33.4	15.1	12.8
Travel to Work – Drive a Car or Van	42.0	61.8	55.2
Residents with limiting long term illness	22.9	17.1	18.2
Residents who described their health as 'not good'	10.4	7.9	9.2
Residents who provide unpaid care	8.0	10.0	10.0
Owner occupied households	49.0	75.8	68.9
Rented from a Council or RSL	24.9	14.1	19.2
No Central Heating	23.0	15.3	8.5
Pensioner living alone	18.5	14.0	14.4
Single person households	48.4	27.7	30.0
Lone parent households	6.6	5.7	6.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census data show that when compared to East Staffordshire and England & Wales, Burton has:

- A significantly higher Black & Minority Ethnic population
- A lower proportion of Christians and a higher proportion with no religion
- A lower proportion of children
- A higher proportion of residents over the age of 75 years
- A lower proportion of residents who are employed
- A higher proportion of residents who look after the family/home
- A lower proportion of residents whose occupation is manager or senior official
- A higher proportion of residents whose occupation is process, plant or machine operative
- A far higher proportion of households with no car and a lower proportion with two or more cars
- A higher proportion of residents who travel to work by bike/foot and a lower proportion who drive
- A higher proportion of residents with a limiting long term illness and 'not good' health
- A lower proportion of residents who provide unpaid care
- A lower proportion of owner occupied households and a higher proportion who rent
- A far higher proportion of households without central heating
- A higher proportion of single pensioner, single person and also lone parent households

Population

The most authoritative population estimates are produced every ten years based on the Census of Population. The 2001 Census gives the population of Burton as 2,127.

Age of Resident Population in 2001 - %

	Burton	East Staffordshire	England & Wales
Under 16	18.7	21.2	20.2
16 to 19	5.6	4.8	4.9
20 to 29	18.4	10.6	12.6
30 to 59	36.4	42.6	41.5
60 to 74	12.6	13.7	13.3
75 and over	8.1	7.1	7.6
Average Age	37.4	38.6	38.6

Source: 2001 Census Area Statistics

The above figures are updated to produce mid year population estimates in the inter-censal period. The latest figures are for 2009 and these estimate the population of Burton to be 2,906, which is a rise of more than a third (36.6%) on the 2001 Census figure.

Mid 2009 Population Estimates by Broad Age Group

	All Ages	Children 0 - 15	Working Age 16-64M/59F	Older People 65M/60F & over
Burton	2,906	18.1	66.6	15.3
East Staffordshire	108,800	19.6	60.0	20.4
Staffordshire	828,700	17.9	60.4	21.7
West Midlands	5,431,100	19.4	60.6	20.0
England	51,809,700	18.7	61.9	19.3

Ethnic Group – Resident Population in 2001 - %

	Burton	East Staffs	England & Wales
White	87.3	93.9	91.3
Mixed	2.0	0.9	1.3
Asian or Asian British	8.4	4.3	4.4
Black or Black British	1.7	0.6	2.2
Chinese or Other Ethnic Group	0.6	0.3	0.9
Black & Minority Ethnic	12.7	6.1	8.7

Source: 2001 Census Area Statistics

Religion – Resident Population - 2001

In the 2001 Census 64.0% of Burton residents stated their religion to be Christian. This is below the East Staffordshire average of 77.4% and the England & Wales average of 71.8%. 19.3% responded with 'No Religion'. This is above the East Staffordshire average of 11.5% and the England & Wales average of 14.8%. Christianity is not the only major religion in Burton. 7.7% of residents are Muslim. This is above the Borough average, as Islam is the religion of 4.0% of all East Staffordshire residents. However, it is in line with the high Black & Minority Ethnic (BME) population in Burton.

Key points from the latest population data show that when compared to East Staffordshire and England, Burton has:

- A lower percentage of children
- A significantly higher percentage of working age residents
- A significantly lower percentage of older people
- A lower average age (2001)
- A significantly higher Black & Minority Ethnic population
- A lower percentage of Christians and a higher percentage of Muslims
- A higher percentage with no religion

Economic Activity

Economic Activity – Resident Population Aged 16 to 74 - %

	Burton	East Staffs	England & Wales
Employed	58.3	63.1	60.6
Unemployed	5.9	3.1	3.4
Economically active full-time students	1.9	2.1	2.6
Retired	12.3	14.5	13.6
Economically inactive students	3.8	3.1	4.7
Looking after home/family	7.1	6.6	6.5
Permanently sick or disabled	6.6	4.3	5.5
Other economically inactive	4.0	3.2	3.1

Source: 2001 Census Area Statistics

66.1% of all Burton residents aged 16 to 74 are economically active (full and part-time employed, self-employed, unemployed or economically active full-time student). This is below the East Staffordshire average of 68.3% but above the England & Wales average of 66.5%.

