

## Ward – Town

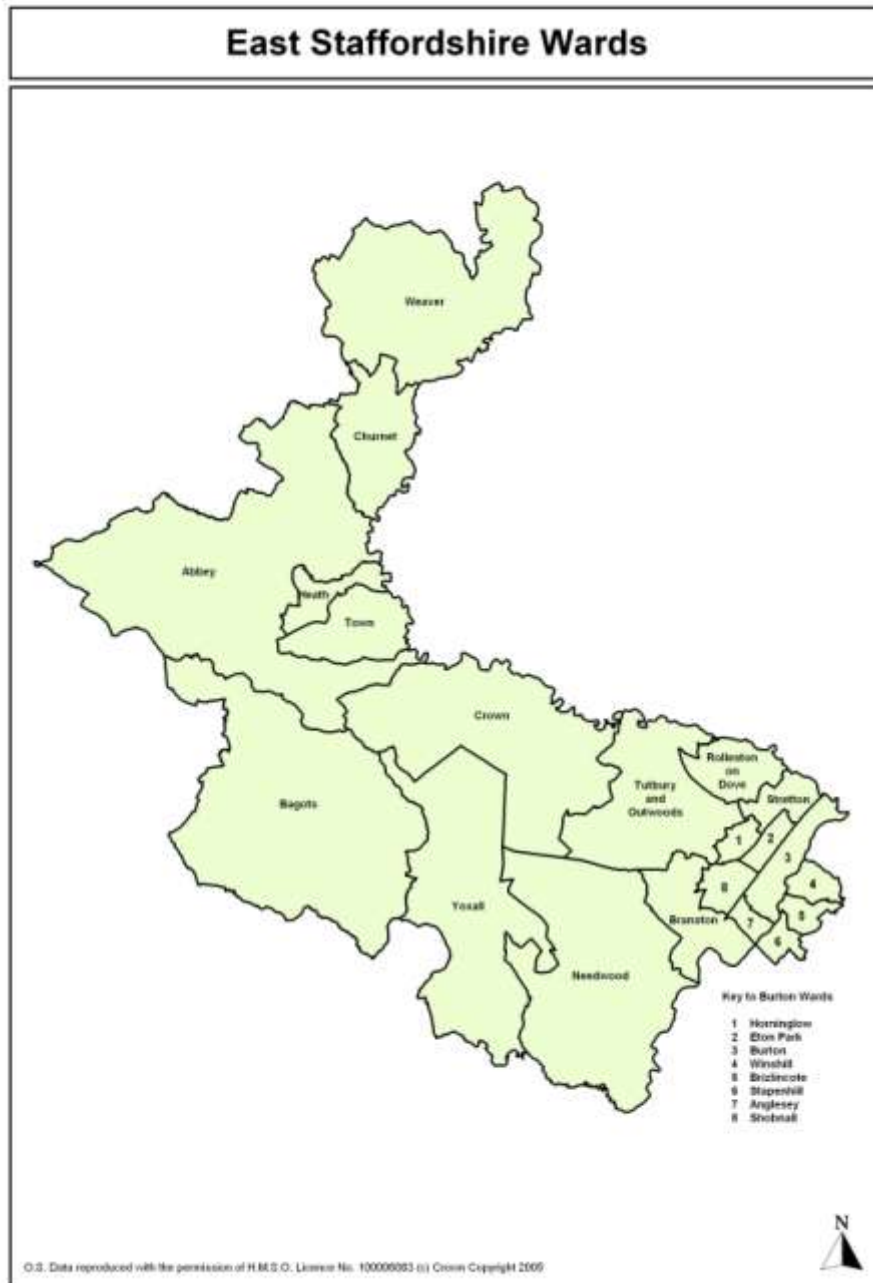

### Councillors

Peter Ball – Conservative

Malcolm Barrett – Conservative

### Area

Town covers 967 hectares. This represents 2.5% of the total area of East Staffordshire.

## 2001 & 2011 Census

The Census which takes place every ten years provides the most authoritative statistics on our local population. The 2011 Census work has started but the first results from this will not be available until September 2012, and this will initially be at a local authority level. Further results will be released by the Office for National Statistics throughout 2013/14. Therefore, many of the statistics throughout this report refer to the 2001 Census.

## Summary Statistics

### Key statistics from 2001 Census of Population

Actual	Town	East Staffordshire	England & Wales
Population	5,974	103,770	52,041,916
Total permanent households	2,484	42,717	21,660,475
Percentage	%	%	%
Male	49.3	48.7	48.7
Female	50.7	51.3	51.3
Ethnic minority	1.6	6.1	8.7
Religion – Christian	83.5	77.4	71.8
No Religion	10.3	11.5	14.8
Children aged 0-15	21.0	21.2	20.2
People aged 16-74	72.2	71.7	72.2
People aged 75+ years	6.8	7.1	7.6
Employed (of those aged 16-74)	67.4	63.1	60.6
Looking after home/family (of those aged 16-74)	5.5	6.6	6.5
Retired (of those aged 16-74)	13.1	14.5	13.6
Occupation – Manager or Senior Official	18.4	15.1	15.1
Occupation – Process, Plant or Machine Operative	11.4	12.1	8.5
Households with no car	20.9	23.2	26.8
Households with 2 or more cars	34.3	32.6	29.4
Travel to Work – by Bike or On Foot	18.4	15.1	12.8
Travel to Work – Drive a Car or Van	62.1	61.8	55.2
Residents with limiting long term illness	15.4	17.1	18.2
Residents who described their health as 'not good'	6.7	7.9	9.2
Residents who provide unpaid care	8.3	10.0	10.0
Owner occupied households	77.6	75.8	68.9
Rented from a Council or RSL	12.2	14.1	19.2
No Central Heating	9.9	15.3	8.5
Pensioner living alone	13.8	14.0	14.4
Single person households	28.9	27.7	30.0
Lone parent households	5.0	5.7	6.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census data show that when compared to East Staffordshire and England & Wales, Town has:

- A smaller Black & Minority Ethnic population
- A higher proportion of Christians and a lower proportion with no religion
- A lower proportion of children than the Borough average
- A lower proportion of people over 75
- A higher proportion of residents who are employed
- A lower proportion of residents who look after the family/home
- A higher proportion of residents whose occupation is manager or senior official
- A lower proportion than the Borough average of process, plant or machine operatives
- A lower proportion of households with no car and a higher proportion with 2 or more
- A higher proportion who travel to work by bike or on foot and a higher proportion who drive
- A lower proportion of residents with a limiting long term illness and 'not good' health
- A lower proportion of residents who provide unpaid care
- A higher proportion of owner occupied households & fewer rented from the Council or an RSL
- A lower proportion of households than the Borough average without central heating
- A lower proportion of lone parent households and single pensioners

## Population

The most authoritative population estimates are produced every ten years based on the Census of Population. The 2001 Census gives the population of Town as 5,974, which is a rise of 36.3% since 1991.

### Age of Resident Population in 2001 - %

	Town	East Staffordshire	England & Wales
Under 16	21.0	21.2	20.2
16 to 19	4.7	4.8	4.9
20 to 29	12.2	10.6	12.6
30 to 59	43.4	42.6	41.5
60 to 74	12.0	13.7	13.3
75 and over	6.8	7.1	7.6
<b>Average Age</b>	<b>37.6</b>	<b>38.6</b>	<b>38.6</b>

Source: 2001 Census Area Statistics

The above figures are updated to produce mid year population estimates in the inter-censal period. The latest figures are for 2009 and these estimate the population of Town to be 6,830, which is a rise of 14.3% on the 2001 Census figure.

### Mid 2009 Population Estimates by Broad Age Group

	All Ages	Children 0 - 15	Working Age 16-64M/59F	Older People 65M/60F & over
Town	6,830	19.9	61.5	18.7
East Staffordshire	108,800	19.6	60.0	20.4
Staffordshire	828,700	17.9	60.4	21.7
West Midlands	5,431,100	19.4	60.6	20.0
England	51,809,700	18.7	61.9	19.3

Source: Office for National Statistics Crown Copyright 2010

In addition to the ward level mid year population estimates the Office for National Statistics has produced parish level mid year estimates. The latest are for 2009. Please note these are estimates.

### Mid-2009 Population Estimates for Parishes

Parish Name	Ward	All Ages	Children Aged 0 to 15	Young People 16 to 24	Those Aged 25 to 59	Older People Aged 60+
Uttoxeter	Town & Heath	12770	2566	1412	5966	2826

Source: Office for National Statistics © Crown Copyright 2011

### Ethnic Group – Resident Population in 2001 - %

	Town	East Staffs	England & Wales
White	98.4	93.9	91.3
Mixed	0.4	0.9	1.3
Asian or Asian British	0.8	4.3	4.4
Black or Black British	0.1	0.6	2.2
Chinese or Other Ethnic Group	0.2	0.3	0.9
<b>Black &amp; Minority Ethnic</b>	<b>1.6</b>	<b>6.1</b>	<b>8.7</b>

Source: 2001 Census Area Statistics

## Religion – Resident Population - 2001

In the 2001 Census 83.5% of Town residents stated their religion to be Christian. This is above the East Staffordshire average of 77.4% and the England & Wales average of 71.8%. 10.3% responded with 'No Religion'. This is below the East Staffordshire average of 11.5% and the England & Wales average of 14.8%. Christianity is the only major religion in Town. All other religions each account for less than 1.0% of the local population. This contrasts with the picture for the whole Borough, as Islam is the religion of 4.0% of East Staffordshire residents. However, it is in line with the low Black & Minority Ethnic (BME) population in Town.

Key points from the latest population data show that when compared to East Staffordshire and England, Town has:

- A higher percentage of children
- A similar percentage of working age residents
- A lower percentage of older people
- A lower average age (2001)
- A significantly smaller Black & Minority Ethnic population
- A higher percentage of Christians and a lower percentage who have no religion

## Economic Activity

### Economic Activity – Resident Population Aged 16 to 74 - %

	Town	East Staffordshire	England & Wales
Employed	67.4	63.1	60.6
Unemployed	2.6	3.1	3.4
Economically active full-time students	2.2	2.1	2.6
Retired	13.1	14.5	13.6
Economically inactive students	2.6	3.1	4.7
Looking after home/family	5.5	6.6	6.5
Permanently sick or disabled	4.0	4.3	5.5
Other economically inactive	2.7	3.2	3.1

Source: 2001 Census Area Statistics

72.1% of all Town residents aged 16 to 74 are economically active (full and part-time employed, self-employed, unemployed or economically active full-time student). This is above the East Staffordshire average of 68.3% and the England & Wales average of 66.5%.

Key points from the 2001 Census economic activity data show that when compared to East Staffordshire and England & Wales, Town has:

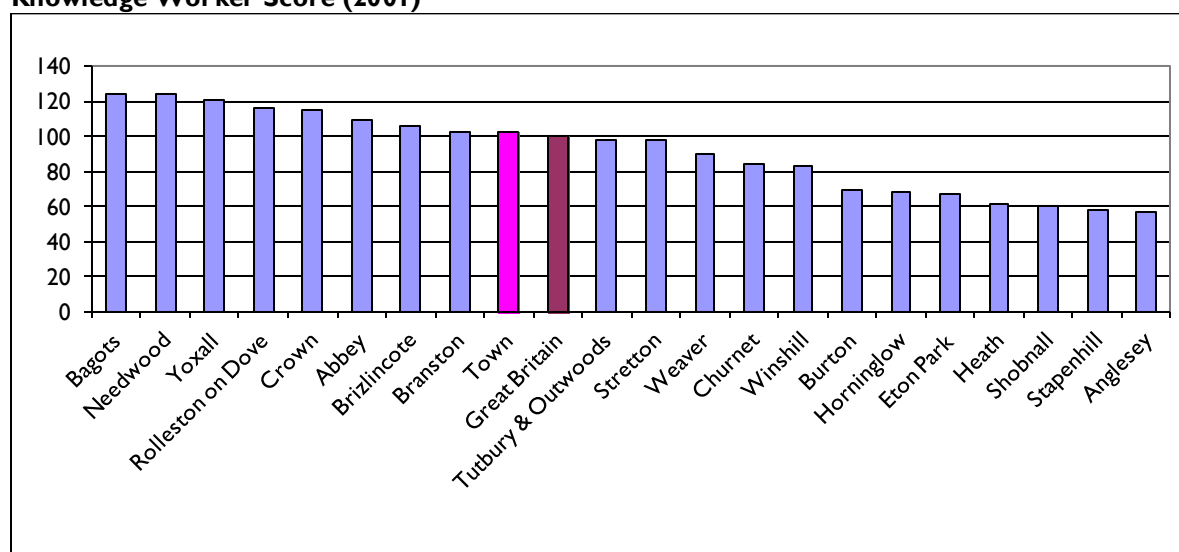

- A higher employment rate
- A lower proportion of economically inactive students
- A lower proportion of retired residents
- A lower proportion of those who are looking after the home/family
- A lower proportion of those who are permanently sick or disabled
- A lower 'other' economically inactive rate

### Occupation Groups – Resident Population Aged 16-74 - %

	Town	East Staffs	England & Wales
Managers & Senior Officials	18.4	15.1	15.1
Professional	10.6	9.4	11.2
Associate Professional & Technical	11.9	11.0	13.8
Admin & Secretarial	11.6	11.3	13.3
Skilled Trades	11.2	12.9	11.6
Personal Service	6.2	6.5	6.9
Sales & Customer Service	6.3	6.8	7.7
Process, Plant & Machine Operatives	11.4	12.1	8.5
Elementary e.g. labourers, porters	12.5	14.7	11.9

Source: 2001 Census Area Statistics

### Knowledge Worker Score (2001)

Source: Local Knowledge; Census 2001

The Knowledge Worker Score is an index showing the proportion of working age residents that are employed in knowledge occupations. These occupations are based on the following SOC groups:

- 1) Managers and Senior Officials
- 2) Professional Occupations
- 3) Associate Professional and Technical Occupations

The national average is 100 – if the figure is below 100 for a ward then a lower proportion of its residents work in knowledge occupations.

Key points from the 2001 Census occupation group data show that when compared to East Staffordshire and England & Wales, Town has:

- A higher proportion of managers and senior officials
- A higher proportion of professionals, associate professional & technical and admin and secretarial occupations than the Borough average
- A lower proportion of skilled trades, personal service, sales and customer service occupations
- A higher proportion of knowledge workers than the Great Britain average.

### Industrial Groups – Resident Population Aged 16-74 in Employment - %

	Town	East Staffordshire	England & Wales
Agriculture; Hunting; Forestry & Fishing	1.6	2.1	1.5
Mining & Quarrying	0.5	0.3	0.3
Manufacturing	22.5	22.7	15.0
Electricity; Gas & Water Supply	0.6	0.8	0.7
Construction	6.8	7.0	6.8
Wholesale & Retail Trade; Repair of Motor Vehicles	16.6	17.3	16.8
Hotels & Restaurants	5.7	4.9	4.8
Transport; Storage & Communication	6.8	6.5	7.0
Financial Intermediation	2.3	1.9	4.7
Real estate; Renting & Business Activities	9.4	10.4	13.0
Public Administration & Defence; Social Security	5.1	3.5	5.7
Education	9.1	7.5	7.8
Health & Social Work	8.1	10.5	10.8
Other	4.8	4.5	5.2

Source: 2001 Census Area Statistics

Key points from the 2001 Census Industry data show that when compared to East Staffordshire and England & Wales, Town has:

- A higher proportion in hotels & restaurants and education.
- A lower proportion of residents employed in wholesale & retail trade, repair of motor vehicles, real estate, renting and business activities and health & social work.

### Travel to Work Methods – All People Aged 16-74 in Employment - %

	Town	East Staffs	England & Wales
Work from home	9.0	9.6	9.2
Underground; metro; light rail; Tram	0.0	0.0	3.0
Train	1.1	0.8	4.1
Bus; Mini Bus or coach	1.6	3.7	7.4
Motorcycle; Scooter; moped	0.5	1.0	1.1
Driving a car or van	62.1	61.8	55.2
Passenger in a car or van	6.8	7.1	6.3
Taxi or minicab	0.3	0.6	0.5
Bicycle	2.0	4.1	2.8
On foot	16.4	11.0	10.0
Other	0.3	0.4	0.5

Source: 2001 Census Area Statistics

Key points from the 2001 Census Travel to Work data show that when compared to East Staffordshire and England & Wales, Town has:

- A lower proportion of residents who work from home
- A lower proportion of residents who travel by bus, mini bus or coach
- A higher proportion of residents who drive to work
- A lower proportion of residents who use a bicycle
- A significantly higher proportion who travel on foot

## Number of Employees & Proportion of Full-time & Part-time Employment – 2009

	Number of Employees	% Full time	% Part time
Town	4,400	57.2	42.8
East Staffordshire	53,000	70.3	29.7
Staffordshire	309,300	68.0	32.0
England & Wales	23,823,600	67.9	32.1

Source: Business Register and Employment Survey 2009 (Figures are rounded to nearest 100)

These figures exclude farm agriculture

Key points from the 2009 Employment Survey data show that when compared to the East Staffordshire average, Town has:

- A much lower proportion of full-time employees
- A much higher proportion of part-time employees

## Unemployment

April 2011	Town	East Staffordshire	Staffordshire	England
Total unemployed - %	1.6	2.9	2.8	3.7
<b>Of which:</b>				
% aged under 25	14.1	31.1	31.7	28.2
% unemployed for over 12 months	7.8	8.2	11.4	14.0

Source: Nomis – Claimant Count

Key points from the unemployment data show that when compared to Staffordshire and East Staffordshire, Town has:

- A lower unemployment rate
- A lower youth unemployment proportion
- A lower long term unemployment proportion

## Education

### Key Stage 2 Test Results in 2010 - %

Key Stage 2 Results	Both English & Maths	English	Maths	Average Point Score
<b>2010</b>	%		%	
Oldfields Hall Middle School	78%	89%	82%	28.1
St Joseph's Catholic Primary	88%	88%	96%	27.7
Staffordshire Average	74	81	81	27.6
England Average	73	80	79	27.5

The table shows the percentage of eligible pupils achieving Level 4 or above in each subject. Level 4 is the level expected of most 11 year olds.