Key points from the 2001 Census economic activity data show that when compared to East Staffordshire and England & Wales, Burton has:

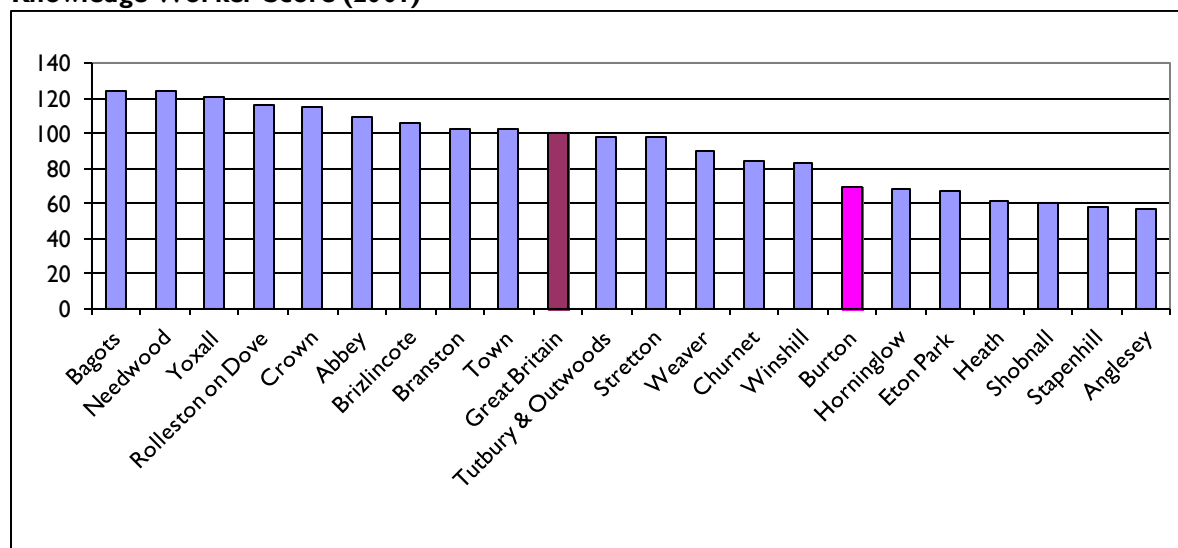

- A lower employment rate
- A lower proportion of economically active full-time students
- A higher proportion of economically inactive students than the Borough average
- A lower proportion of retired residents
- A higher proportion of those who are looking after the home/family
- A higher proportion of those who are permanently sick or disabled
- A higher economically inactive rate

Occupation Groups – Resident Population Aged 16-74 - %

	Burton	East Staffs	England & Wales
Managers & Senior Officials	13.9	15.1	15.1
Professional	4.2	9.4	11.2
Associate Professional & Technical	9.9	11.0	13.8
Admin & Secretarial	9.6	11.3	13.3
Skilled Trades	11.7	12.9	11.6
Personal Service	7.0	6.5	6.9
Sales & Customer Service	8.2	6.8	7.7
Process, Plant & Machine Operatives	15.0	12.1	8.5
Elementary e.g. labourers, porters	20.6	14.7	11.9

Knowledge Worker Score (2001)

Source: Local Knowledge; Census 2001

The Knowledge Worker Score is an index showing the proportion of working age residents that are employed in knowledge occupations. These occupations are based on the following SOC groups:

- 1) Managers and Senior Officials
- 2) Professional Occupations
- 3) Associate Professional and Technical Occupations

The national average is 100 – if the figure is below 100 for a ward then a lower proportion of its residents work in knowledge occupations.

Key points from the 2001 Census occupation group data show that when compared to East Staffordshire and England & Wales, Burton has:

- A lower proportion of managers & senior officials, professionals, associate professional and technical and administration and secretarial occupations.
- A higher proportion of personal service, sales and customer service, process, plant and machine operatives and elementary occupations.
- A lower proportion of knowledge workers than the Great Britain average.

Industrial Groups – Resident Population Aged 16-74 in Employment - %

	Burton	East Staffordshire	England & Wales
Agriculture; Hunting; Forestry & Fishing	0.6	2.1	1.5
Mining & Quarrying	0.3	0.3	0.3
Manufacturing	21.3	22.7	15.0
Electricity; Gas & Water Supply	0.3	0.8	0.7
Construction	5.0	7.0	6.8
Wholesale & Retail Trade; Repair of Motor Vehicles	22.3	17.3	16.8
Hotels & Restaurants	8.5	4.9	4.8
Transport; Storage & Communication	7.1	6.5	7.0
Financial Intermediation	1.1	1.9	4.7
Real estate; Renting & Business Activities	11.4	10.4	13.0
Public Administration & Defence; Social Security	3.4	3.5	5.7
Education	4.4	7.5	7.8
Health & Social Work	8.1	10.5	10.8
Other	6.3	4.5	5.2

Source: 2001 Census Area Statistics

Key points from the 2001 Census Industry data show that when compared to East Staffordshire and England & Wales, Burton has:

- A higher proportion in wholesale & retail trade, repair of motor vehicles, hotels & restaurants, transport, storage & communications and other
- A lower proportion of residents employed in agriculture, hunting, forestry & fishing, construction, financial intermediation, public administration and defence, social security, education and health & social work.

Travel to Work Methods – All People Aged 16-74 in Employment - %

	Burton	East Staffs	England & Wales
Work from home	9.5	9.6	9.2
Underground; metro; light rail; Tram	0.0	0.0	3.0
Train	0.4	0.8	4.1
Bus; Mini Bus or coach	3.9	3.7	7.4
Motorcycle; Scooter; moped	1.4	1.0	1.1
Driving a car or van	42.0	61.8	55.2
Passenger in a car or van	7.1	7.1	6.3
Taxi or minicab	1.7	0.6	0.5
Bicycle	7.5	4.1	2.8
On foot	25.9	11.0	10.0
Other	0.6	0.4	0.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census Travel to Work data show that when compared to East Staffordshire and England & Wales, Burton has:

- A slightly lower proportion of residents who work from home than the Borough average
- A higher proportion of residents who travel by bus than the Borough average
- A lower proportion of residents who drive to work
- A similar proportion to the Borough average of residents who are passengers in a car or van
- A higher proportion of residents who use a bicycle
- A significantly higher proportion who travel on foot.

Number of Employees & Proportion of Full-time & Part-time Employment – 2009

	Number of Employees	% Full time	% Part time
Burton	15,300	72.4	27.6
East Staffordshire	53,000	70.3	29.7
Staffordshire	309,300	68.0	32.0
England & Wales	23,823,600	67.9	32.1

Source: Business Register and Employment Survey 2009 (Figures are rounded to nearest 100)

These figures exclude farm agriculture

Key points from the 2009 Employment Survey data show that when compared to the East Staffordshire average, Burton has:

- A higher proportion of full-time employees
- A lower proportion of part-time employees

Unemployment

April 2011	Burton	East Staffordshire	Staffordshire	England
Total unemployed - %	5.8	2.9	2.8	3.7
Of which:				
% aged under 25	32.7	31.1	31.7	28.2
% unemployed for over 12 months	9.7	8.2	11.4	14.0

Source: Nomis – Claimant Count

Key points from the unemployment data show that when compared to Staffordshire and East Staffordshire, Burton has:

- A significantly higher unemployment rate – in fact the second highest in the Borough (along with Anglesey)
- A slightly higher youth unemployment proportion
- A higher long term unemployment proportion than the Borough average

Education

Key Stage 2 Test Results in 2010 - %

	Burton	East Staffs	England & Wales
Had no qualifications	36.4	31.8	29.1
Qualified to degree level or higher	9.2	16.0	19.8

Source: 2001 Census Area Statistics

Key points from the schools data show that when compared to Staffordshire and England averages, schools in and around Burton ward have:

- No results for Key Stage 2 (boycott school)
- A lower level of overall and persistent absence at the senior school
- A lower percentage of eligible pupils achieving 5 or more GCSEs at grades A-C
- A lower percentage of eligible pupils achieving 5 or more GCSEs at grades A-C that include English & Maths
- A higher percentage of school leavers continuing with structured learning in 2010
- A lower percentage of school leavers not yet settled in any full-time positive activity in 2010 compared to the Borough average
- A higher average point score per student and per exam entry at GCE level (post 16)
- A higher percentage of pupils receiving free school meals at the secondary school and one of the primary schools but a lower percentage at Holy Trinity primary.

Key points from the Census show that Burton has:

- A higher proportion of residents with no qualifications
- A lower proportion of residents qualified to degree level or above

Key points from the 2010 School Census show that when compared to East Staffordshire averages, pupils in Burton are:

- More likely to be of a BME origin
- More likely to have free school meals
- More likely to be subject to School Action but less likely to be subject to School Action Plus
- More likely to have a SEN statement
- More likely to travel to school by car
- More likely to travel to school by bus
- Less likely to walk to school
- Less likely to be termed gifted or talented.

Health

Key Health Comparators - %

2001 Census Area Statistics	Burton	East Staffs	England & Wales
Residents with limiting long-term illness (2001)	22.9	17.1	18.2
Residents who described their health as 'Good'	64.1	69.4	68.6
Residents who described their health as 'Fairly Good'	25.5	22.6	22.2
Residents who described their health as 'Not Good'	10.4	7.9	9.2
Residents who provide unpaid care	8.0	10.0	10.0

Health Lifestyle Behaviours – 2000/2002

	Burton	East Staffordshire	England
Proportion of Residents who Binge Drink	21.8	16.2	16.5
Proportion of Residents who are Obese	24.5	23.8	20.5
Proportion of Residents who Smoke	36.0	24.6	24.2
Proportion of Adult Residents who eat 5+ Fruit & Vegetable Portions per day	20.2	23.6	22.2
Proportion of Child Residents who eat 3+ Fruit & Vegetable Portions per day	31.2	32.8	35.1

The data for this indicator is part of a data modelling exercise carried out based on the Health Survey of England. Results are based on 3 year sample data of 16,000 adults and 4,000 children each year. The figures should not be used as actual figures but rather should be viewed as expected levels based on the socio-demographic characteristics of the area.