### Percentage in Receipt of Free School Meals – October 2010

Primary Schools	%	Middle & Secondary Schools	%
Picknalls County First	6.1	Thomas Alleyne's High	4.3
St Joseph's RC (A) Primary	8.1	Windsor Park C of E Middle	7.5
St Mary's CEA First	19.9	Oldfields Hall Middle	6.7
East Staffordshire	14.5	East Staffordshire	8.7
Staffordshire	13.3	Staffordshire	9.4

Source: Staffordshire LEA

The School Census summaries, at a ward level, some of the information set out above. It is collected by Staffordshire County Council and covers nursery, primary, middle, secondary and special schools in the maintained sector in Staffordshire. It includes information on pupils by gender, free school meal eligibility, ethnicity, special educational needs, travel to school methods and gifted and talented status. If there are less than 10 children in one category the percentage is given as Suppressed.

## School Census 2010

2010	Town	East Staffordshire	Staffordshire
% of pupils who are girls	47.6	48.8	48.8
% of pupils who are boys	52.4	51.2	51.2
% of BME pupils	4.1	18.6	7.2
% who have Free School Meals	4.6	13.4	12.4
% of pupils subject to School Action	7.3	12.8	10.6
% of pupils subject to School Action Plus	3.8	12.8	10.6
% of pupils who have a SEN Statement	1.2	2.3	2.7
% of pupils who are subject to School Action Plus or have a SEN Statement	5.0	6.6	7.6
% of pupils travelling to school by car/van	25.6	23.7	27.7
% of pupils travelling to school by bus	Suppressed	1.9	2.4
% of pupils walking to school	67.4	58.1	54.8
% of Pupils who are Gifted or Talented	12.5	10.3	10.4

Source: Staffordshire Observatory/Staffordshire County Council

## Qualifications Held by Resident Population Aged 16-74 in 2001 - %

	Town	East Staffs	England & Wales
Had no qualifications	27.0	31.8	29.1
Qualified to degree level or higher	18.6	16.0	19.8

Source: 2001 Census Area Statistics

Key points from the schools data show that when compared to Staffordshire LA and England averages, schools in and around Town have:

- A higher percentage of eligible pupils achieving Level 4+ at Key Stage 2 in all subjects
- A higher level of overall and persistent
- A lower percentage of eligible pupils achieving 5 or more GCSEs at grades A-C
- A higher percentage of eligible pupils achieving 5 or more GCSEs at grades A-C that include English & Maths
- A higher percentage of school leavers continuing with structured learning in 2010
- A lower percentage of school leavers not yet settled in any full-time positive activity in 2010
- A lower average point score per student than the national average at GCE (post 16) level and a lower average point score per exam entry
- A lower percentage of pupils receiving free school meals at all the primary and secondary schools with the exception of St Mary's First

Key points from the Census show that when compared to East Staffordshire and England & Wales averages, residents in Town have:

- A lower proportion of residents with no qualifications
- A higher proportion of residents than the Borough average qualified to degree level above

Key points from the 2010 School Census show that when compared to East Staffordshire averages, pupils in Town are:

- Less likely to be of BME origin
- Less likely to have free school meals
- Less likely to be subject to School Action or School Action Plus
- Less likely to have a SEN statement
- More likely to travel to school by car
- More likely to walk to school
- More likely to be termed gifted or talented.

# Health

## Key Health Comparators - %

2001 Census Area Statistics	Town	East Staffs	England & Wales
Residents with limiting long-term illness (2001)	15.4	17.1	18.2
Residents who described their health as 'Good'	73.4	69.4	68.6
Residents who described their health as 'Fairly Good'	19.9	22.6	22.2
Residents who described their health as 'Not Good'	6.7	7.9	9.2
Residents who provide unpaid care	8.3	10.0	10.0

Source: 2001 Census Area Statistics

## Health Lifestyle Behaviours – Model Based Estimates Jan 2003 to Dec 2005

	Town	East Staffordshire
Proportion of Residents who Smoke	21.9	25.8
Proportion of Residents who Binge Drink	18.9	17.4
Proportion of Residents who are Obese	24.6	26.2
Proportion of Residents who consume 5+ Portions of Fruit & Veg	26.8	24.5
The data for this indicator is part of a data modelling exercise carried out based on the Health Survey of England. Results are based on 3 year sample data of 16,000 adults and 4,000 children each year. The figures should not be used as actual figures but rather should be viewed as expected levels based on the socio-demographic characteristics of the area.

## Average Life Expectancy (1999 – 2003)

Source: Local Knowledge; Life Expectancy at Birth

### Standardised Mortality Ratio (SMR) (1999 – 2003)

Source: Local Knowledge; Standardised Mortality Ratios

The Standardised Mortality Ratio compares overall mortality in a locality with that for the UK as a whole. The ratio expresses the number of deaths in a locality as a percentage of the hypothetical number that would have occurred if the local population had experienced the sex/age specific rates of the UK in that year. The lower the figure, the lower the relative mortality.

In the table below the Health Intelligence and Clinical Evidence Team, Staffordshire Public Health have summarised some of the key health indicators. Those shaded red are statistically worse than the England average and those shaded green are statistically better. The following measurement is statistically worse for those living in Town:

- Life expectancy at birth for males (years)

The following measurements are statistically better for those living in Town:

- Percentage of population with a self reported limiting long term illness
- Smoking prevalence - adults (Mosaic estimates)
- Percentage of adult population doing no exercise in the last month (Mosaic estimates).