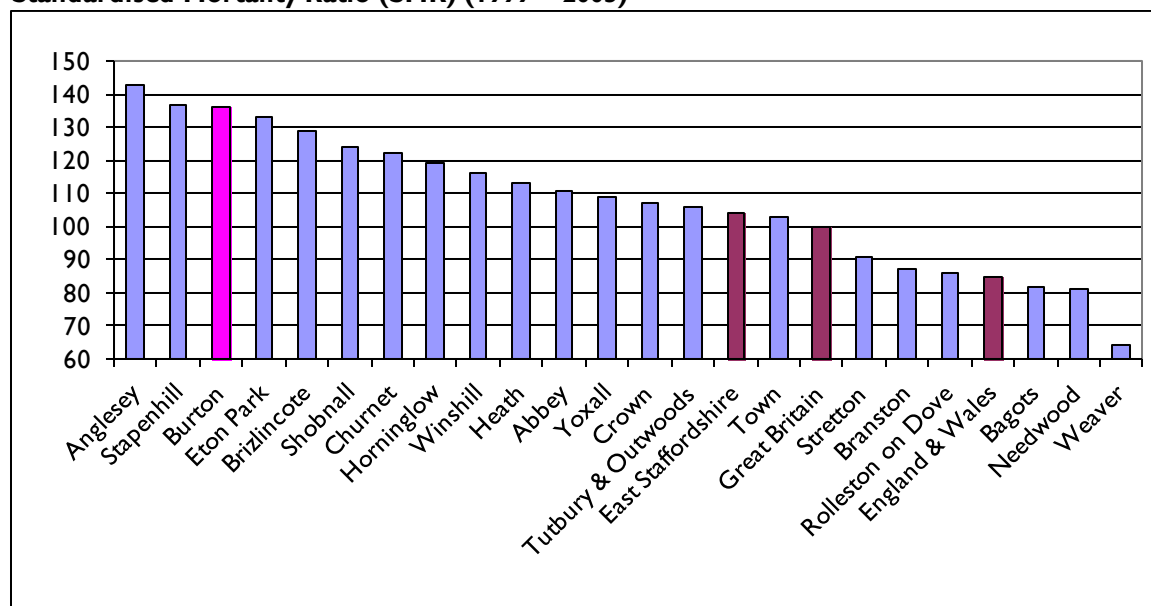

Source: Local Knowledge: Synthetic Health Indicators for Health Lifestyle Behaviours

Average Life Expectancy (1999 – 2003)

Source: Local Knowledge; Life Expectancy at Birth

Standardised Mortality Ratio (SMR) (1999 – 2003)

Source: Local Knowledge; Standardised Mortality Ratios

The Standardised Mortality Ratio compares overall mortality in a locality with that for the UK as a whole. The ratio expresses the number of deaths in a locality as a percentage of the hypothetical number that would have occurred if the local population had experienced the sex/age specific rates of the UK in that year. The lower the figure, the lower the relative mortality.

In the table below the Health Intelligence and Clinical Evidence Team, Staffordshire Public Health have summarised some of the key health indicators. Those shaded red are statistically worse than the England average. The following measurements are statistically worse for those living in Burton:

- Percentage of births with a low birthweight (under 2,500 grams)
- Percentage of population with a self reported limiting long term illness (2001)
- Smoking prevalence - adults (Mosaic estimates)
- Percentage of adult population eating five or more portions of fruit or vegetables a day (Mosaic estimates)
- Percentage of adult population doing no exercise in the last month (Mosaic estimates).

Summary of Key Health Indicators

	Burton	East Staffs
Percentage of births with a low birthweight (under 2,500 grams) (2004/08)	11.3%	9.1%
Life expectancy at birth for males (years) (2004/08)	76.8	76.9
Life expectancy at birth for females (years) (2004/08)	79.5	81.1
All-age all cause mortality rate per 100,000 population (2004/08)	646	626
Premature mortality (rate per 100,000 population aged under 75) (2004/08)	376	306
Premature mortality from circulatory diseases (rate per 100,000 people aged under 75) (2004/08)	88	80
Premature mortality from cancers (rate per 100,000 people aged under 75) (2004/08)	102	113
Mental Illness Needs Index (MINI) (rate per 100,000 population) (2000)	512	350
Percentage of population with a self reported limiting long term illness (2001)	22%	17%
Smoking prevalence - adults (Mosaic estimates) (2009)	34%	25%
Obesity prevalence - adults (Mosaic estimates) (2009)	16%	17%
Percentage of adult population eating five or more portions of fruit or vegetables a day (Mosaic estimates) (2009)	22%	24%
Percentage of adult population doing no exercise in the last month (Mosaic estimates) (2009)	53%	51%

Source: Health Intelligence and Clinical Evidence Team, Staffordshire Public Health

Key points from the 2001 Census show that when compared to the East Staffordshire and England & Wales averages Burton has:

- A higher proportion of residents suffering with a limiting long-term illness
- A higher proportion of residents who described their health as 'Not Good'
- A lower proportion of residents who provide unpaid care

Key points from the Synthetic Health Indicators for Health Lifestyle Behaviours Survey show that when compared to the national averages Burton is thought to have (based on a sample survey):

- A higher proportion of residents who binge drink, are obese and who smoke
- A lower proportion of adults that eat 5 or more portions of fruit and vegetables a day and a lower proportion of children who eat 3 or more portions per day

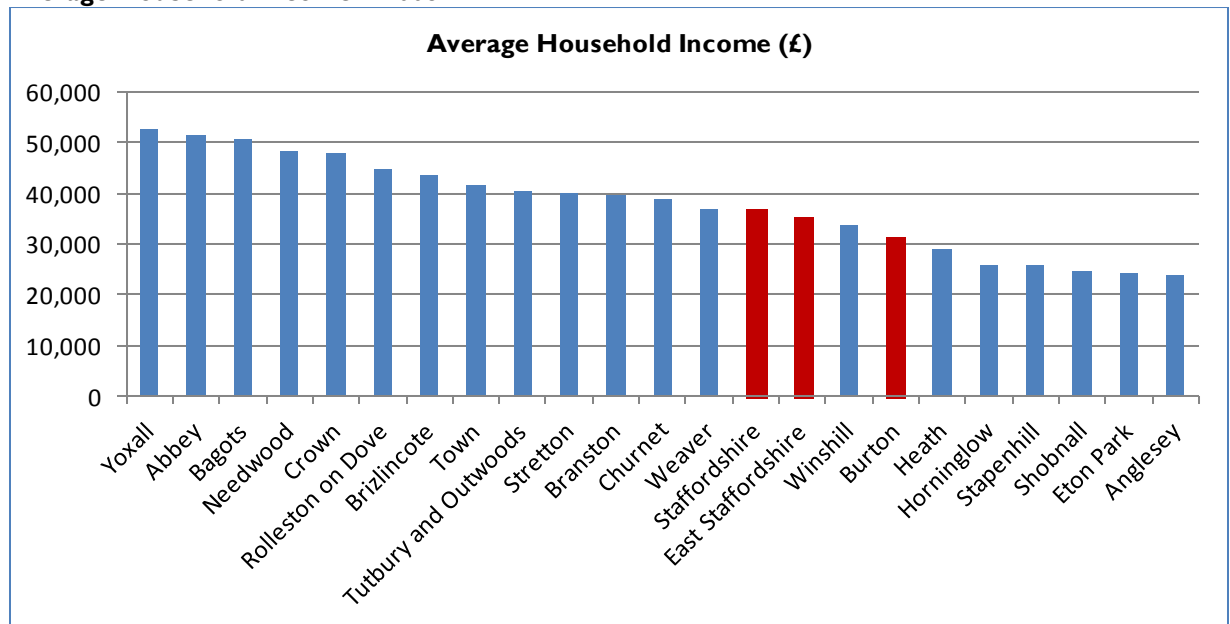

Key points from the 1999 – 2003 life expectancy and standardised mortality ratio data show that when compared to the national average Burton has:

- A lower than average life expectancy
- A higher than average SMR

Income

The average household income across East Staffordshire in 2008 was £35,500, which is slightly below the Staffordshire average of £36,800. However, across Burton ward the average household income in 2008 was £31,500, which is below the Borough and County figures.

Average Household Income – 2008

DWP Benefit Claimants – Working Age Clients – May 2010

Proportion of resident population aged 16-64 claiming benefits			
%	Burton	East Staffordshire	Great Britain
Total claimants	24.0	13.3	14.7
Job seekers	6.5	3	3.5
ESA and incapacity benefits	11.4	6	6.7
Lone parents	2.1	1.5	1.7
Carers	0.8	1.1	1.1
Others on income related benefits	2.3	0.5	0.5
Disabled	0.8	1	1
Bereaved	0.3	0.3	0.2

Source: DWP Benefit Data – Nomis

Key points from the income data show that when compared to East Staffordshire, Burton ward has:

- An average household income of £31,500 which is below the East Staffordshire average (£35,500)
- A significantly higher proportion of total benefit claimants – in fact, it's the highest in the Borough
- A higher proportion claiming each individual benefit with the exception of carers allowance and disabled allowance.

Housing

At the time of the 2001 Census there were 1,084 household spaces with residents in Burton. There was also an additional 105 household spaces without residents, making a total of 1,189 household spaces in Burton in April 2001.

Households – 2001 Census Findings - %

	Burton	East Staffs	England & Wales
One person households	48.4	27.7	30.0
Pensioner living alone	18.5	14.0	14.4
Other all pensioner households	5.9	9.6	9.4
Contained dependent children	22.2	31.0	29.5
Lone parent households with dependent children	6.6	5.7	6.5
Owner occupied	49.0	75.8	68.9
Rented from Council	6.3	8.1	13.2
Rented from Housing Association or RSL	18.6	6.0	6.0
Private rented or lived rent free	26.1	10.2	11.9
Without central heating	23.0	15.3	8.5
Without sole use of bath, shower or toilet	0.0	0.3	0.5
Have no car or van	46.8	23.2	26.8
Have 2 or more cars or vans	11.8	32.6	29.4
Average household size (number)	1.9	2.4	2.4
Average number of rooms per household	4.6	5.7	5.3

Source: 2001 Census Area Statistics

Key points from the housing data show that when compared to East Staffordshire, households in Burton are:

- Significantly more likely to be single person households
- More likely to be single pensioner but less likely to be all pensioner households
- Less likely to be households containing dependent children
- More likely to be lone parent households
- Significantly less likely to be owner occupied
- Less likely to be rented from the Council but far more likely to be rented from an RSL
- Significantly more likely to be private rented or living rent free
- Significantly more likely to be without central heating but less likely to be without sole use of a bath, shower or toilet
- Significantly more likely to have no car or van and less likely to have 2 or more cars or vans
- More likely to be smaller in size in terms of the number of people
- More likely to be smaller in size in terms of the number of rooms