### Summary of Key Health Indicators

	Town	East Staffs
Percentage of births with a low birthweight (under 2,500 grams) (2004/08)	8.5%	9.1%
Life expectancy at birth for males (years) (2004/08)	75.1	76.9
Life expectancy at birth for females (years) (2004/08)	81.9	81.1
All-age all cause mortality rate per 100,000 population (2004/08)	642	626
Premature mortality (rate per 100,000 population aged under 75) (2004/08)	344	306
Premature mortality from circulatory diseases (rate per 100,000 people aged under 75) (2004/08)	84	80
Premature mortality from cancers (rate per 100,000 people aged under 75) (2004/08)	138	113
Mental Illness Needs Index (MINI) (rate per 100,000 population) (2000)	305	350
Percentage of population with a self reported limiting long term illness (2001)	14%	17%
Smoking prevalence - adults (Mosaic estimates) (2009)	24%	25%
Obesity prevalence - adults (Mosaic estimates) (2009)	16%	17%
Percentage of adult population eating five or more portions of fruit or vegetables a day (Mosaic estimates) (2009)	25%	24%
Percentage of adult population doing no exercise in the last month (Mosaic estimates) (2009)	48%	51%

Source: Health Intelligence and Clinical Evidence Team, Staffordshire Public Health

Key points from the 2001 Census show that when compared to the East Staffordshire and England & Wales averages Town has:

- A lower proportion of residents suffering with a limiting long-term illness
- A lower proportion of residents who described their health as 'Not Good'
- A lower proportion of residents who provide unpaid care

Key points from the Healthy Lifestyle Behaviours Survey show that when compared to the Borough average Town is thought to have:

- A lower proportion of residents who are obese and who smoke
- A higher proportion of residents who binge drink
- A higher proportion of adults that eat 5 or more portions of fruit and vegetables a day

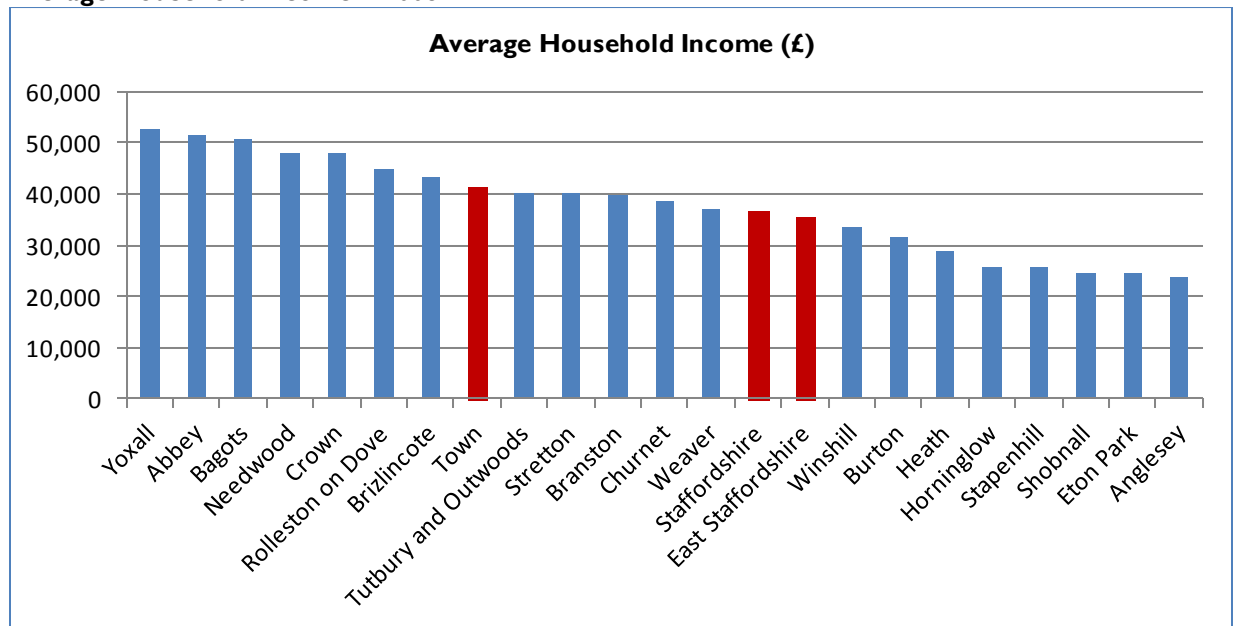

Key points from the 1999 – 2003 life expectancy and standardised mortality ratio data show that when compared to the national average Town has:

- A higher than average life expectancy
- A higher than average SMR

## Income

The average household income across East Staffordshire in 2008 was £35,500, which is slightly below the Staffordshire average of £36,800. However, across Town the average household income in 2008 was £41,500, which is above the Borough and County figures.

### Average Household Income – 2008

## DWP Benefit Claimants – Working Age Clients – May 2010

Proportion of resident population aged 16-64 claiming benefits			
%	Town	East Staffordshire	Great Britain
Total claimants	9.9	13.3	14.7
Job seekers	1.7	3	3.5
ESA and incapacity benefits	5.6	6	6.7
Lone parents	0.7	1.5	1.7
Carers	0.6	1.1	1.1
Others on income related benefits	0.3	0.5	0.5
Disabled	0.7	1	1
Bereaved	0.2	0.3	0.2

Source: DWP Benefit Data – Nomis

Key points from the income data show that when compared to East Staffordshire, Town has:

- An average household income of £41,500, which is above the East Staffordshire average (£35,500)
- A lower proportion of total benefit claimants
- A lower proportion claiming each individual benefit.

## Housing

At the time of the 2001 Census there were 2,484 household spaces with residents in Town. There was also an additional 70 household spaces without residents, making a total of 2,554 household spaces in Town in April 2001.