Households – 2001 Census – Accommodation Type - %

	Burton	East Staffs	England & Wales
Percentage living in a detached house	5.0	31.7	22.8
Percentage living in a semi-detached house	11.2	32.8	31.6
Percentage living in a terraced house	49.5	25.7	26.0
Percentage living in a flat or maisonette	29.1	9.4	19.2
Percentage living in a caravan or mobile home	5.3	0.4	0.4

Source: 2001 Census Area Statistics

Key points from the 2001 Census show that when compared to East Staffordshire, households in Burton are:

- Significantly less likely to be in a detached house
- Significantly less likely to be in a semi-detached house
- Significantly more likely to be in a terraced house
- Significantly more likely to be in a flat or maisonette
- Significantly more likely to be in a caravan or mobile home

Private Sector House Condition Survey 2008

The 2008 House Condition Survey was distributed to a random sample of 1,250 private sector households and entailed full internal and external surveys plus supporting interviews with the occupying households. At the time of the survey there were 41,968 private dwellings, 38,849 of which were occupied (92.6%) and 3,119 (7.4%) were vacant. Of these 14,048 households (36.2%) are elderly and 12,464 households are economically vulnerable (32.1%). There is a mixed age profile with 16,596 dwellings (39.5%) constructed pre-1945 and 11,434 dwellings (27.2%) constructed pre-1919.

Housing conditions in the Borough are better than the national average for private housing; however, housing condition problems remain significant:

- 13,445 dwellings (32.0%) are non-decent
- 8,137 dwellings (19.4%) exhibit Category I hazards

	Category I Hazards	Non-decent Homes	Decent homes Energy Failure Rates	Fuel Poverty
Burton & Horninglow	30.3	50.3	25.9	39.2
Inner Burton (Anglesey, Eton Park and Shobnall)	29.9	39.9	18.8	41.7
Rural North (Abbey, Churnet & Weaver)	23.9	31.3	22.5	33.6
Rural South (Bagots, Crown, Needwood, Rolleston on Dove, Tutbury & Outwoods, Yoxall)	21.0	39.5	26.9	44.6
Winshill & Stapenhill	14.5	23.5	12.3	32.9
Uttoxeter (Heath & Town)	12.0	22.8	9.6	27.2
Outer Burton (Branston, Brizlincote and Stretton)	8.4	18.5	11.1	27.2
Borough Average	19.4	32.0	18.1	35.5

Category I hazards

These include falls on steps/stairs, excess cold, dampness/mould and crowding/space. Category I hazards are not evenly distributed across the Borough but are higher across the Inner Burton and Burton/Horninglow areas

Non-decent homes

The most common reasons for failing the Decent Homes Standard relate to energy efficiency and Category I hazards. Patterns of non-decent housing are similar to those for Category I hazards with higher rates for the Inner Burton and Burton/Horninglow areas. Rates of non decency are also higher in the Rural South. Poor housing conditions within the Borough are associated with households in social and economic disadvantage. A significant proportion of households living in non-decent homes are made up of the elderly (36.2%) and the economically vulnerable (48.8%).

Home energy efficiency

The home energy efficiency rates in private housing in the Borough are above the national average. East Staffordshire has an average SAP Rating of 56 compared to an average of 47 for all private housing in England. 7,585 dwellings fail the Decent Homes energy requirements representing 18.1% of all private dwellings.

Fuel Poverty

13,805 households in the Borough (35.5%) are in Fuel Poverty. The highest rates of fuel poverty are associated with Inner Burton and the Rural South. Rates of fuel poverty are also higher for households in pre-war housing, terraced housing and converted flats. Households most affected include young single households, single parent families and the elderly.

Key points from the 2008 House Condition Survey show that when compared to the East Staffordshire average, private housing stock in the Burton & Horninglow area is:

- More likely to exhibit Category I Hazards
- More likely to be non-decent
- More likely to fail the Decent Homes Energy Rating
- More likely to be in Fuel Poverty

Register of Electors 2010

The table below shows a count of the number of properties at the time of the 2010 Register of Electors. It shows a total of 1,815 properties in Burton ward, which is an increase of 52.6% on the 2001 Census figure. This is significantly above the East Staffordshire increase of 10.4%. There are obviously differences in the way the information is produced but it gives an indication of the change in the number of properties during this period.

Electoral Area	Properties	% of Total	Void Properties	Void % of Props
AQ - Burton	702	39%	140	20%
AR - Burton	652	36%	56	9%
AS - Burton	461	25%	105	23%
Burton	1,815	4%	301	17%
East Staffordshire	49,048	100%	3,385	7%

Index of Local Deprivation 2010

The Indices of Deprivation 2010 (ID 2010) is a measure of multiple deprivation at a small area level. The small geographical areas the ID 2010 is based upon are called Lower Layer Super Output Areas (LSOA's) and each account for between 1,000 and 3,000 people. The purpose of basing the Indices upon LSOA's is to pinpoint small areas of deprivation that may otherwise be hidden within larger wards. The ID 2010 consists of an overall measure of deprivation and seven specific aspects – Income, Employment, Health and Disability, Education, Skills and Training, Barriers to Housing and Services, Living Environment and also Crime.

There are 32,482 LSOA's in England and one of these is located within Burton ward. Below is a summary of the key points arising from the ID 2010 for Burton's LSOA. If the LSOA falls within the top 10% or top 20% most deprived it is considered here to be deprived:

- **Overall Deprivation:** Burton's one LSOA has seen an improvement in its ranking since 2007. However, it is still within the **top 20% most deprived**.
- **Income Deprivation:** Burton's LSOA falls within the top 30% most deprived in terms of income deprivation.
- **Employment Deprivation:** Burton's LSOA falls within the **top 20% most deprived** in terms of employment deprivation.
- **Health & Disability Deprivation:** Burton's LSOA falls within the top 30% most deprived in terms of health and disability deprivation.
- **Education, skills and training deprivation** Burton's LSOA falls within the top 30% most deprived in terms of education, skills and training deprivation.
- **Barriers to housing and services deprivation:** Burton is not deprived in terms of barriers to housing and services deprivation.
- **Crime Deprivation:** Burton's LSOA falls within the **top 20% most deprived** in terms of crime deprivation.
- **Living environment deprivation:** Burton is very deprived in terms of living environment and in fact its LSOA falls within the **top 5% most deprived** LSOAs in England.

According to the Indices of Deprivation 2010 Burton ward exhibits deprivation. It is particularly deprived in terms of its living environment but there is also deprivation in terms employment and crime.

Place Survey 2008 – 2009

All local authorities are required to undertake a Place Survey containing a standard set of questions which are designed to capture local people's views, experiences and perceptions. The aim is to use the findings to ensure that improvements for an area reflect local views and preferences. A random sample of 3,000 residents (aged 18 and over) were selected and 1,134 responses were received – a response rate of 38%. The findings set out below were calculated as a proportion of respondents who answered each question and exclude those who did not reply. The tables include a column for ranking within East Staffordshire, with a ranking of 1 being the most positive and 21 being the most negative.

The Local Area

Respondents were asked to select five factors they felt were most important in making somewhere a good place to live and they were then asked to select the five that were most in need of improvement in their local area. The results for East Staffordshire as a whole are set out below:

Most important	Most in need of improvement
The level of crime (65%)	Activities for teenagers (47%)
Clean streets (45%)	Level of traffic congestion (37%)
Health services (41%)	Road and pavement repairs (31%)
Affordable decent housing (36%)	The level of crime (26%)
Education provision (28%)	Public transport (25%)

Only one factor (the level of crime) is thought to be both important and in need of improvement which suggest the Council and its partners are performing well in the areas considered to be the most important to the local residents.

Respondents were asked how satisfied or dissatisfied they are with their local area as a place to live. In Burton 85% of respondents were very/fairly satisfied, which is above the Borough average (79%). The survey found that older respondents were more likely to be satisfied with their local area than younger respondents. However, this does not fit with the age structure of the ward. Burton has a lower proportion of residents of pensionable age than the Borough average.

Respondents were asked how satisfied or dissatisfied they are with their home as a place to live. In Burton 80% of respondents were very/fairly satisfied which is below the Borough average (90%). The survey found that home owners were more likely to be satisfied with their home than those who were renting. Burton has a lower proportion of home owners than the Borough average (2001 Census).

Respondents were asked how strongly they feel they belong to their immediate neighbourhood. In Burton 39% of respondents feel they very/fairly strongly belong which is below the Borough average (61%). The survey found that older respondents (65+) were more likely to feel they belong to their immediate neighbourhood and those who rent privately were less likely to feel so.

% of respondents who are:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Satisfied with local area	85	79	↑	10	80	↑
Satisfied with home as a place to live	80	90	↓	18 (joint)	N/A	N/A
Feel they belong to immediate neighbourhood	39	61	↓	20	59	↓

Local Public Services

This section covers perceptions of and satisfaction with local public services. Generally older respondents were more positive than younger respondents. There are a wide range of factors that may affect how people feel about their local authority and its services, such as demographic characteristics, how informed people are, and views on participation and local decision making.

In Burton the respondents are less likely to agree that local public services are:

- Working to make the area safer
- Promoting the interests of local residents
- Acting on the concerns of local residents
- Treating all types of people fairly – Burton has the lowest ranking for this (21)

However, they are more likely to agree that local public services are:

- Working to make the area cleaner and greener – Burton has the highest ranking for this measure.

% of respondents who think local public services are:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Working to make the area safer	63	67	↓	12 (joint)
Working to make the area cleaner and greener	87	71	↑	1
Promote the interests of local residents	23	43	↓	20
Act on the concerns of local residents	42	47	↓	14 (joint)
Treat all types of people fairly	54	72	↓	21

Respondents were asked how satisfied or dissatisfied they are with a number of different local services. In Burton the satisfaction levels are below the Borough average for all services. In fact, Burton has the lowest satisfaction levels of all the wards for local dentists. Again older people were more positive than younger people and females were more satisfied than males.

% of respondents who are satisfied with:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Staffordshire Police	59	62	↓	16 (joint)
Staffordshire Fire & Rescue	83	84	↓	11 (joint)
Your GP	75	85	↓	18 (joint)
Local hospital	68	78	↓	18
Local dentist	52	72	↓	21

Respondents were asked if they had used a number of services provided or supported by the Council in the last 12 months. Compared to the Borough average, more Burton respondents had used all of the services with the exception of museums and theatres. In fact Burton has the highest ranking for the use of sport facilities and parks.