### Households – 2001 Census Findings - %

	Town	East Staffordshire	England & Wales
One person households	28.9	27.7	30.0
Pensioner living alone	13.8	14.0	14.4
Other all pensioner households	8.9	9.6	9.4
Contained dependent children	31.7	31.0	29.5
Lone parent households with dependent children	5.0	5.7	6.5
Owner occupied	77.6	75.8	68.9
Rented from Council	7.1	8.1	13.2
Rented from Housing Association or RSL	5.1	6.0	6.0
Private rented or lived rent free	10.2	10.2	11.9
Without central heating	9.9	15.3	8.5
Without sole use of bath, shower or toilet	0.0	0.3	0.5
Have no car or van	20.9	23.2	26.8
Have 2 or more cars or vans	34.3	32.6	29.4
Average household size (number)	2.4	2.4	2.4
Average number of rooms per household	5.8	5.7	5.3

Source: 2001 Census Area Statistics

Key points from the housing data show that when compared to East Staffordshire, households in Town are:

- Less likely to be pensioners living alone, all pensioner households and lone parent households
- More likely to be households containing dependent children
- More likely to be owner occupied and less likely to be rented from the Council or an RSL
- Less likely to be without central heating than the Borough average
- Less likely to have no car or van and more likely to have 2 or more cars or vans
- More likely to be larger in terms of the number of rooms

### Households – 2001 Census – Accommodation Type - %

	Town	East Staffs	England & Wales
Percentage living in a detached house	41.4	31.7	22.8
Percentage living in a semi-detached house	28.6	32.8	31.6
Percentage living in a terraced house	21.2	25.7	26.0
Percentage living in a flat or maisonette	8.6	9.4	19.2
Percentage living in a caravan or mobile home	0.2	0.4	0.4

Source: 2001 Census Area Statistics

Key points from the 2001 Census show that when compared to East Staffordshire, households in Town are:

- Significantly more likely to be in a detached house
- Less likely to be in a semi-detached or terraced house
- Less likely to be in a flat or maisonette, caravan or mobile home

### Private Sector House Condition Survey 2008

The 2008 House Condition Survey was distributed to a random sample of 1,250 private sector households and entailed full internal and external surveys plus supporting interviews with the occupying households. At the time of the survey there were 41,968 private dwellings, 38,849 of which were occupied (92.6%) and 3,119 (7.4%) were vacant. Of these 14,048 households (36.2%) are elderly and 12,464 households are economically vulnerable (32.1%). There is a mixed age profile with 16,596 dwellings (39.5%) constructed pre-1945 and 11,434 dwellings (27.2%) constructed pre-1919.

Housing conditions in the Borough are better than the national average for private housing; however, housing condition problems remain significant:

- 13,445 dwellings (32.0%) are non-decent
- 8,137 dwellings (19.4%) exhibit Category I hazards

	Category I Hazards	Non-decent Homes	Decent homes Energy Failure Rates	Fuel Poverty
Burton & Horninglow	30.3	50.3	25.9	39.2
Inner Burton (Anglesey, Eton Park and Shobnall)	29.9	39.9	18.8	41.7
Rural North (Abbey, Churnet & Weaver)	23.9	31.3	22.5	33.6
Rural South (Bagots, Crown, Needwood, Rolleston on Dove, Tutbury & Outwoods, Yoxall)	21.0	39.5	26.9	44.6
Winshill & Stapenhill	14.5	23.5	12.3	32.9
Uttoxeter (Heath & Town)	12.0	22.8	9.6	27.2
Outer Burton (Branston, Brizlincote and Stretton)	8.4	18.5	11.1	27.2
Borough Average	19.4	32.0	18.1	35.5

### Category I hazards

These include falls on steps/stairs, excess cold, dampness/mould and crowding/space. Category I hazards are not evenly distributed across the Borough but are higher across the Inner Burton and Burton/Horninglow areas

### Non-decent homes

The most common reasons for failing the Decent Homes Standard relate to energy efficiency and Category I hazards. Patterns of non-decent housing are similar to those for Category I hazards with higher rates for the Inner Burton and Burton/Horninglow areas. Rates of non decency are also higher in the Rural South. Poor housing conditions within the Borough are associated with households in social and economic disadvantage. A significant proportion of households living in non-decent homes are made up of the elderly (36.2%) and the economically vulnerable (48.8%).

### Home energy efficiency

The home energy efficiency rates in private housing in the Borough are above the national average. East Staffordshire has an average SAP Rating of 56 compared to an average of 47 for all private housing in England. 7,585 dwellings fail the Decent Homes energy requirements representing 18.1% of all private dwellings.

### Fuel Poverty

13,805 households in the Borough (35.5%) are in Fuel Poverty. The highest rates of fuel poverty are associated with Inner Burton and the Rural South. Rates of fuel poverty are also higher for households in pre-war housing, terraced housing and converted flats. Households most affected include young single households, single parent families and the elderly.

Key points from the 2008 House Condition Survey show that when compared to the East Staffordshire average, private housing stock in the Uttoxeter area is:

- Less likely to exhibit Category I Hazards
- Less likely to be non-decent
- Less likely to fail the Decent Homes Energy Rating
- Less likely to be in Fuel Poverty

### Register of Electors 2010

The table below shows a count of the number of properties at the time of the 2010 Register of Electors. It shows a total of 3,100 properties in Town ward, which is an increase of 21.4% on the 2001 Census figure. This is above the East Staffordshire increase of 10.4%. There are obviously differences in the way the information is produced but it gives an indication of the change in the number of properties during this period.

Electoral Area	Properties	% of Total	Voids	Void % of Props
BT - Uttoxeter Town	2,319	75%	204	9%
BU - Uttoxeter Town	781	25%	30	4%
<b>Town</b>	<b>3,100</b>	<b>6%</b>	<b>234</b>	<b>8%</b>
East Staffordshire	49,048	100%	3,385	7%

Source: Register of Electors 2010

### Fire Service Arson Returns 2008-2009

Town	%	Number
Arson incidents	5.6	11
Malicious false Alarms: Attended	0.0	0
Malicious false Alarms: Not attended	0.0	0
Primary fires	0.0	0
Accidental dwelling fires	2.6	1
Deliberate vehicle fires	0.0	0
Deliberate other fires	0.0	0
Deliberate grass fires	0.0	0

Source: Staffordshire Fire Service

## Index of Local Deprivation 2010

The Indices of Deprivation 2010 (ID 2010) is a measure of multiple deprivation at a small area level. The small geographical areas the ID 2010 is based upon are called Lower Layer Super Output Areas (LSOA's) and each account for between 1,000 and 3,000 people. The purpose of basing the Indices upon LSOA's is to pinpoint small areas of deprivation that may otherwise be hidden within larger wards. The ID 2010 consists of an overall measure of deprivation and seven specific aspects – Income, Employment, Health and Disability, Education, Skills and Training, Barriers to Housing and Services, Living Environment and also Crime.

There are 32,482 LSOA's in England and four of these are located within Town ward. Below is a summary of the key points arising from the ID 2010 for Town's LSOA's. If the LSOAs fall within the top 10% or top 20% most deprived they are considered here to be deprived:

- **Overall Deprivation:** There are four LSOAs within Town. Two have seen a deterioration in their ranking since 2007 but none of them are deprived. In fact one is within the top 5% least deprived areas of England.
- **Income Deprivation:** None of the LSOAs experience income deprivation and in fact, one falls within the top 10% least deprived in terms of income.
- **Employment Deprivation:** None of the LSOAs experience employment deprivation and in fact, one falls within the top 5% least deprived in terms of employment.
- **Health & Disability Deprivation** None of the LSOAs experience health & disability deprivation.
- **Education, skills and training deprivation:** None of the LSOAs experience education, skills and training deprivation and one falls within the top 20% least deprived.
- **Barriers to housing and services deprivation:** None of the LSOAs are deprived in terms of barriers to housing and services. In fact, one falls within the top 5% least deprived and another within the top 20% least deprived in the country.
- **Crime Deprivation:** None of the LSOAs suffer from crime deprivation.
- **Living environment deprivation:** Town does not experience living environment deprivation. However, the extent of it varies considerably across the ward. One LSOA falls within the top 25% most deprived whereas another falls within the top 5% least deprived.

Town ward does not exhibit deprivation according to the measurements outlined above and one of its LSOAs falls within the top 5% least deprived in the country.

## Place Survey 2008 – 2009

All local authorities are required to undertake a Place Survey containing a standard set of questions which are designed to capture local people's views, experiences and perceptions. The aim is to use the findings to ensure that improvements for an area reflect local views and preferences. A random sample of 3,000 residents (aged 18 and over) were selected and 1,134 responses were received – a response rate of 38%. The findings set out below were calculated as a proportion of respondents who answered each question and exclude those who did not reply. The tables include a column for ranking within East Staffordshire, with a ranking of 1 being the most satisfied and 21 being the least satisfied.

### The Local Area

Respondents were asked to select five factors they felt were most important in making somewhere a good place to live and they were then asked to select the five that were most in need of improvement in their local area. The results for East Staffordshire as a whole are set out below:

Most important	Most in need of improvement
The level of crime (65%)	Activities for teenagers (47%)
Clean streets (45%)	Level of traffic congestion (37%)
Health services (41%)	Road and pavement repairs (31%)
Affordable decent housing (36%)	The level of crime (26%)
Education provision (28%)	Public transport (25%)

Only one factor (the level of crime) is thought to be both important and in need of improvement which suggest the Council and its partners are performing well in the areas considered to be the most important to the local residents.

Respondents were asked how satisfied or dissatisfied they are with their local area as a place to live. In Town 66% of respondents were very/fairly satisfied, which is below the Borough average (79%). The survey found that older respondents were more likely to be satisfied with their local area than younger respondents, which fits with the age structure of the ward. Town has a lower proportion of residents of pensionable age than the Borough average.

Respondents were asked how satisfied or dissatisfied they are with their home as a place to live. In Town 92% of respondents were very/fairly satisfied which is above the Borough average (90%). The survey found that home owners were more likely to be satisfied with their home than those who were renting. Town has a higher proportion of home owners than the Borough average (2001 Census).

Respondents were asked how strongly they feel they belong to their immediate neighbourhood. In Town 49% of respondents feel they very/fairly strongly belong which is below the Borough average (61%). The survey found that older respondents (65+) were more likely to feel they belong to their immediate neighbourhood and those who rent privately were less likely to feel so.

% of respondents who are:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Satisfied with local area	66	79	↓	16 (joint)	80	↓
Satisfied with home as a place to live	92	90	↑	10 (joint)	N/A	N/A
Feel they belong to immediate neighbourhood	49	61	↓	17	59	↓

### Local Public Services

This section covers perceptions of and satisfaction with local public services. Generally older respondents were more positive than younger respondents. There are a wide range of factors that may affect how people feel about their local authority and its services, such as demographic characteristics, how informed people are, and views on participation and local decision making.

In Town the respondents are less likely to agree that local public services are:

- Working to make the area safer
- Working to make the area cleaner and greener
- Promoting the interests of local residents
- Treating all types of people fairly.

% of respondents who think local public services are:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Working to make the area safer	54	67	↓	20
Working to make the area cleaner and greener	57	71	↓	20
Promote the interests of local residents	41	43	↓	10 (joint)
Act on the concerns of local residents	51	47	↑	7
Treat all types of people fairly	70	72	↓	12 (joint)

Respondents were asked how satisfied or dissatisfied they are with a number of different local services. In Town the satisfaction levels are below the Borough average for Staffordshire Fire & Rescue and the local hospital. Again older people were more positive than younger people and females were more satisfied than males.