% of respondents who have used the service in last 12 mths:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Local tips/Household WRC	97	90	↑	2 (joint)
Local Transport Information	64	57	↑	4 (joint)
Bus	58	57	↑	9
Sport	86	57	↑	1
Libraries	81	59	↑	1
Museums	14	22	↓	16 (joint)
Theatres	22	30	↓	17
Parks	96	87	↑	1 (joint)

Respondents were asked to state the extent to which they agree or disagree that the County Council and Borough Council provide value for money. Burton respondents were more likely to agree with the statements than the Borough average.

% of respondents who think:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council provides value for money	33	31	↑	10
Staffordshire County Council provides value for money	33	30	↑	7

Respondents were asked how satisfied they are with the way the County Council and Borough Council run things. Burton respondents were less likely to be satisfied with how both authorities run things.

% of respondents who are satisfied with the way:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council runs things	34	43	↓	18
Staffordshire County Council runs things	35	41	↓	15 (joint)

Local Decision Making

The Government aims to build communities where individuals are empowered to make a difference both to their own lives and to the area in which they live. A key indicator of this is the extent to which people feel able to influence decisions affecting their local area. Respondents were asked if they feel they can influence decisions in their locality. Burton respondents are less likely to feel they can than the Borough average.

% of respondents who feel:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
They can influence decisions in their locality	19	26	↓	16	29	↓

Respect and Consideration

Compared to the Borough average Burton respondents are more likely to score negatively in the following areas:

- Parents take responsibility for the behaviour of their children – the rationale behind this question is to focus local authorities and their partners on supporting effective parenting and to take action to ensure parents are held responsible where their children behave in an unacceptable manner.
- People from different backgrounds get on well together – this measure is widely recognised as a key indicator of a cohesive society. The Local Government White Paper sets out the aim of creating strong and cohesive communities.
- They have been treated with respect and consideration by local public services – local authorities are encouraged to consider this indicator in terms of narrowing gaps between perceptions for different group(s).

However Burton respondents are more likely to feel there is not an issue with people not treating each other with respect and consideration – the rationale behind this question is to encourage local authorities and their partners to take action to promote strong communities with shared values where community members treat each other with respect and consideration.

% of respondents who feel:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Parents take responsibility for the behaviour of their children	9	30	↓	20	30	↓
People from different backgrounds get on well together	65	71	↓	16	76	↓
People do not treat each other with respect & consideration	14	29	↑	4 (joint)	31	↑
They have been treated with respect & consideration by local public services	66	71	↓	16	72	↓

Community Safety

Respondents were asked how safe they feel when outside in their local area during the day and after dark. Across the Borough those who were dissatisfied with their local area as a place to live were more likely to feel unsafe.

Burton respondents were more likely to feel safe after dark and during the day than the Borough average.

% of respondents who feel:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Safe after dark	62	54	↑	9 (joint)
Safe during the day	99	90	↑	2 (joint)

Anti-social Behaviour

Respondents were asked to think about their local area and to say whether each of a number of different types of antisocial behaviour was a very/fairly big problem. Local authorities are the key partner in tackling ASB and have statutory duties to enforce ASB legislation. Burton scores negatively compared to the Borough average for all the aspects of anti-social behaviour listed in the questionnaire with the exception of vandalism/graffiti to property/vehicles. In fact it has the worst ranking of all the wards for rubbish or litter lying around.

% of respondents who feel the following ASB is a problem:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Noisy neighbours or loud parties	16	13	↓	14 (joint)	N/A	N/A
Teenagers hanging around the streets	61	41	↓	19 (joint)	N/A	N/A
Rubbish or litter lying around	47	27	↓	21	N/A	N/A
Vandalism/graffiti to property/vehicles	19	26	↑	9 (joint)	N/A	N/A
People using or dealing drugs	46	28	↓	19	31	↓
People being drunk or rowdy in public	31	24	↓	13 (joint)	29	↓
Abandoned or burnt out cars	11	5	↓	20	N/A	N/A

Confidence in Police

Respondents were asked whether they agree or disagree that the police and other local public services seek people's views about dealing with ASB and crime in their local area. This measure is being employed as a proxy to measure confidence in local agencies to tackle the community safety issues that matter to local people. Burton respondents were less likely to agree with this statement (13%) than the Borough average (26%).

Respondents were then asked whether they agree or disagree that the police and other local public services are successfully dealing with ASB and crime in their local area. Burton respondents were less likely to agree with this statement (17%) than the Borough average (26%).

% of respondents who agree the police & other local services are:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Seeking people's views about dealing with ASB & crime	13	26	↓	21	25	↓
Successfully dealing with ASB & crime	17	26	↓	19	26	↓

Additional Questions

East Staffordshire Borough Council added additional questions to the Place Survey about the local bus services. Older respondents were more likely to be satisfied with each element than younger respondents as were non disabled respondents compared with disabled respondents. Burton scores below the Borough average for satisfaction in terms of all aspects of the local bus service.

% of respondents who are satisfied with:	Burton	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
The frequency of buses	51	61	↓	14
The number of bus stops	54	76	↓	15 (joint)
The state of the bus stops	56	71	↓	18
Whether buses arrive on time	57	59	↓	14
How easy buses are to get on & off	70	73	↓	11 (joint)
The bus service overall	54	60	↓	12