% of respondents who are satisfied with:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Staffordshire Police	69	62	↑	2
Staffordshire Fire & Rescue	81	84	↓	15 (joint)
Your GP	91	85	↑	4
Local hospital	74	78	↓	17
Local dentist	78	72	↑	7 (joint)

Respondents were asked if they had used a number of services provided or supported by the Council in the last 12 months. Compared to the Borough average, fewer Town respondents had used:

- Local transport information
- Buses
- Libraries
- Museums
- Theatres

% of respondents who have used the service in last 12 mths:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Local tips/Household WRC	94	90	↑	7
Local Transport Information	45	57	↓	19 (joint)
Bus	35	57	↓	19
Sport	57	57	→	11 (joint)
Libraries	52	59	↓	15 (joint)
Museums	14	22	↓	16 (joint)
Theatres	26	30	↓	12
Parks	91	87	↑	7 (joint)

Respondents were asked to state the extent to which they agree or disagree that the County Council and Borough Council provide value for money. Town respondents were less likely to agree with the statements than the Borough average. In fact Town had the lowest proportion of respondents who agree that East Staffordshire Borough Council provides value for money (ranked 21).

% of respondents who think:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council provides value for money	16	31	↓	21
Staffordshire County Council provides value for money	25	30	↓	15

Respondents were asked how satisfied they are with the way the County Council and Borough Council runs things. Town respondents were less likely to be satisfied with how East Staffordshire Borough Council runs things than the Borough average.

% of respondents who are satisfied with the way:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
East Staffordshire Borough Council runs things	37	43	↓	14
Staffordshire County Council runs things	42	41	↑	10 (joint)

### Local Decision Making

The Government aims to build communities where individuals are empowered to make a difference both to their own lives and to the area in which they live. A key indicator of this is the extent to which people feel able to influence decisions affecting their local area. Respondents were asked if they feel they can influence decisions in their locality. Town respondents are less likely to feel they can than the Borough average.

% of respondents who feel:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
They can influence decisions in their locality	16	26	↓	18	29	↓

### Respect and Consideration

Compared to the Borough average Town respondents are more likely to score positively in the following areas:

- Parents take responsibility for the behaviour of their children – the rationale behind this question is to focus local authorities and their partners on supporting effective parenting and to take action to ensure parents are held responsible where their children behave in an unacceptable manner.
- They have been treated with respect and consideration by local public services – local authorities are encouraged to consider this indicator in terms of narrowing gaps between perceptions for different group(s).

However, Town respondents are less likely to feel people from different backgrounds get on well together – this measure is widely recognised as a key indicator of a cohesive society. The Local Government White Paper sets out the aim of creating strong and cohesive communities.

Town respondents are equally likely to feel people do not treat each other with respect and consideration – the rationale behind this question is to encourage local authorities and their partners to take action to promote strong communities with shared values where community members treat each other with respect and consideration.

% of respondents who feel:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Parents take responsibility for the behaviour of their children	41	30	↑	8	30	↑
People from different backgrounds get on well together	66	71	↓	15	76	↓
People do not treat each other with respect & consideration	29	29	→	12 (joint)	31	↑
They have been treated with respect & consideration by local public services	89	71	↑	2	72	↑

### Community Safety

Respondents were asked how safe they feel when outside in their local area during the day and after dark. Across the Borough those who were dissatisfied with their local area as a place to live were more likely to feel unsafe.

Town respondents were more likely to feel safe after dark and during the day than the Borough average.

% of respondents who feel:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire
Safe after dark	62	54	↑	9 (joint)
Safe during the day	92	90	↑	13

### Anti-social Behaviour

Respondents were asked to think about their local area and to say whether each of a number of different types of antisocial behaviour was a very/fairly big problem. Local authorities are the key partner in tackling ASB and have statutory duties to enforce ASB legislation. Town scores negatively compared to the Borough average for the following aspects of anti-social behaviour:

- Rubbish or litter lying around
- People using or dealing drugs
- People being drunk or rowdy in public

% of respondents who feel the following ASB is a problem:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Noisy neighbours or loud parties	11	13	↑	11	N/A	N/A
Teenagers hanging around the streets	32	41	↑	9	N/A	N/A
Rubbish or litter lying around	29	27	↓	14	N/A	N/A
Vandalism/graffiti to property/vehicles	20	26	↑	12	N/A	N/A
People using or dealing drugs	36	28	↓	14	31	↓
People being drunk or rowdy in public	31	24	↓	13 (joint)	29	↓
Abandoned or burnt out cars	1	5	↑	6	N/A	N/A

### Confidence in Police

Respondents were asked whether they agree or disagree that the police and other local public services seek people's views about dealing with ASB and crime in their local area. This measure is being employed as a proxy to measure confidence in local agencies to tackle the community safety issues that matter to local people. Town respondents were more likely to agree with this statement (34%) than the Borough average (26%).

Respondents were then asked whether they agree or disagree that the police and other local public services are successfully dealing with ASB and crime in their local area. Town respondents were more likely to agree with this statement (32%) than the Borough average (26%).

% of respondents who agree the police & other local services are:	Town	East Staffordshire	Comparison with East Staffordshire	Rank within East Staffordshire	England Average	Comparison with England
Seeking people's views about dealing with ASB & crime	34	26	↑	4	25	↑
Successfully dealing with ASB & crime	32	26	↑	7	26	↑

### Additional Questions

East Staffordshire Borough Council added additional questions to the Place Survey about the local bus services. Older respondents were more likely to be satisfied with each element than younger respondents as were non disabled respondents compared with disabled respondents.

Town scores below the Borough average for satisfaction in terms of all aspects of the local bus service with the exception of whether buses arrive on time.

<b>% of respondents who are satisfied with:</b>	<b>Town</b>	<b>East Staffordshire</b>	<b>Comparison with East Staffordshire</b>	<b>Rank within East Staffordshire</b>
The frequency of buses	53	61	↓	12 (joint)
The number of bus stops	50	76	↓	19
The state of the bus stops	50	71	↓	19
Whether buses arrive on time	60	59	↑	12
How easy buses are to get on & off	66	73	↓	15 (joint)
The bus service overall	53	60	↓	13
